**APPLICATION**

Pursuant to KRS 278.020, KRS 278.300 and 807 KAR 5:001, McCreary County Water District (“McCreary District”) applies to the Public Service Commission (“Commission”) for authorization to execute a supplemental assistance agreement with the Kentucky Infrastructure Authority (“KIA”) to increase the amount of an existing loan from \$3,244,500 to \$3,568,960 and to approve certain changes to its plan of construction for which the Commission issued a certificate of public convenience and necessity in Case No. 2020-00399.<sup>1</sup>

In support of its Application,<sup>2</sup> McCreary District provides the following:

---

<sup>1</sup> *Electronic Application of McCreary County Water District for Authorization to Execute an Assistance Agreement with the Kentucky Infrastructure Authority and for A Certificate of Public Convenience and Necessity to Construct the Sanitary Sewer Collection System Expansion Phase 1 Project*, Case No. 2020-00399 (Ky. PSC filed Jan. 16, 2021).

<sup>2</sup> To facilitate the Public Service Commission’s initial review of this Application, McCreary District has attached to this Application a “Filings Requirements List” that consists of five pages, lists each statutory and regulatory requirement for an application for authorization to issue evidence of indebtedness and for a certificate of public convenience and necessity, and identifies the exhibit or paragraph that satisfies the requirement. As the Commission has already issued a certificate of public convenience and necessity for the Sanitary Sewer Collection System Expansion Phase 1 Project and as McCreary District seeks only Commission approval for a change to the original construction plan, this application is not required to meet the filing requirements for an application for a certificate of public convenience and necessity.
