Re: Case No. 2021-00319
Donald Roberts v. Dexter-Almo Heights Water District

Dear Ms. Bridwell:

This letter is in response to Commission Staff's filing of January 20, 2022.

Dexter-Almo Heights Water District ("Dexter-Almo District") has no objection to the filing. It appreciates the efforts of Commission Staff to verify the accuracy of Meter No. 01328549.

The test report that the Louisville Water Company prepared does not expressly indicate whether the meter is registering outside the range of error set forth in 807 KAR 5:006, Section 11(2). For both parties' benefit, Dexter-Almo District requests that Commission Staff indicate whether the test results on the meter show an average meter error greater than two (2) percent fast, the extent of the error, and whether a refund is required. Dexter-Almo District is prepared to satisfy promptly the Complaint if the tests indicate a meter error greater than 2 percent fast.

Sincerely,

Stoll Keenon Ogden PLLC
