Hello,

I understand there might be a determination today about possible changes to Net Metering rules for LG&E customers and I believe the case number is 2020-00350.

I would like to request that any changes not be made until at least 1/1/2022. Customers such as myself have suffered many installation delays due to the pandemic. There have been Covid related days in shipping of materials, a lack of installers and there have been regulatory approving delays due to the work from home approach taken by many governmental agencies and utilities. I submit these delays have caused customers who have signed installation contracts and approval for solar installation have been adversely affected and not able to complete solar system installation due to no fault of their own. A delay to any rule changes seems reasonable due to all the impacts of the Covid pandemic.

I still propose no rule changes should be made to help encourage people to invest in solar energy and develop this industry which will further help protect our environment.

Thanks,

Lyle Palmer
