<sup>1</sup> Case No. 2020-00085, *Electronic Emergency Docket Related to the Novel Coronavirus COVID-19* (Ky. Kentucky Power shall make timely amendment to any prior response if Kentucky Power obtains information that indicates the response was incorrect when made or, though correct when made, is now incorrect in any material respect. When applicable, the requested information shall be separately provided for total company operations and jurisdictional operations. 1. Consider the hypothetical situation where a generation unit has been scheduled for a month long maintenance outage and during the course of the outage the utility cannot complete the maintenance work due to COVID-induced labor shortages and supply chain issues. Explain why the Commission should not consider the unit outage to be a forced outage, as defined in 807 KAR 5:056, Section 1(4), as opposed to a continued maintenance outage for the time extending beyond the scheduled outage time.

2. For each month in the current six-month review period, provide the amounts of purchased power fuel during scheduled/extended outages and forced outages in both kwh and dollars and the amounts of purchased power cost recovered through the Fuel Adjustment Clause and through the Purchase Power Agreement and any amounts not recovered through either.
