General Information - Overheads (Ref Page: 19)

Explain

State policy for charging overheads to construction

and describe methods used to determine amounts so charged.

Overhead charges are based upon the difference between total labor charged and the standard labor allocated. Amounts charged include payroll taxes, life insurance, retirement plans, savings plan, long-term disability, and medical insurance. These items are allocated to construction based upon the percent of construction labor to total labor. Stores expenses are allocated based upon the percent of materials charged to construction to total materials used. Transportation (fleet) expenses are allocated based upon labor hours charged to construction.

2400 Jackson Purchase Energy Corporation 01/01/2023 - 12/31/2023

General Information - unusual increases or decreases (Ref Page: 19)

Explain

Please explain any unusual increases or decreases in operating

revenues or expenses over preceding years operations.

Rates from Case 2021-00358 were in effect for the first full year in 2023. Mild temperatures throughout the year, especially in normally-peak energy sales months (February, July, August) caused sales/revenues to be under budget. Operating expenses were monitored closely in order to achieve at least a 1.25 TIER ratio.
