Utility Name: McCreary Water District

State the nature of your concern: The McCreary Water district is proposing a 93.74% increase in water connection fees. The current price is already 800 dollars and many people already struggle to meet that. This is one of the poorest county's in the entire nation, to pay 1,550 dollars just to get water connection is absurd and will force many to just go without. I understand a small increase may be needed, but an increase of almost 100% is not justified when the population already struggles to pay not only the hookup fees but also monthly billing.

Have you contacted the utility about the problem: No
