Comments:

Im reaching out to you for additional consideration. Kentucky Power made a healthy contribution to the Trump for President campaign, along with other companies. Now it is asking to raise the rates? I find that to be insulting and a misuse of public money. I am concerned about their internal workings and ability to be efficient. We see waste. The tier of payment they are asking for in this area is reaching a limit that is simply not feasible. They are pricing themselves out of business and provoking people to reach cut-off status more with the higher rates.

Major Benchmark Revision: Recent BLS preliminary data revised total employment down by 911,000 for the 12-month period ending in March 2025, the largest downward revision since at least 2000 -- Google Gemini

Exactly how are people supposed to come up with money in an economy where the future is looking dimmer than it has for years? I say belay this rate hike. Ask the CFO and the COO to take less take-home pay. The additional strain on the public is not feasible.
