Docket # 2016-00372

I am writing in reference to the proposed cell tower to be constructed next to our property here in Trimble County, Kentucky.

We have several concerns regarding this cell tower and would like to address the Public Service Commission regarding this matter.

We have in recent years invested several thousands of dollars in our home adjacent to the proposed property and are concerned about our property values decreasing. One of our views overlooking our property faces the proposed cell tower and had we known earlier about the cell tower we may not have invested on this particular side of the house.

We also have questions regarding the location of the cell tower and why a location on a new water tower about a mile and a half to the west of us was not considered. This location has a higher elevation than the proposed site of the new cell tower.

We would like to address the Kentucky Public Service Commission on these issues as well as others and will present photographs showing our concerns.

You may contact us at the above address regarding these questions and concerns.

Thank you.

Jeff and Pam Thoke
