Case# 2025-00257

I am a Kentucky Power user, I have no other choice!

- ① Why does a company like Ky Power raise the cost of their rates at a time when the weather gets colder and you have to adjust the thermostat?
- ② Why does Ky Power say that they are a "not for profit" business and have Billions \$\$\$ in their accounts?
- ③ Let them learn to live within their means! The same way we have to!!

Sincerely,

Connie Sizemore
