RE: Case # 2022-00035

Dear Executive Director Bridwell:

We apologize for the delay in responding to your October 30, 2023 request for information. At the time the e-mail was sent to our office, our office staff were sick. Upon notification from your staff member Justin Young, we were made aware of the said email.

Please note, Bob Miller is no longer working with us on this project. Also, the Chairman of the Board, Barry Drury, has resigned and another commissioner has not been elected as the date of this letter.

We would like to state that what the Public Service Commission is ordering the South Woodford Water District to do is very expensive. The board felt the surcharge was not worth the expense and therefore the board decided not to pursue the surcharge until the new management finds all the meters and replaces the non-working ones. The Board believes that most of the water loss can be found when all meters have been inspected and accounted for. Therefore, we would like for the Public Service Commission to cancel the South Woodford's request for the surcharge at this time.

Sincerely,

Dale Gatewood, Manager
