State the nature of your concern: In regard to case 2023-00159. Today I am even more strongly against their rate increase after receiving a letter in the mail from Kentucky Power in regard to my earlier email opposing their rate hike. I'm sorry but no I don't believe a word that they attempt to say wanting this rate hike or anything else they say. The money they spent sending the letter which really didn't explain why or what the rate hike was for or trying to make us feel sorry for their "monopoly", paying some high up officer to dictate, a secretary to type it, postage etc could have been applied to whatever their "need" of rate hike!!! They said trying to keep cost for customers low HA HA. Highest electric bills ever!!!!!!!!!!!! To Kentucky Power: if I'm found froze to death, heat stroke/exhaustion, starved or no food in my

house.....remember YOUR high bills are the cause!!! I now know you see our emails about this matter after receiving the letter today.

Have you contacted the utility about the problem: No
