Comments:

People are barely surviving as it is. We can afford higher electricity cost. Please help the people and oppose this rate hike.

Comments:

Eastern KY cannot handle another price increase along with everyday cost of living constantly going up. We are one of the most poverty stricken areas in the US. In the current economic situation, I seen families and struggling to make ends meet daily. Please consider our plea.

Comments:

I'm requesting that KY Power consider the service workers, who do so much for our KY counties, and not raise their electric bill

Now their Electricity bill is going to go up, and they won't be able to help as many people
Ky Power needs to help build up our communities up instead of break them down

Comments:

Please dont allow this price increase. I can barely pay my power bill now and everyone else is having the same problem with it. If the power bills increase even more, a lot of people will get cut off because they cant pay it and still pay other bills, get medications and eat. I think the bills are too high anyway. Also, the new meters the power company put in a few years ago somehow raised everyones bill. Do they read our power usage correctly? I think that needs to be investigated.

I don't agree with the Rate Increase, we pay enough right now for electric, why do you want to rob the poor people?

Comments:

I am writing about my concern for the proposed increase in the electricity rate. As a family living in eastern Ky we are barely surviving trying to keep our heads above water and food on the table for our children. These bills keep increasing but income isn't. Eastern Ky citizens are struggling to pay what we can now. If it wasn't for programs like Ilheap I don't know what my family would do.

Comments:

Ky Power should not be allowed to keep raising rates when we already pay some of the highest rates in the country in one of the poorest areas in the nation.

Comments:

As executive director of Big Creek Missions, with campus locations in Floyd AND Leslie County, we are strongly opposed to the proposed rate increases. The increases would cost our mission nearly \$8500 in additional funds this year - robbed from the clients we serve, to go to a top heavy, high salaried company that drives fancy trucks... while were nursing our 20 year old pick up trucks to keep them running.

We had to install a \$40,000 generator to keep our facility running due to the constant power outages, flickers, and issues we face. THANKFULLY we were able to obtain grants.

This is thievery. They should cut back and learn to live within their means just like we are!!

IF this plan goes through, by the way, our meter rates and demand charges will have DOUBLED within the past few years. ITS RIDICULOUS!!!!
