ANSWER AND MOTION TO DISMISS

2. Regarding the second page of the Complaint, KAW admits that usage at the premise began to increase in relatively small amounts in late summer 2022 and that increase continued in larger amounts through summer and fall of 2023. KAW advised the customer of

high usage by the attached letter of June 21, 2023.¹ KAW admits that it performed an estimated read on September 11, 2023 and that other reads during the time period in question were actual reads, but KAW denies that the estimated read was inappropriate. It was properly calculated in accordance with twelve months of actual historical usage. KAW states that the customer has been in contact with KAW regarding water usage at the relevant premise. KAW states that it has worked with the customer in providing detailed data logs demonstrating the daily and hourly water usage in question and in providing meter test results for the meter in question which show that it was measuring usage accurately. KAW provided data logs and meter test results to the Commission during the course of the Commission's handling of the informal complaint process. Data logs and meter test results are provided as attachments to this Answer and Motion to Dismiss. Those data logs show that that usage decreased significantly in November 2023. KAW denies the balance of the allegations on the second page of the Complaint.

3. Regarding the allegations on the second and third pages of the Complaint regarding LexServ, KAW states that LexServ is the entity established by the Lexington-Fayette Urban County Government ("LFUCG") to bill and collect sewer charges for the sewer services LFUCG provides to its citizens. KAW is required to provide monthly water usage information to LFUCG so that LFUCG can then bill for sewer service, but, beyond that, KAW has no role in the relationship between LFUCG and its sewer customers.

4. Regarding the third page of the Complaint, KAW denies all allegations therein or is without information or belief to admit or deny those allegations, and, therefore, denies them in accordance with 807 KAR 5:001, Section 20(6)(b).

5. KAW denies that the customer is entitled to any relief requested in the Complaint.

¹ Account numbers on the documents attached hereto have been redacted as required by 807 KAR 5:001, Section 4(10).

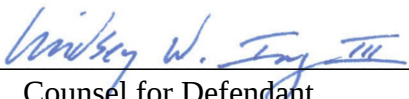

6. KAW denies each and every allegation in the Complaint not specifically admitted to be true herein.

7. KAW states that the meter in place at the premise in question during the relevant period was tested by KAW and that the meter test results attached hereto show that the meter meets all applicable accuracy requirements. Therefore, the water meter readings in question are accurate and the indicated amount of water did, in fact, pass through the meter. Thus, the customer is liable to KAW for all amounts resulting from the indicated usage. *Robert Young Family v. Southeastern Water Association*, PSC Case No. 2006-00212, Order of January 25, 2007; *Susan Spangler and Mark Lewis Farman v. Kentucky-American Water Company*, PSC Case No. 99-109, Order of October 7, 1999; and *Moore's Chapel A.M.E. Church v. Water Service Corporation of Kentucky*, PSC Case No. 2011-00414, Order of September 17, 2012. Accordingly, KAW moves for dismissal with prejudice of the Complaint.

WHEREFORE, KAW moves for a dismissal of the Complaint with prejudice.

Respectfully submitted,

Lindsey W. Ingram III

Dear Kentucky American Water Customer:

We appreciate your business and the opportunity to continue serving you, your neighbors and our local communities.

One of our responsibilities as your water service provider is to give you all the information you need to manage your water use, and to alert you when we notice something out of the ordinary. When we obtained your most recent meter reading, we noticed that your water use is considerably higher than normal.

There could be many reasons for unusually high water use, including short-term visitors, seasonal usage, or potential leaks. We suggest that you check your property for possible leaks or problems which could cause unusually high water use. If you determine that the source of the high water use is the result of a broken service line or internal plumbing problem, we encourage you to take steps as soon as possible to prevent recurring high bills.

We offer a Leak Detection Kit and other useful information for identifying high water use on our website, www.amwater.com. Many leaks are not noticeable but can contribute to unexpected water use. If you cannot determine the reason for your higher water use, please call our customer service center between the hours of 7am and 7pm at the number below.

Sincerely,

Kentucky American Water Customer Service
