COMMISSION**

Comments: Dear Chair Hatton, Commissioners Regan and Wood, I spoke first at your meeting in Louisville about data centers and high electric bills. I am an [REDACTED] in Louisville. I told you I was standing up for my future because no one else would. You told us to tell you if we had other comments. My other comments (evidence) are below:

<https://www.sierraclub.org/virginia/data-centers-harms> Data centers are noisy, bad for the environment and costly with the amount of energy that they require. This will primarily effect the people living in the area and not at all for the people who want to install it. Listen to the community that will be effected, not those that will profit. Thanks, Sam Thanks. Sam
