Note:

EKPC is a cooperative owned and governed by sixteen member distribution cooperatives. As a cooperative, patronage capital, which represents EKPC's margin, is allocated to members on a contribution-to-gross margin basis pursuant to the provisions of EKPC's bylaws. EKPC accounts for these members' equities as prescribed by RUS, which deviates from FERC reporting requirements. Given the appropriate RUS accounts were not available for this report, the following FERC accounts were used:

Account 201, Common Stock, was used to report memberships held for EKPC's sixteen member owners. Account 204, Preferred Stock, was used to report the balance of patronage capital allocated to members.

Note:

East Kentucky Power Cooperative is the lessor under a power sale arrangement to sell the capacity and energy from Glasgow Landfill Unit to a member system for a period of ten years.

Cooperative Solar One, a community solar project, began commercial operations on November 12, 2017. As of December 31, 2023, 1,804 panels, or 726 MWh of the 13,124 MWh Net Generation reported, was subscribed to members under a 25 year licensing agreement.

Laurel Ridge Landfill Generating Unit was decommissioned July 19, 2023 due to fuel supply contract termination. The generating unit's components are expected to be repurposed at other landfill gas plants owned by EKPC.
