Name: Grant Hart

Address: [REDACTED]

City: Louisville

State: KY

Zip Code: 40223

Phone number where you can be reached: [REDACTED]

Home phone: [REDACTED]

Comments: I would like to express my opposition to the proposed overlay of the 502 area and support the split of the 502 area. While citizens are concerned about having to change their phone numbers should a split take place, this is only a one-time occurrence. The proposed overlay causes indefinite inconvenience by forcing 10 digit dialing to possibly having to call a next door neighbor. This inconvenience in forever, once the overlay is established. Louisville Kentucky has an identity as the 502 are code and this identity would be spoiled by the proposed overlay. While in large metropolitan areas; i.e. New York, LA or Chicago, an overlay may be the only option, it is clearly not in this case and the split is a better choice both for the citizenry and the business

community as it inconveniences the fewest people and businesses by only inconveniencing part of the population once as opposed to the entire population of the area code potentially every time they make a call.
