RE: Cannonsburg Water District
Surcharge Spending Plan

Dear Ms. Ramser:

In accordance with our conference call late today, we are enclosing (1) copy of the original color system-wide map as created by Danny Clarkston of Cannonsburg Water District. The map shows the various zones (and associated line sizes) where the various "Monitor" and "Bypass" leak detection/water loss meters were placed on our plans.

Mr. Clarkston spent a good deal of thought and time developing these zones (with consultation with KY Rural Water Technical staff). He is very knowledgeable of their system.

Should there be questions, please contact me.

Sincerely,

E.L. Robinson Engineering
