Subject: Public Comment in Support of Crab Run Solar - PSC Case No. 2025-00276

Dear Kentucky Public Service Commission,

I am writing to express my strong support for the Crab Run Solar project in Marion County (PSC Case No. 2025-00276). This 45-megawatt energy project represents responsible development that benefits Kentucky landowners, local farming families, and the Marion County community. Landowners in Marion County deserve the right to use their property as they see fit, and Crab Run Solar provides local farm families with a reliable supplemental income stream that helps keep their land in agricultural use for generations.

Crab Run Solar is a good neighbor that respects Marion County's rural character and farming heritage. Crab Run Solar will generate significant new tax revenue that flows directly to Marion County schools and public services – an investment that stays right here in our community and does not require raising anyone's taxes.

In a time where citizens and communities are fighting to prevent the building of AI Data Centers which deplete local water supplies, cause an increase in private taxes, utility bills, and do not provide long term employment; the Cave Run Solar is an option that is a better source of tax revenue for Marion County. This case is an important to all Kentucky Landowners whether living in Marion County or not.

I urge the Public Service Commission to approve Crab Run Solar for Marion County. Thank you for your consideration.

Sincerely,
MS Susan Hayden
Florence, KY 41042-8368

Subject: Public Comment in Support of Crab Run Solar - PSC Case No. 2025-00276

Dear Kentucky Public Service Commission,

I am writing to show my strong support for the Crab Run Solar project in Marion County (PSC Case No. 2025-00276). I believe that land owners, within reason, have the right to look at other opportunities to generate revenue in these tough financial times for them. This 45-megawatt energy project represents responsible development that benefits Kentucky landowners, local farming families, and the Marion County community. This allows for local farm families to have a reliable supplemental income stream that helps keep their land in agricultural use for generations.

Crab Run Solar is a good neighbor that respects Marion County's rural character and farming heritage. Crab Run Solar will generate significant new tax revenue that flows directly to Marion County schools and public services – an investment that stays right here in our community and does not require raising anyone's taxes.

I urge the Public Service Commission to approve Crab Run Solar for Marion County. Thank you for your consideration.

Sincerely,
Ms Sharon Tepe
