[Report Suspicious](#)

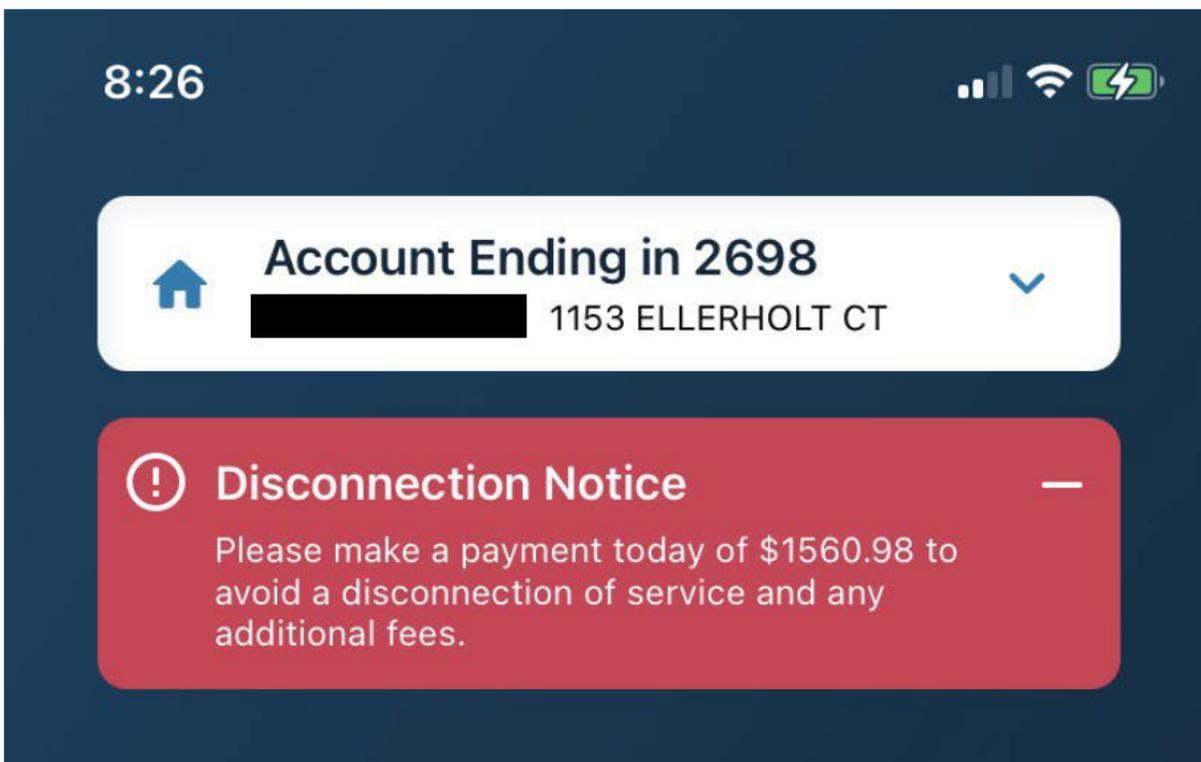

Mike,

I see the threat of disconnect has not been removed from my account again today.

According to FDCPA and Anti Trust Laws this attempt to collect is criminal harassment as LGE has disregarded my Federal and civil rights to be heard.

Cease and Desist all threats of disconnect and acts of disconnect immediately regarding Public Service Commission Case 2023-00288 and LGE Acct [REDACTED] else criminal harassment charges will be filed today.

Thank you, Have a blessed day  
Lesley Vowels

Unfortunately Mike I understand how you believe your word should be good enough. But unfortunately after yesterday's disconnect I do t want to take any chances in information not being related in a timely manner.

As of today my account is still showing a threat of disconnect stating the word today.

Where yesterday it didn't state the word today. Which means that post time difference is less than 24 hours.

So there isn't any confusion and anymore possible violations to the utility anti trust laws please have the site updated immediately as this threat of disconnect is against my FDCPA and Public Service Commisions rights.

Thank you,

Thank you,  
Lesley Vowels
