Utility Name: KU/LGE

State the nature of your concern: You need to add KU/LGE to this case number 2026-00159 and investigate their practices as well. We have a monopoly utility problem going on in Kentucky. I believe they are main pushers of data centers. I dont understand why the purchase of land here in Mercer County by KU was not scrutinized more closely. Two tracts had an additional \$8 million and \$10 million in development costs added to them. I have requested records and not received anything that would indicate to me a value of

\$8 million. Could this have been a kick back to Savion (a Shell subsidiary) Case _2022-00402. How bad is it that with my research I now have the Case numbers memorized? Case _2023-00361 I believe they are also leveraging future projects in order to get their way. How can any of these counties support a data center AND an industrial development site.

Have you contacted the utility about the problem: No
