From: Matt Thompson
City: Greenup
State: KY
Zip: 41144

Comments:

The Proposed rate increase has an estimated effect of \$48,410 per year for Greenup County Schools. This is the 5th rate increase in the last several years. We have taken necessary steps to improve our energy usage, but the consistent rate increases continue to burden the district and the community. Other than the increase directly billed to the school, in just the 3 years I have been in this position we have seen an increase in families reaching out to the school district for help with electric bills. Especially during the winter months. I would hope Kentucky Power would consider the impact of the increase on individual families as well as the public schools.
