RE: Case No. 2008-00149
Phase 7 Construction Project

To date, the project referenced by Christian County Water District as the Phase 7 line extension project (PSC case # 2008-00149) is ongoing. The actual line construction work on this project has reached and now exceeds 50%. However, to the best of our knowledge, neither Rural Development nor the project engineering firm feels that a certificate of substantial completion is warranted.

We assume that within the next six months, if the contractor can make satisfactory progress toward the completion of this project, this certification of satisfactory completion will be issued.

Sincerely,

James Owen
General Manager
