READING(6pm) 302 USAGE 7 GALLONS

note: if water district is utilizing the fixed ZERO on the meter to derive between 2,500-4,500 gallons, WHY AREN'T THEY USING WITH THE BRAND NEW METER INSTALLED WHICH BY THE ABOVE FIGURES INDICATE I'VE USED 17 SEPTEMBER 2,880 GALLONS-----BASED ON THE FIXED ZERO ON METER.

PLEASE WITHIN LOGIC EXPLAIN THE DIFFERENCES BETWEEN THE DISPUTED AUDIT OF THE PREVIOUS METER WHERE THE DISTRICT HAD THE AUDACITY TO SAY I WAS USING 4,500 GALLONS A MONTH OR A DAILY AVERAGE OF 150 GALLONS

THAT IS PURELY BULL CRAP WHEN THEIR NEW METER INDICATES BY THE ABOVE READING (NOTE IT'S THEIR METER NOT MINE) INDICATES A TRUE AND ACCURATE INDICATION OF WATER CONSUMPTION.

YES, THEY WILL CHARGE ME FOR A MINIMUM 1,000 GALLONS THOUGH I WON'T USE THAT MUCH

I HAVE PROVEN THROUGH THE PREPONDERANCE OF THE EVIDENCE (THEIR DOCUMENTS METERS ETC) THAT I'M BEING RIPPED OFF.

UNLESS COUNSEL FOR THE WATER DISTRICT CAN CLAIM HE/SHE/IT IS AN EXPERT IN THIS FIELD THE WORDS PUT FORTH BY THIS WHATEVER IS TRULY PROPOSTEROUS TO SAY THE LEAST.

CONCLUSION

BASED ON THE FOREGOING, THE NEW METER INSTALLED ON 26 AUGUST 2021 AND ALL PREVIOUSLY SUBMITTED DOCUMENTS AND ARGUMENTS, THIS CASE NEEDS FURTHER INVESTIGATION INTO POSSIBLE **FRAUDULENT** PRACTICES BY THE **DEXTER/ ALMO HEIGHTS WATER DISTRICT**.

CERTIFICATE

A COPY OF THE FOREGOING WAS MAILED, VIA USPS TO COUNSEL OF RECORD FOR THE WATER DISTRICT THIS 21st DAY OF SEPTEMBER 2021
