Motion to Intervene and Rehear Case # 2020-00290

Dear Commission Members:

I respectfully request that this case, #2020-00290, be reheard in light of the several dozen motions to intervene submitted to the commission and inadequate data presented to the commission members by Bluegrass Water UOC, LLC. The price increase to local consumers from \$22.19 to \$77.63 per month is completely unreasonable and totally out of line with other water supply districts. This is price gouging at its most basic.

In previous rate increase requests to the PSC, ( for instance case #2010-397 ) the commission dispatched a team to investigate the claims of the systems owner and made adjustments based on discovery of facts. There does not appear to have been significant investigation into this case to discover all the facts. Just a simple tour of the area served by what was the Center Ridge Water District would convey to low income status of the majority of customers. This price increase could easily represent a weeks grocery money for numerous families.

Thank you for your consideration.

Sincerely,

John and Donna Coyle
