21300 Edmonson County Water District 01/01/2024 - 12/31/2024

Major Water Projects

Provide details about each major water project which is planned but has not yet been submitted for approval to the Public Service commission.

For the limited purpose of this report, a "Major Project" is defined as one which is not in the ordinary course of business, and will increase your current utilityplant by at least 20 percent.

Brief Project Description: (improvement, replacement,building construction, expansion. If expansion, provide the estimated number of new customers):

We are in the process of assessing the best avenue to produce or purchase water for the Edmonson County Water District customers moving forward. No solid decision has arrived at this point, but we can expect to have a good plan by mid-year 2025. It is very possible that we will make a connection with Warren County Water at a connection point intersection 31W and Hwy 101. This connection will enable the District to receive 1 MGD of available capacity for continuous usage (short term) or emergency usage in the long term. It will involve approximately 18,000 ft' of 12" pipe and a booster pump station.

Projected Costs and Funding Sources/Amounts:

\$6,000,000.00

Approval Status: (Application for financial assistance filed, but not approved; or application approved, but have not advertised for construction bids)

This project will likely be funded by local bonding through KRWA.

Location: (community, area or nearby roads)

It is very possible that we will make a connection with Warren County Water at a connection point intersection 31W and Hwy 101.
