#### General Description of Construction Overhead Procedure - Components of Formulat (Ref Page: 218) - NOTES

#### LOCAL ENGINEERING:

Salaries and expenses of Gas Distribution Operations personnel engaged in construction work, but not assignable to a particular capital project, are charged to engineering clearing projects. Examples of such charges are: work with the construction budget, cost of estimating, construction work, preparation of field reports, conferences on construction matters, and general supervision of construction projects.

Costs accumulated in these clearing projects are allocated to specific capital projects owned by Gas Distribution based on the actual spend by project. The labor and expenses of engineers and other personnel who are directly assigned to a particular capital project are charged to that project.

#### SERVICE CONTRACT CHARGES:

These expenses are charged directly to construction and other projects based on service performed.

#### **EMPLOYEE BENEFITS:**

Vacation, holiday, sick and other off-duty payments, medical, dental, group life insurance, long-term disability, 401(k), retirement income account and pension costs, are charged to construction, Local Engineering, and O&M by applying overhead rates to direct labor charges.

#### EMPLOYEE TEAM INCENTIVE AWARD:

Employee bonuses, known as Team Incentive Awards, are charged to construction, Local Engineering, and O&M by applying overhead rates to direct labor charges.

#### ADMINISTRATIVE AND GENERAL EXPENSES:

#### Note:

The allocation of administrative and general expenses to construction is based on a study of the estimated time engaged in construction activities by persons and departments charging time to FERC Account 920. The administrative and general salaries and expenses (FERC Account 920-921) applicable to construction are allocated to all construction projects on the basis of total direct costs.

#### VEHICLE COST ALLOCATION:

Vehicle costs are allocated to construction, Local Engineering, and O&M based on labor charges from the departments to which the vehicles are assigned. The costs of vehicles are allocated by the pro-rata share of monthly labor incurred from each department which owns vehicles.

#### ALLOWANCE FOR FUNDS USED DURING CONSTRUCTION (AFUDC):

LG&E does not capitalize AFUDC for gas utility plant.
