We are experiencing difficulties with the Public Service Commission regarding our water improvements project for McKinney. While Phase 1B has been approved, the critical Phase 1A connection to Danville has not. We are concerned that it may not receive approval, which would jeopardize the entire project. The PSC is scheduled to hold a conference on this matter on April 9. We urgently need your guidance and support before then. Please view case filings for: 2025-00022. We appreciate your attention and assistance.
