Comments:

I am a resident and rate payer in Eastern Kentucky. I am concerned about the proposed accounting practices related to the storm expenses in December 2025. Storms are part of natural risk management and companies should have adequate reserves and insurance to cover these expenses without passing this on to rate payers. Customers should be protected from paying for equipment repaired after storm damage and an audit should be obtained of how AEP and KY power maintains and inspects the equipment considering it would likely be due for replacement anyway given the difficult access to assets they stated in prior filings. I am deeply concerned about the use of contract labor and why the price of that exceeds the cost of most combined expenses, who the contractors were, the process of choosing them, and why that cost is justified to be passed off to rate payers. Rate payers in Eastern Kentucky are seeing bills at much higher rates than what is reported by Kentucky Power already. Please review, audit, justify, and address the public regarding these request that should be the responsibility of the company and not the customers.

Service List for 2026-00067

* Harlee P. Havens
Stites & Harbison
250 West Main Street, Suite 2300
Lexington, KY 40507

* Kentucky Power Company
