Weighing Party: Seller shall be the weighing party. The weighing party shall weigh the Coal in accordance with Section 3 of the AEP Coal Procurement Terms and Conditions attached.

Sampling & Analysis Party: Seller shall be the sampling party. The sampling party shall sample and analyze the Coal in accordance with Section 4 of the AEP Coal Procurement Terms and Conditions attached.

Quality Adjustments: If Coal delivered under this Purchase Order varies from the Quality specifications above (the "Specifications"), but Buyer does not exercise its rejection rights under Rejection and Suspension herein, quality adjustments shall be calculated pursuant to the formulas set forth in this section using the weighted averages by Purchase Order. All adjustment calculations shall be carried out four decimal places.

(A) If the weighted average heating value (Btu/lb.) of all Coal loaded and taken into account hereunder in a Half-Month is not equal to the Contracted Half-Month Btu/lb., then there shall be an amount added to the Contract Price (if the calculated number is positive) or subtracted from the Contract Price (if such number is negative), as determined by the following formula, to arrive at the adjusted price for such Coal:

$$\text{Amount Per Ton of Increase or Decrease for Btu/lb.} = \frac{(\text{Actual Btu/lb.} - \text{Contracted Half-Month Btu/lb.}) \times \text{Contract Price}}{\text{Contracted Half Month Btu/lb.}}$$

provided, however, no premium will be paid for Btu/lb. which exceeds the Contracted Half-Month Btu/lb. by 500 Btu/lb.

(B) If the weighted average SO₂ content of all Coal loaded and taken into account hereunder in a Half-Month is tested to have an SO₂ content greater than the SO₂ Contracted Half-Month Specification, the Contract Price for such Coal will be reduced by an amount per Ton of Coal determined in accordance with the following formula:

$$\frac{((\text{Contracted Half-Month SO}_2\text{-Actual lbs SO/mmBtu}) \times \text{Actual Btu/lb SC})}{1,000,000}$$

SC= The actual variable cost, including limestone and sorbent costs but not including normal operating costs such as power or capital costs, for the prior year for Buyer to remove one ton of SO₂ from the applicable Plant's emissions (the "Scrubbing Costs"). The Scrubbing Cost shall be provided to Seller by March 1 of the current Year and shall be applicable for all SO₂ adjustments in the current Contract Year. Upon request of Seller, detailed data for the Scrubbing Cost will be provided to Seller by Buyer.

In addition to the above price reduction formula, for each Shipment of Coal having an SO₂ value greater than the Shipment Rejection Limit, should Buyer choose not to elect its rejection rights under Section 5 of the AEP Coal Procurement Terms and Conditions Effective 05/15/2024, a price discount shall be negotiable, with a minimum amount of five dollars (\$5.00) per Ton to be deducted from the Contract Price.

(C) For each Shipment of Coal tested to have ash content greater than the Contracted Half-Month Suspension Limit, the Contract Price for Coal in such Shipment will be decreased by \$0.15 for each 0.5% ash increment, or portion thereof, by which the Shipment's ash content is tested to be above the Contracted Half-month Suspension Limit. (For example, if the Contracted Half-month Suspension Limit is 13.00% and a Shipment has a percent ash value of 13.70, then the Contract Price decrease shall be \$0.30 per Ton of Coal.)

Payment:

Within five (5) Business Days following each Half-Month period, Seller shall submit to Buyer invoices for the Tons of Coal and the weighted average quality, shipped from the first through the fifteenth calendar day of each month and from the sixteenth through the last calendar day of each month. The invoice shall include the above-referenced AEP Purchase Order number and the applicable transport vehicle numbers.

Buyer shall make payment to Seller on or before the later of (a) the tenth (10) calendar day following the Half-Month period, or (b) five (5) working days after receipt of Seller's invoice. Buyer shall not be obligated to make payment to Seller for Shipments of Coal until the analytical results **have** been provided to Buyer.

Payment shall be made by wire transfer or electronic means in immediately available United States funds for all Coal shipped, taken into account, and accepted hereunder. If not already provided in this Contract, Seller shall provide Buyer all pertinent remittance instructions in a letter (containing the bank name, account name, ASA number, and account number, as well as Seller's federal tax identification number) which shall be signed by a duly authorized representative of Seller. Any change in the remittance instructions shall be provided in the same manner. Overdue payments shall accrue interest (the prime rate of interest for United States Dollars as published from time to time during such period under the section titled, "Money Rates" by *The Wall Street Journal*, plus two percent per annum but not to exceed the maximum applicable lawful interest rate [hereinafter "**Interest Rate**"]) from the due date until paid.
