Comments: Case #2021-00398 Falling Branch Cell Tower To the, Kentucky Public Service Commission, Commissioner's, Reliable cell service is badly needed in many areas of Rough River. Majority of the time it is impossible to make or receive calls due to spotty service. I do not know what would happen if I needed to contact fire department , sheriff's office or EMS in an emergency. Please approve the permit for the Falling Branch Cell Tower. Regards, Thomas Dotter 408 Four Seasons Road Falls of Rough, KY 40119 [REDACTED]

To whom it may concern.

We are full-time residents of Rough River Lake, our house is located in the Cave Creek area at 241 Seek and Find Path, Falls of Rough, Ky. We are writing to support the initiative to improve cell phone coverage around the Rough River Lake area. As full-time residents, having reliable cell phone coverage is not just a desire, it is a necessity. We rely on our cell phones for work (we both work remotely), everyday calling and texting, and internet usage when our extremely limited internet options fail due to storms or power failures. We currently average 1 maybe 2 bars of coverage, and most times have to connect our cell phones to the wifi to make a phone call, as the lake area becomes more populated in the summer the coverage declines significantly creating a safety concern for my family and myself, as our ability to call 911 or other emergency services becomes limited. This also creates a concern with our ability to conduct everyday functions like making phone calls, and working- in 2023 this should not be an issue.

The need for additional cell towers in this area cannot be denied. Even though we are a summer vacation destination, there are plenty of people who live in the area full-time and rely on cell phones for work, safety, and communication. It would be great to have reliable cell phone service and the possibility of LTE or 5G internet service.

Thank you

Tami and Rich Fischer

Regarding docket #2021-000398

Please consider the economic loss, not to mention the unsightliness, the Nicolai family will incur with the building of the proposed tower at 2589 Blue Bird Rd Falls of Rough KY, 40119. Especially when one takes into account they will receive no economic benefit and that there are other acceptable locations on the property of those who will lease their land to the phone company for the proposed tower.

If an alternative location cannot be agreed upon, we ask that you deny the tower application from Cingular Wireless/AT&T and Tillman Infrastructure.

Respectfully,
