I don't think they need to get none of the raise they are asking for they're not taking care of anything concerning our electric service seem like Everytime we have bad weather our power is out I know in April of this year my electric was off four days and I lost everything in my refrigerator and they wouldn't reimburse me for it said they couldn't help me with that told me to check with snap to see if they would help me and my neighbor said she had just went to the store and lost all of her stuff and we get know help from them but they want to raise our bills every time we have a little bad weather they are not taking care of nothing even when they do get what they want I hope you all will think about the people that are on fixed income and how they do the people that are making them billionaires.nothing is every fixed until it has to be. Thank you
Pollie Steenbergen
