Independent Auditor's Report

To the Board of Directors
Mountain Rural Telephone Cooperative Corporation
West Liberty, Kentucky

I have audited the accompanying consolidated financial statements of Mountain Rural Telephone Cooperative Corporation and Subsidiary ("Cooperative"), which comprise the consolidated balance sheets as of December 31, 2018 and 2017, and the related consolidated statements of revenue and comprehensive income, changes in members' equities, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these consolidated financial statements based on my audits. I did not audit the financial statements of East Kentucky Network, LLC. As discussed in Note 3, these consolidated financial statements account for an investment in East Kentucky Network, LLC under the equity method. The investment was \$30,473,039 and \$31,299,947 at December 31, 2018 and 2017 and the equity in its net margins was \$1,010,644 and \$9,572,050 for the years then ended, respectively. The financial statements of East Kentucky Network, LLC were audited by other auditors, whose report has been furnished to me, and my opinion, insofar as it relates to amounts for East Kentucky Network, LLC is based solely on the report of the other auditors. I conducted my audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness

To the Board of Directors
Mountain Rural Telephone Cooperative

of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

I believe the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinion

In my opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Cooperative as of December 31, 2018 and 2017, and the results of its operations and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

My audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The consolidating information on pages 15 - 16 are presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations, and cash flows of the individual companies, and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the consolidating information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, I have also issued a report dated February 12, 2019, on my consideration of the Cooperative's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering internal control over financial reporting and compliance.

Mountain Rural Telephone Cooperative Corporation
Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies

Mountain Rural Telephone Cooperative Corporation (the Cooperative) maintains its records in accordance with policies prescribed or permitted by the Kentucky Public Service Commission (PSC) and the United States Department of Agriculture, Rural Utilities Service (RUS) Uniform System of Accounts, which conform in all material respects with generally accepted accounting principles. The more significant of these policies are as follows:

Principles of Consolidation The consolidated financial statements include the accounts of the Cooperative and its wholly-owned subsidiary, Mountain Telecommunications, Inc. (Mountain Telecommunications). All significant inter-company accounts and transactions have been eliminated.

Nature of Business The Cooperative has completed construction allowing it to expand its services network. This network establishes the Cooperative as a full service network (FSN) provider allowing it to provide expanded video services with over 200 channels, high definition television and Video on Demand. It is also able to provide high speed internet, virtual private networks, and voice over internet protocol (VoIP). This is accomplished through Fiber to the Home (FTTH) technology.

Cash and Cash Equivalents The Cooperative considers all short-term, highly liquid investments with original maturities of three months or less to be cash equivalents.

Off Balance Sheet Risk The Corporation has off-balance sheet risk in that they maintain cash deposits in financial institutions in excess of the amounts insured by the Federal Deposit Insurance Corporation (FDIC). At December 31, 2018, the financial institutions reported deposits in excess of the \$250,000 FDIC insured limit on several of the accounts. Deposits and repurchase agreements in excess of the FDIC limits are 100% secured with collateral from each respective financial institution.

Telecommunications Revenue Recognition Revenues are recognized when earned regardless of the period in which they are billed. Bills are sent to customers on credit the first of each month with local service being billed a month in advance of service. Sales are concentrated in a portion of five (5) southeastern Kentucky counties. Payments are due 10 days from the date of billing. If payment has not been made, then customers are subject to disconnect on the 21st day of the month. The allowance for uncollectible accounts is based on the aging of accounts receivable. Accounts are written off when they are deemed to be uncollectible. There were no customers whose individual account balance exceeded 10% of outstanding accounts receivable at December 31, 2018 or 2017. The number of access lines was 13,283 at 2018 and 13,495 at 2017.

Interstate revenues are recognized on the cost basis recovery method. Compensation for intrastate/interlata service is received through tariffed access charges as filed with the FCC. These access charges are billed to the interlata long distance carrier and retained by the Cooperative.

Video Revenue Recognition Video revenue is recognized when earned regardless of the period in which they are billed. Programming transmission is purchased from networks at various amounts based on the number of customers receiving the service.

Taxes The Cooperative's policy is to exclude sales tax from revenue when collected and expenses when paid and instead, record collection and payment of sales taxes through a liability account.

Risk Management The Cooperative is exposed to various forms of losses of assets associated with, but not limited to, fire, personal liability, theft, vehicular accidents, errors and omissions, fiduciary responsibility, workers compensation, etc. Each of these areas is covered through the purchase of commercial insurance.

Mountain Rural Telephone Cooperative Corporation
Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies, continued

Fair Value Measurements The Fair Value Measurements and Disclosures Topic of the FASB ASC 820, *Fair Value Measurements and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal, or most advantageous, market for the asset or liability in an orderly transaction between market participants at the measurement date. The Fair Values Measurements Topic establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs when possible. The three levels of inputs used to measure fair value are as follows:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3: Prices or valuations that require inputs that are both significant to the fair value measure and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The carrying amounts of the Cooperative's cash and cash equivalents, investments (except investment securities), trade accounts payable, accrued expenses, and other liabilities approximate fair value due to their short maturity. Investments in associated organizations are not considered a financial instrument because they represent nontransferable interests in associated organizations. Other assets and liabilities are not considered financial instruments because they represent activities specifically related to the Cooperative. Long term debt is specifically for telecommunications companies and, therefore, a value other than its outstanding principal cannot be determined.

The Cooperative invests idle funds with local banks in money markets, certificates of deposits, and U.S. Treasury Notes. The inputs used to measure idle funds are Level 1 measurements, as these funds are exchange traded funds in an active market.

Estimates The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates used in the preparation of the financial statements.

Advertising Advertising costs are expensed as incurred.

Telecommunications Plant Telecommunications plant is stated at original cost, which is the cost when first dedicated to public service. Such amount includes applicable supervisory and overhead cost including any construction period interest and taxes. Interest capitalized during the year was \$71,347 for 2018 and \$72,509 for 2017.

The cost of maintenance and repairs, including renewals of minor items of property, is charged to operating expenses. The cost of replacement of depreciable property units, as distinguished from minor items, is charged to plant. The units of property replaced or retired, including cost of removal, net of any salvage value, is charged to accumulated depreciation.

Mountain Rural Telephone Cooperative Corporation
Notes to Financial Statements

Note 1. Summary of Significant Accounting Policies, continued

The major classification of plant in service is:

	<u>2018</u>	<u>2017</u>
Telecommunications Plant:		
General support	\$16,414,766	\$15,912,835
Central office switching	1,510,843	1,458,050
Central office transmission	25,860,906	23,987,869
Cable and wire facilities	86,810,106	85,156,830
Intangibles	2,434	2,434
	<u>130,599,055</u>	<u>126,518,018</u>
Telecom Plant:		
General support	3,000	3,000
Total	<u>\$130,602,055</u>	<u>\$126,521,018</u>

Depreciation Provision has been made for depreciation on the basis of estimated lives of assets, using the straight-line method. Rates are as follows:

	<u>Telephone</u>
General support	2.7%-15.8%
Central office switching	7.5%
Central office transmission	10.0%
Cable and wire facilities	5.1%-9.4%

Income Taxes The Cooperative is exempt from federal and state income taxes under IRS Code Section 501(c)(12). Certain unrelated business activities are subject to federal income taxes. Mountain Telecommunications is a "C" corporation that pays income taxes on its net income.

The Cooperative's accounting policy provides that a tax expense/benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, based on the technical merits. Management believes the Cooperative has no uncertain tax positions resulting in an accrual of tax expense or benefit. The Cooperative recognizes interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses. The Cooperative did not recognize any interest or penalties during the years ended December 31, 2018 and 2017. The Cooperative's income tax return is subject to possible examination by taxing authorities until the expiration of related statutes of limitations on the return, which is generally three years. All income taxes are current federal and state taxes.

Comprehensive Income Comprehensive income includes both net margin and other comprehensive income. Other comprehensive income represents the change in funded status of the accumulated postretirement benefit obligation.

Subsequent Events Management has evaluated subsequent events through February 12, 2019, the date the financial statements were available to be issued.

Mountain Rural Telephone Cooperative Corporation
Notes to Financial Statements

Note 2. Investment Securities

The Cooperative classifies its investment in securities as held to maturity, available for sale, or trading categories in accordance with provisions of the *Financial Instruments Topic* of the Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC"). Investment securities are classified as held to maturity when the Cooperative has the positive intent and ability to hold the securities until maturity. Held to maturity securities are stated at amortized cost. Investment securities not classified as held to maturity are classified as available for sale and are carried at fair market value, with unrealized gains and losses, net of tax, reported as a separate component in stockholders' equity.

Investments securities are all considered held to maturity and consist of Certificates of Deposits and U.S. Treasury Notes in local banks.

Note 3. Associated Organizations

The amounts for East Kentucky Network, LLC ("EKN") represents Mountain Telecommunications' investment in a limited liability corporation with other telephone companies in eastern Kentucky for the purpose of providing cellular telephone, paging, and other services. The investment is accounted for using the equity method since Mountain Telecommunications is a one-fifth owner. EKN has been paying approximately 50% of the income allocated in cash during the following year.

Note 4. Non Regulated Activities

Deregulated customer premises equipment is stated at cost; material held for lease or resale is stated at average cost. CPE also includes inside wire revenues and expenses. Depreciation is provided on a straight-line basis at 11.9% per year. The Cooperative provides long distance telephone service under the name of Mountain Telephone Long Distance ("MTLD"). MTLD revenues are billed and collected through the Cooperative. A monthly fee is recorded based on telephone usage. MTLD purchases minutes of long distance to resell to its customers from an unrelated party. Non regulated investments also include amounts that the Cooperative has invested to provide internet services to its customers. The Cooperative pays an unrelated party for the help desk and access to the internet system.

The following is a summary of nonregulated activities:

	<u>Income</u>	<u>Expenses</u>	<u>Net</u>
Customer premises equipment	\$744,108	\$1,981,304	(\$1,237,196)
Internet activities	3,549,529	1,417,868	2,131,661
Long distance services	496,790	440,263	56,527
Video services	2,953,253	2,617,207	336,046
Security/Surveillance/Bus Systems	312,905	198,762	114,143
Total - 2018	<u>\$8,056,585</u>	<u>\$6,655,404</u>	<u>\$1,401,181</u>
	<u>Income</u>	<u>Expenses</u>	<u>Net</u>
Customer premises equipment	\$1,099,616	\$2,082,986	(\$983,370)
Internet activities	3,679,257	1,464,022	2,215,235
Long distance services	477,225	411,659	65,566
Video services	2,497,492	2,344,536	152,956
Security/Surveillance/Bus Systems	74,694	82,995	(8,301)
Total - 2017	<u>\$7,828,284</u>	<u>\$6,386,198</u>	<u>\$1,442,086</u>

Mountain Rural Telephone Cooperative Corporation
Notes to Financial Statements

Note 5. Long Term Debt

All telecommunications assets, except motor vehicles, are pledged as collateral on the long term debt due U.S. Department of Agriculture, Rural Development ("USDA"). The debt was incurred for the FSN project as described earlier and is due in monthly installments of varying amounts. During February 2018, the Cooperative repaid an additional \$11,801,111 principal on the RUS Broadband loans. Long term debt is as follows:

	<u>2018</u>	<u>2017</u>
RUS Broadband Loan 2.27%-2.46%	6,553,850	18,781,506
Less current portion	<u>380,000</u>	<u>968,000</u>
Long term portion	<u>\$6,173,850</u>	<u>\$17,813,506</u>

Principal payments for the next five years are as follows: 2019 - \$380,000; 2020 - \$385,000; 2021 - \$395,000; 2022 - \$410,000; 2023 - \$415,000.

Note 6. Patronage Capital

The long term debt agreement contains restrictions on the return to patrons of capital contributed by them. The restrictions relate in general to the Cooperative's net worth and assets, as defined. The net worth of the Cooperative at December 31, 2018, was 93%. Patronage capital consisted of:

	<u>2018</u>	<u>2017</u>
Assigned	\$105,242,187	\$101,533,593
Assignable	5,087,148	10,091,658
Unassigned	49,428,450	43,045,386
Retirements to date	<u>(41,341,150)</u>	<u>(39,102,443)</u>
Total	<u>\$118,416,635</u>	<u>\$115,568,194</u>

Note 7. Pension Plan

All eligible non-union employees of the Cooperative participate in the National Telephone Cooperative Association (NTCA) Pension Plan ("R&S Plan"), a defined benefit pension plan qualified under section 401 and tax exempt under section 501(a) of the Internal Revenue Code. It is a multiemployer plan under the accounting standards. The Plan sponsor's identification number is 52-0741336 and the Plan Number is 333. A unique characteristic of a multiemployer plan compared to a single employer plan is that all plan assets are available to pay benefits of any plan participant. Separate asset accounts are not maintained for participating employers. This means that assets contributed by one employer may be used to provide benefits to employees of other participating employers. There have been no significant changes that affect the comparability of 2018 and 2017.

The Corporation's contributions to the R&S Plan in 2018 and 2017 represent less than 5 percent of the total contributions made to the plan by all participating employers. The Corporation made contributions to the plan of \$455,879 in 2018 and \$443,794 in 2017.

In the R&S Plan, a "zone status" determination is not required, and therefore not determined, under the Pension Protection Act ("PPA") of 2006. In addition, the accumulated benefit obligations and plan assets are not determined or allocated separately by individual employer. In total, the R&S Plan was over 95 percent funded at January 1, 2018 and 2017 based on the PPA funding target and PPA actuarial value of assets on those dates. Because the provisions of the PPA do not apply to the R&S Plan, funding improvement plans

Mountain Rural Telephone Cooperative Corporation
Notes to Financial Statements

Note 7. Pension Plan, continued

and surcharges are not applicable. Future contribution requirements are determined each year as part of the actuarial valuation of the plan and may change as a result of plan experience.

The NTCA Board of Directors amended the 2018 R&S Program specifications at the recommendation of the Plan Trust Committee to include the following changes:

- Basic contribution rates will increase by 19%.
- The program's current surcharge will expire at the end of 2018, and a new surcharge contribution of 50% of the member's elected contribution rate will begin in 2019. This surcharge is expected to continue for approximately 12 years.
- A prefunding option was added to allow members the option to prefund their future surcharge contributions in a single payment prior to the start of the new surcharge effective in 2019.
- Beginning January 1, 2018, for members that have adopted the Rule-of-85 ("ROE") provision, the ROE charge will apply to both the member's elected employer contribution rate and any required employee contribution rate.

Over the past several years, various actions have been taken to sustain the reserve of funds available to help meet the program's legally required minimum contribution amount. However, adverse economic conditions and regulatory changes have negatively affected all pension plans, including the R&S Program. Despite prudent decision-making by the program's trust committee, the R&S Program's minimum contribution amount is projected to exceed the current reserve and member contributions alone will not meet the minimum requirement. This expectation has led the program's actuary to recommend the new surcharge contribution beginning in 2020. The R&S Program is offering prefunding to give members flexibility in addressing this situation at their company.

The prefunding contribution is expected to fund the member's surcharge contribution for approximately 12 years.

- Each member's prefunding contribution will be maintained in a notional account within the R&S Program and used to pay that member's surcharge contributions.
- Each member's prefunding account is maintained separately from other member's prefunding accounts.
- Account funds will be invested with other R&S Program assets and grow at the same rate as the program's overall investment returns.
- An annual statement will be provided to each member showing their specific prefunding account activity.

During 2016, the Cooperative prefunded the surcharge in an amount of \$2,326,221. This amount will be amortized over the 12 year period the surcharge is expected to continue.

Mountain Rural Telephone Cooperative Corporation
Notes to Financial Statements

Note 7. Pension Plan, continued

Employees hired after January 1, 2015 are considered Schedule 2 employees. Contributions rates after the increase in 2017 are as follows:

	<u>2017</u>	<u>2016</u>
Schedule 1 Employees		
Employer contributions	10.70%	8.30%
Employee contributions	4.00%	4.00%
Rule of 85 charges	5.50%	5.50%
Schedule 2 Employees		
Employer contributions	8.70%	6.20%
Employee contributions	6.00%	6.00%
Rule of 85 charges	5.50%	5.50%

Note 8. Accumulated Postretirement Benefits

The Cooperative sponsors a defined benefit plan that provides medical insurance coverage to retirees and their dependents. Participating retirees and dependents do not contribute to the projected cost of coverage. Employees qualify with a minimum age of 55 and meeting the Rule of 85. There have been no significant changes that affect the comparability of 2018 and 2017.

The funded status of the plan was as follows:

	<u>2018</u>	<u>2017</u>
Balance, beginning of year	(\$3,778,666)	(\$4,004,446)
Amortization	225,780	225,780
Adjustment during the year	-	-
Balance, end of year	<u>(\$3,552,886)</u>	<u>(\$3,778,666)</u>

The components of net periodic postretirement benefit costs are as follows:

	<u>2018</u>	<u>2017</u>
Benefit obligation at beginning of year	<u>(\$339,132)</u>	<u>(\$49,478)</u>
Components of net periodic benefit cost:		
Service cost	551,264	522,386
Interest cost	825,786	798,782
Expected return on assets	<u>(1,173,530)</u>	<u>(1,117,648)</u>
Net periodic benefit cost	203,520	203,520
Benefits paid from general funds	(534,272)	(493,174)
Contributions to plan	-	-
Actuarial adjustment	-	-
Benefit obligation (asset) at end of year	<u>(\$669,884)</u>	<u>(\$339,132)</u>

Mountain Rural Telephone Cooperative Corporation
Notes to Financial Statements

Note 8. Accumulated Postretirement Benefits, continued

Change in plan assets:		
Fair value of plan assets-beginning of year	\$19,313,612	\$16,576,415
Employer contributions	-	-
Change in fair value of plan assets	(916,594)	2,737,197
Benefits paid from plan	-	-
Fair value of plan assets-end of year	<u>\$18,397,018</u>	<u>\$19,313,612</u>
Amounts recognized in the balance sheet consists of:		
Noncurrent assets (liabilities)	<u>\$669,884</u>	<u>\$339,132</u>
Amounts included in other comprehensive income:		
Unrecognized actuarial gain (loss)	<u>(\$3,552,886)</u>	<u>(\$3,778,666)</u>
Effect of 1% increase in the health care trend:		
Projected benefit obligation	\$18,835,000	
Net periodic benefit cost	216,000	

For measurement purposes, an 8% annual rate of increase, decreasing by 0.5% per year until 5% per year, in the per capita cost of covered health care benefits was assumed. The discount rate used in determining the accumulated benefit obligation was 5.0% for 2018 and 2017.

The projected retiree benefit payments are expected to be as follows: 2019 - \$490,000; 2020 - \$495,000; 2021 - \$475,000; 2022 - \$470,000; 2023 - \$415,000.

Note 9. Commitments

The Cooperative has various agreements outstanding with local contractors. Under these agreements, the contractors will perform certain construction, maintenance, and other work at specified hourly rates or unit cost, or on an as needed basis. The duration of these contracts are one to three years.

Note 10. Contingencies

The Cooperative, occasionally, is involved in litigation arising in the normal course of business. While the results of such litigation cannot be predicted with certainty, management, based upon advice of counsel, believes that the final outcome will not have a material adverse effect on the financial statements.

Report on Internal Control Over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards*

To the Board of Directors
Mountain Rural Telephone Cooperative Corporation
West Liberty, Kentucky

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Mountain Rural Telephone Cooperative Corporation ("Cooperative"), which comprise the balance sheets as of December 31, 2018 and 2017, and the related statements of revenue and comprehensive income, changes in members' equities and cash flows for the years then ended, and related notes to the financial statements, and have issued my report thereon dated February 12, 2019. My report includes a reference to other auditors who audited the financial statements of East Kentucky Network, LLC, as described in my report on The Cooperative's financial statements. This report does not include the results of the other auditor's testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Cooperative's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Cooperative's internal control. Accordingly, we do not express an opinion on the effectiveness of the Cooperative's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Directors
Mountain Rural Telephone Cooperative Corporation

However, I noted the following during my audit. The set-top boxes and related non-regulated material were not counted as part of the inventory. During the year, the employee responsibility for these items changed. During that process the counting of the above items was overlooked. I was informed these items are to be counted and reconciled during the upcoming year.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Cooperative's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance with Aspects of Contractual
Agreements and Regulatory Requirements for Telephone Borrowers

Board of Directors
Mountain Rural Telephone Cooperative Corporation
West Liberty, Kentucky

I have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Mountain Rural Telephone Cooperative Corporation ("the Cooperative"), which comprise the balance sheet as of December 31, 2018, and the related statements of revenue and comprehensive income, changes in members equities, and cash flows for the year then ended, and the related notes to the financial statements, and have issued my report thereon dated February 12, 2019. In accordance with *Government Auditing Standards*, we have also issued my report dated February 12, 2019, on my consideration of the Cooperative's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. No reports other than the reports referred to above and my schedule of findings and recommendations (of which there were none) have been furnished to management.

In connection with my audit, nothing came to my attention that caused me to believe that the Cooperative failed to comply with the terms, covenants, provisions, or conditions of their loan, grant, and security instruments as set forth in 7 CFR Part 1773, *Policy on Audits of Rural Utilities Service Borrowers*, §1773.33 and clarified in the RUS policy memorandum dated February 7, 2013, insofar as they relate to accounting matters as enumerated below. However, my audit was not directed primarily toward obtaining knowledge of noncompliance. Accordingly, had I performed additional procedures, other matters may have come to my attention regarding the Cooperative's noncompliance with the above-referenced terms, covenants, provisions, or conditions of the contractual agreements and regulatory requirements, insofar as they relate to accounting matters. In connection with my audit, I noted no matters regarding the Cooperative's accounting and records to indicate that the Cooperative did not:

- Maintain adequate and effective accounting procedures;
- Utilize adequate and fair methods for accumulating and recording labor, material, and overhead costs, and the distribution of these costs to construction, retirement, and maintenance or other expense accounts;
- Reconcile continuing property records to the controlling general ledger plant accounts;
- Clear construction accounts and accrue depreciation on completed construction;
- Record and properly price the retirement of plant;
- Seek approval of the sale, lease, or transfer of capital assets and disposition of proceeds for the sale or lease of plant, material, or scrap;

Board of Directors
Mountain Rural Telephone Cooperative Corporation

- Maintain adequate control over material and supplies;
- Prepare accurate and timely Financial and Operating Reports;
- Obtain written approval of the RUS to enter into any contract, agreement, or lease with an affiliate as defined in Part 1773 (e)(2)(i);
- Disclose material related party transactions in the financial statements, in accordance with requirements for related parties in generally accepted accounting principles, and;
- Comply with the requirements for the detailed schedule of investments, which are listed below.

The Cooperative formed a wholly-owned subsidiary, Mountain Telecommunications, Inc., which a one-fifth (1/5) owner of a limited liability company that provides cellular and other communications services. The initial investment was \$830,000. The investment is comprised of the following:

	<u>Investment</u>	<u>Profits</u>	<u>Total</u>
Beginning of year	\$4,780,000	\$35,594,908	\$40,374,908
Activity for 2018	-	420,209	420,209
End of year	<u>\$4,780,000</u>	<u>\$36,015,117</u>	<u>\$40,795,117</u>

The purpose of this report is solely to communicate, in connection with the audit of the financial statements, on compliance with aspects of contractual agreements and the regulatory requirements for electric borrowers based on the requirements of 7 CFR Part 1773, Policy on Audits of Rural Utilities Service Borrowers and Grantees. Accordingly, this report is not suitable for any other purpose.
