PUBLIC SERVICE  
COMMISSION

September 6, 2013

Mr. Jeff Derouen, Executive Director  
Public Service Commission  
211 Sower Blvd  
Frankfort, KY 40602

Subject: Farmdale Water District  
PSC Certificate of Service  
Case No. ~~2007-00497~~ 2012-00118

Dear Mr. Derouen:

We wish to notify the PSC that the Farmdale Water District is now in compliance with the above case. We completed the construction on a new 500,000 gallon elevated water storage tank in August, 2013. As part of the same project, we will remove a 155,000 gallon standpipe. This new tank, along with our remaining existing 223,000 gallon standpipe, gives the District a total of 723,000 gallons of water in storage.

Our average daily usage (for 2012) was approximately 551,400 gallons per day. As you can see, we now have adequate storage capacity.

We now ask that appropriate action be taken by the PSC to show us in compliance with Administration Regulation 807 KAR 5:006, section 4 (4). Additionally, we wish to thank the staff of the PSC for all of their kind assistance and understanding over the last several years, as we have worked through this issue.

If additional information is required, please contact us and/or our Engineer:

HMB Professional Engineers, Inc.,  
3 HMB Circle  
Frankfort, KY  
(502) 695-9800

Sincerely,

FARMDALE WATER DISTRICT

  
Clifford Toles, Chairman
