Comments:

PLEASE DO NOT GRANT THIS INCREASE. Ky Power was granted a rate increase which took effect February 2025. They are not being transparent and are wanting extra monies for things that the public doesn't seem to be aware of in their requests. KY Power should have to give account for every single request and not some generic answer such as approval of certain regulatory and accounting treatments and all other required approvals and relief. Also, why are we not publishing salaries, bonuses, and profits of this corporation? The customers of KY power do not need to pull the weight of what seems like ongoing greed and poor financial decisions.

Comments:

These increases always come when the electricity expenses is at it highest and you have to have heat or you and your water freezes! When it does go off due to issues, and it does often, it can take multiple days in the rural area we live in for it to come back k on. One month we were without it for 7-8 days out of the month and my bill went up that month! We work and do not get any food assistance. So when the electricity goes out, we scramble with generators to the refrigerator and freezers we have to try to loose food we do not get reimbursed for!! Quit raising the electric expense every few months!! And STOP doing when the bill is the highest all year!! Do like us working people do and figure out how to stretch your dollars!! We sure have to do that on a DAILY basis and can't slide a wage increase through when we want!
