State the nature of your concern: Rate increase. 60% increase is absurd. Poor people in our community are already struggling to pay it now they do NOT need an increase, especially that amount and if they have children in the home. You will be making a necessary public service unaffordable to many, many residents. Just found out about this today or I would have filed a complaint sooner. I like how our local government in Leslie County failed to make this well known so nobody would go against it.

Have you contacted the utility about the problem: No
