Dear Sir/Madam:

Subject: Change in Purchase Order No. 51632, Spurlock Power Station Unit Nos. 1 and 2 Scrubber

Subject purchase order is hereby amended to establish the price for July, August, and September 2022 and increase the quantity. The purchase order shall now read as follows:

Quantity: Up to 462,000 tons (2,000 pounds per ton) in ratable monthly shipments of approximately 70,000 tons per month April, May, and June, and approximately 84,000 tons per month July, August, and September 2022. Failure to deliver approximate tonnage called for above, not counting rejected tonnage, shall permit Buyer to recover either (1) cover damages or (2) the difference between the price called for herein and market price, at Buyer's discretion. Buyer shall have no obligation to purchase more than the tonnage called for above. Failure to accept approximate tonnage called for above, not counting rejected tonnage, shall permit Seller to recover either (1) cover damages or (2) the difference between the market price and the price called for herein, at Seller's discretion. Seller shall have no obligation to deliver more than the tonnage called for above.

Price: The Seller has guaranteed a heat content of 11,450 Btu/lb.; therefore, the price of all said coal, f.o.b. barge, shall be One Hundred Eighty-Two and Eighty-Eight Hundredths Cents (182.88 cents) per million Btu for April, May, and June 2022; and One Hundred Eighty-Two and Seventy-One Hundredths Cents (182.71 cents) per million Btu for July, August, and September 2022. The price for the remaining months throughout the Term of this purchase order, which includes the quality and transportation adjustments required due to Seller's request to supply coal from an alternative source and load at an alternative dock, shall be determined based on the current adjusted base price of the Existing Agreement for the applicable month.
