FARMDALE WATER DISTRICT’S RESPONSE TO COMPLAINANT’S
JUNE 28, 2026 FILING

Farmdale Water District (“Farmdale District” or the “District”) submits this Response to Ms. Kincaid’s June 28, 2026 filing.

1. The credit Farmdale District applied to Ms. Kincaid’s account following her March 25, 2026 bill **is permanent**. The District has made **no attempt** to collect any amount greater than the \$78.56 payment of the undisputed amount Ms. Kincaid tendered in payment of her March 25, 2026 bill. There is nothing further for Farmdale District to credit Ms. Kincaid.

2. A copy of Ms. Kincaid’s June 25, 2026 bill is attached to this response as **Attachment 1**.

3. The June 25, 2025 bill does not include any amount that is past due or any amount attributable to usage occurring in February 2026, or during any period other than the billing period stated on the bill, which is May 1, 2026 to June 1, 2026.

4. The meter readings appearing on Ms. Kincaid's bill are 232 for the May 1, 2026 reading, and 255 for the June 1, 2026 reading. Farmdale District has previously filed into the record of this proceeding the hourly Usage Reports for Ms. Kincaid's meter during this time period. These hourly Usage Reports substantiate the meter readings used to produce the June 25, 2026 bill.

5. Attached as **Attachment 2** is an hourly Usage Report from June 1, 2026 to 5:00 p.m. June 29, 2026.

6. Farmdale District has not withheld any data from Ms. Kincaid.

7. Farmdale District has **no record** of Ms. Kincaid requesting a usage report other than her original request for a meter reading history, which she made prior to filing this Complaint.

8. During the pendency of this proceeding Farmdale District **will file weekly** hourly Usage Reports into the record of the proceeding.

9. Farmdale District explained in its Answer and Satisfaction filed on June 18, 2026, that it is in conversation with United Systems about transitioning its billing system to bill to the gallon, rather than to the 100s of gallons. However, as Farmdale District attempted to explain, this is not a simple process; it takes time to

accomplish; and it cannot be undertaken without planning. Farmdale District is actively planning this transition. It requires coordinating the efforts of United Systems, the Frankfort Plant Board, and the distributor of Farmdale's Sensus meters. These are the meters that are **not** equipped with technology to permit hourly usage reports and are **not** read by the Frankfort Plant Board but are read by Farmdale employees. Farmdale District is arranging to transition all of its meter reading and billing to the gallon as soon as that can reasonably be accomplished without losing historical data.

10. Ms. Kincaid was billed for the amount of water passing through her meter. There has been no overbilling.

11. There has been no network malfunction in Farmdale District's distribution system resulting in an unreliable meter reading. There is absolutely no evidence of this at all. Ms. Kincaid has been billed for the water passing through her meter at the Commission-approved rate on file at the time of consumption. **Further**, Ms. Kincaid received a **credit** to her account resulting in her **permanently not** being held responsible for the disputed portion of her March 25, 2026 bill.

12. Farmdale District is engaged in the costly and time-consuming process of transitioning its billing system to bill to the gallon, rather than to the 100s of gallons.

WHEREFORE, on the basis of the foregoing, Farmdale District moves the Commission for an Order finding that this Complaint has been satisfied.

Respectfully submitted,

/s/Tina C. Frederick
