Subject: Public Comment - Case No. 2025-00257 (Kentucky Power Rate Increase)

I am writing as a concerned citizen and customer of Kentucky Power to formally register my strong opposition to the proposed 15% rate hike currently under consideration in **Case No. 2025-00257**.

I was horrified to learn of this proposal. We are currently facing a period of extreme economic hardship where the cost of everyday living has become nearly unmanageable. Furthermore, as we endure these arctic winter temperatures, I am forced to run my heat constantly just to survive. An exorbitant rate increase of this magnitude at such a critical time would be devastating to myself and many other

I live on a fixed income, and a monthly increase of this size would be an absolute disaster for myself and other retirees in our community. We are already making difficult choices between basic necessities, and this proposal threatens our ability to maintain a safe and heated home.

I respectfully urge the Commission to deny this request and consider the severe

financial burden it places on the most vulnerable residents of Eastern Kentucky.

Thank you!

Dear Public Service Commission,

We can't afford to pay more. Over the last 20 years, Kentucky Power's rates have nearly quadrupled, while the service they provide has not significantly improved. Meanwhile, AEP made \$2.97 Billion in profit for their shareholders in 2024.

If we're expected to tighten our belts, they should be expected to do the same.
