Noticed in the paper today that the water rates are going up again. As previously brought to the PSC attention that this was done without the population of Cumberland County notice.

I read previously that this would be brought up so the public would be able to offer comments on the increase. I receive and read the local paper every week. I do my best to listen to the local radio station daily trying hard to hear anything that deals with the county.

I see that there was a meeting on November 14, 2024 which I and my guess is everyone in Cumberland County was also unaware of it taking place. Also there was no one in

attendance from the County, only the water district, Rural Water Assoc and the city of Burkesville

Question, why was this meeting not advertised in the local paper and radio station?
