SITING BOARD STAFF'S POST-HEARING REQUEST FOR INFORMATION  
TO FRON BN LLC

FRON BN, LLC (Frontier Solar) pursuant to 807 KAR 5:001, shall file with the Commission an electronic version of the following information. The information requested is due on May 17, 2024. The Siting Board directs Frontier Solar to the Commission's July 22, 2021, Order in Case No. 2020-00085<sup>1</sup> regarding filings with the Commission. Electronic documents shall be in portable document format (PDF), shall be searchable, and shall be appropriately bookmarked.

Each response shall include the question to which the response is made and shall include the name of the witness responsible for responding to the questions related to the information provided. Each response shall be answered under oath or, for representatives of a public or private corporation or a partnership or association or a

<sup>1</sup> Case No. 2020-00085, *Electronic Emergency Docket Related to the Novel Coronavirus COVID-19* (Ky. PSC July 22, 2021), Order (in which the Commission ordered that for case filings made on and after March 16, 2020, filers are NOT required to file the original physical copies of the filings required by 807 KAR 5:001, Section 8).

governmental agency, be accompanied by a signed certification of the preparer or the person supervising the preparation of the response on behalf of the entity that the response is true and accurate to the best of that person's knowledge, information, and belief formed after a reasonable inquiry.

Frontier Solar shall make timely amendment to any prior response if Frontier Solar obtains information that indicates the response was incorrect or incomplete when made or, though correct or complete when made, is now incorrect or incomplete in any material respect.

For any request to which Frontier Solar fails or refuses to furnish all or part of the requested information, Frontier Solar shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

Careful attention shall be given to copied and scanned material to ensure that it is legible. When the requested information has been previously provided in this proceeding in the requested format, reference may be made to the specific location of that information in responding to this request. When applicable, the requested information shall be separately provided for total company operations and jurisdictional operations. When filing a paper containing personal information, Frontier Solar shall, in accordance with 807 KAR 5:001, Section 4(10), encrypt or redact the paper so that personal information cannot be read.

1. Provide the estimated distance from the closest residence as it relates to each of the following:
  - a. The fence
  - b. The panels

- c. The inverter
- d. The substation

2. Refer to the Application, page 11, paragraph 34. Provide the entities with an ownership interest in Frontier Solar that were referenced as not having any environmental violations.

3. Refer to Siting Board Staff's First Request Information, 8. Confirm whether the applicant, nor any entities with ownership interest in Frontier Solar has violated any state or federal environmental laws or regulations. Specifically, the entities that were included in the corporate structure chart.

4. Provide a copy of all environmental surveys completed by Frontier Solar, including the Phase I Environmental Assessment.

5. Confirm that the distances in the noise study are still accurate. If not, explain why not.

6. Identify each neighborhood and each of the noise receptors that are homes and of those homes which are participating landowners. Include whether the participating homeowner is a lessor and which lease is applicable. Color code your response for each neighborhood the participating homeowners and include a legend.

7. Confirm the distance of generating equipment from the neighborhood was measured from the equipment to the closest home. If not confirmed, identify the beginning point of the measurement to the end point of the measurement for purposes of determining the measurements related to the motion for deviation.
