Independent Auditor's Report

To the Board of Commissioners Bullock Pen Water District Crittenden, Kentucky

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities of the Bullock Pen Water District (District), as of and for the years ended December 31, 2024 and 2023, and the related notes to the financial statements, which collectively comprise the Bullock Pen Water District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Bullock Pen Water District as of December 31, 2024 and 2023, and the respective changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with accounting standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Bullock Pen Water District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Bullock Pen Water District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance

and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Bullock Pen Water District's internal control. Accordingly, no
 such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Bullock Pen Water District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the *Management's Discussion and Analysis* and *Multiple Employer, Cost Sharing, Defined Benefit Pension and OPEB* disclosures be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Bullock Pen Water District's basic financial statements. The accompanying Schedules of Operations, Maintenance, and Administrative Expenses are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying Schedules of Operations, Maintenance, and Administrative Expenses are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 29, 2025, on our consideration of the Bullock Pen Water District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Bullock Pen Water District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Bullock Pen Water District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

Our discussion and analysis of the District's financial performance provides an overview of the District's financial activities for the year ended December 31, 2024. The information is presented in conjunction with the audited financial statements that follow this section.

FINANCIAL HIGHLIGHTS

- The assets of the District exceeded its liabilities at the close of the most recent year by \$17,723,361, (net position). This was an increase of \$1,403,956 in comparison to the prior year's increase of \$798,671. During 2024, the District's operating revenues increased 7.79% or \$388,050 while operating expenses decreased .03% or \$1,230.
- At the end of the current year, unrestricted net position was \$3,367,023.

USING THIS ANNUAL REPORT

The financial statements presented herein include all the activities of the District accounted for within a single proprietary (enterprise) reporting entity. The financial statements include a statement of net position, statement of revenues, expenses and changes in net position, statement of cash flows, notes to the financial statements and a supplemental schedule. These statements show the condition of the District's finances and the sources of income and the funds expended.

Basis of Accounting

The District's financial statements are prepared using the accrual basis of accounting.

Statements of Net Position and Revenues, Expenses and Changes in Net Position

In the Statements of Net Position and the Statements of Revenues, Expenses and Changes in Net Position, we report the District's activities.

• The District charges rates for water usage based on the water consumption of its customers to cover all or most of the cost of certain services the District provides.

SUMMARY OF NET POSITION

Table 1 provides a summary of the District's net position at December 31, 2024, 2023, and 2022.

Total Net Position	\$ 17,723,361	\$	16,319,405	\$	15,520,734
	<u> </u>		-		

The District's net position for 2024 increased 8.61% or \$1,403,956, as compared to a 5.15% or \$798,671 increase in the previous year.

The largest portion of the District's net position (78.1%) reflects its investment in capital assets (e.g. land, buildings, infrastructure, machinery and equipment), less any related debt used to acquire those assets still outstanding. The District uses these capital assets to provide services to its customers; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the debt.

An additional portion of the District's net position (2.9%) is considered to be restricted. This amount represents resources that are subject to external restrictions on how they may be used.

The unrestricted net position may be used to meet the District's ongoing obligations to customers and creditors.

SUMMARY OF CHANGES IN NET POSITION

Operating Revenues

The District's operating revenues increased by \$388,050 or 7.79%. Water sales made up the largest portion of this increase which was a combination of more billings than the prior year along with a rate increase during the entire year as compared to just the last quarter of 2023. There was also a slight increase in the management fee charged to the sewer district as a result of renegotiating the contract due to increased wages and supply costs.

Operating Expenses

The District's operating expenses decreased \$1,230 or .03%. There was an increase in water costs in the amount of \$10,941. This could be due in part to more customers than the previous year which could result in higher usage. Operation and maintenance expenses increased by \$69,107 or 3.01%. Although the District increased salary and benefits in order to maintain their competitiveness in the current employment market, this expense category remained nearly unchanged. This was the result of some senior employees retiring and being replaced by younger staff at entry level salaries. There was a large increase in engineering expense as the District decided not to proceed with a couple of construction projects which had only incurred engineering costs, while they evaluated the cost effectiveness of the project. The District also saw increases in the Materials and Supplies category as they are in the process of replacing meters.

Net Effect On Change Of Pension and OPEB (Expense) Gain

The District is required to report its proportionate share of the estimated unfunded net pension and OPEB liability (asset) associated with its participation in the County Employee Retirement System in its financial statements. The amount that appears as non-operating income, \$300,753, is the result of booking the change in the unfunded net liability (asset) and the related deferred inflows and outflows less any amortization of those inflows and outflows between June 30, 2023 and June 30, 2024. This gain increased \$68,552 from the amount reported in 2023. See Note 9 to the financial statements for a more complete explanation of this unfunded net liability (asset) and the related deferred inflows and outflows.

Capital Contributions

Capital contributions increased \$85,041 and surcharge collections decreased \$20,181 during 2024. The increase in capital contributions was primarily due to the District receiving \$68,604 more in grants than in the previous calendar year. There was also an increase in tap in fees that was accompanied by an increase in the charge for this service, which was part of the rate increase that went into effect in October 2023. The decrease in surcharge collections was due to the fact that the Phase 5 surcharge collections were stopped in October 2023 so there were no collections for this Phase in 2024. There are no refunds that need to be issued on Phase 5.

The following schedule compares the revenues and expenses for the current year and the previous two years.

Table 2 Changes in Net Position

	2024	2023	2022

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At December 31, 2024, the District had \$16,014,071 invested in capital assets including land, buildings, water treatment, transmission and distribution system, equipment, and vehicles, as reflected in the following schedule. This represents a net decrease (additions less retirements and depreciation) of \$387,850. This decrease is mainly due to the fact that depreciation expense of \$619,912 was more than the cost of new assets purchased during 2024.

Table 3 Summarizes the District's capital assets at the end of 2024 as compared to 2023 and 2022.

Table 3
Capital Assets at Year End

	2024	2023	2022
Land	\$ 580,314	\$ 580,314	\$ 230,314
Buildings and improvements	1,963,521	1,963,521	1,926,241
Construction in progress	208,874	154,374	93,408
Other plant and miscellaneous equipment	798,306	796,718	791,431

Furniture and fixtures	87,080	81,555	76,346
Subtotal	30,527,129	30,343,630	29,698,906
Accumulated depreciation	(14,513,058)	(13,941,709)	(13,268,310)
Capital assets, net	\$ 16,014,071	\$ 16,401,921	\$ 16,430,596

Debt Outstanding

Table 4 illustrates the District's outstanding debt at the end of 2024 compared to 2023 and 2022.

Table 4
Outstanding Debt at Year End

	 2024		2023		2022
Bond payable obligations	\$ 315,000	\$	352,000	\$	386,000
Notes payable	1,892,745		2,153,038		2,446,055
Capitalized leases			-		72,686
Total	\$ 2,207,745	\$	2,505,038	\$:	2,904,741

At year-end, the District had \$2,207,745 in outstanding long-term debt compared to \$2,505,038 in 2023 and \$2,904,741 in 2022. This is a decrease of \$297,293 which is the amount of principal paid on the District's debt during 2024.

All of the required payments were made on the District's outstanding debt during 2024.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The District's budget for 2025 projects a year very similar to 2024. Water revenues are projected to remain projected to increase slightly over the amounts experienced in 2024. Operation expenses are expected to increase slightly due to economic factors. The increase in operating income is expected to offset the increase in the operating expenses. This should translate to an increase in net position at the end of 2025. This will be a benefit to the District as they are considering a Water Treatment Plant and are in the early stages of this large project.

FINANCIAL CONTACT

This financial report is designed to provide our customers and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District Administrative Office at 1 Farrell Drive, Crittenden, Kentucky 41030.

The accompanying notes are an integral part of these financial statements.

NOTE 1 – GENERAL INFORMATION AND SIGNIFICANT ACCOUNTING POLICIES

The Bullock Pen Water District (District) is a water utility, which provides service to residential and commercial customers in Grant, Boone, Kenton, Pendleton, and Gallatin Counties in Kentucky. The District was created by the Grant County Fiscal Court under the provisions of chapter 74 of the Kentucky Revised Statutes (KRS) in 1957.

Regulatory Requirements

The District is subject to the regulatory authority of the Kentucky Public Service Commission (PSC) pursuant to KRS 278.040.

Basis of Accounting

The District's financial statements are presented on the full accrual basis in accordance with accounting principles generally accepted in the United States of America. Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles for state and local governments in the United States of America.

All activities of the District are accounted for within a single proprietary (enterprise) reporting entity. Proprietary entities are used to account for operations that are (a) financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the cost (expense, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The accounting and financial reporting treatment applied to the District is determined by its measurement focus. The transactions of the District are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operations are included on the statement of net position. Net position (i.e., total assets net of total liabilities) are segregated into "invested in capital assets, net of related liabilities"; "restricted"; and "unrestricted" components.

Cash Equivalents

For purposes of the balance sheets and the statements of cash flows, the District considers all unrestricted highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Budgets

In accordance with Kentucky Revised Statute 65A, the District is required to upload a balanced budget to the Kentucky Department of Local Government website by January 15. The budget includes proposed expenditures and the means of financing them for the upcoming year. Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. Expenditures may not legally exceed budgeted appropriations at the fund level. All appropriations lapse at fiscal year-end.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined under the First-In, First-Out (FIFO) method. Market is determined on the basis of estimated realizable market values.

Deferred Outflows and Inflows of Resources

Deferred outflows of resources represent a consumption of net assets that applies to future periods, and therefore deferred until that time. A deferred loss on refunding results from the difference in the carrying value of the refunded debt and the reacquisition price. The District also recognizes deferred outflows of resources related to pensions and other postemployment benefits.

Deferred inflows of resources represent an acquisition of net assets that applies to future periods and is therefore deferred until that time. A deferred gain on refunding results from the difference in the carrying value of the refunded debt and the reacquisition price. The District also recognizes deferred inflows of resources related to pensions and other postemployment benefits.

Distribution System, Building, and Equipment

Property, plant, transmission lines, and equipment are recorded at cost and depreciated over their estimated useful lives using the straight line method. Upon sale or retirement, the cost and related accumulated depreciation are removed from the respective accounts and the resulting gain or loss is included in the "Non-Operating Income (Expense)" portion of results of operations.

Construction in Progress

Capitalizable costs incurred on projects which are not in use or ready for use at year end are held as "Construction in Progress". When the asset under construction is ready for use, related costs are transferred to the asset account. The Construction in Progress account was \$208,874 and \$154,375 at December 31, 2024 and 2023, respectively.

Miscellaneous Deferred Charges

Bond premiums and discounts are deferred and amortized over the life of the bond. The District amortizes expenses related to tapping into the Northern Kentucky Water District. The District also amortizes costs associated with the preparation, filing, and completion of its rate case proceedings.

Capital Contributions

In conformity with the provisions of Governmental Accounting Standards Board Statement No. 33 – *Accounting and Financial Reporting for Non-Exchange Transactions*, amounts related to customer contributions in aid of construction have been reported as other income in the District's income statement. These contributions represent customer tap-in fees and other contributions to recover the costs of extensions of the distribution system. The District also includes estimated cost figures for those lines contributed by outside contractors.

During 2024 and 2023 these contributions consisted of the following:

Source	2024		2023	
Tap in fees and construction costs paid by new customers	\$	133,146	\$	96,528
Grants 122,260		122,260		53,656
Surcharges - Phases 5, 6, 8, and 10		27,980		48,161
Total income received in aid of construction		283,386		198,345
Waterlines and related infrastructure received without cost		-		-
Total capital contributions	\$	283,386	\$	198,345

Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension (expense) gain, information about the fiduciary net position of the County Employees Retirement System (CERS) and additions to/deductions from CERS' fiduciary net position have been determined on the same basis as they are reported by CERS. For this

purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB (expense) gain, information about the fiduciary net position of the County Employees Retirement System (CERS) and additions to/deductions from CERS' fiduciary net position have been determined on the same basis as they are reported by CERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Income Tax Status

The District is exempt from federal and state income taxes since it is a governmental entity. Accordingly, the financial statements include no provision for income taxes.

Use of Estimates

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Operating Revenues and Non-Operating Revenues

Revenues have been classified as operating and non-operating. Operating revenues are those revenues that are directly generated from the sale of water to customers. Non-operating revenues are those revenues that arise from the overall function of the entity. Examples of non-operating revenues are grant revenues, sales of fixed assets and interest income.

NOTE 2 – DEPOSITS AND INVESTMENTS

Deposits consist of checking accounts and are carried at cost, which approximates market value. The carrying amount of deposits is separately displayed on the statements of net position as "Cash and Cash Equivalents," "Certificates of Deposit," and "Restricted Assets". The balances for "Cash and Cash Equivalents" were \$1,575,532 and \$1,346,323 at December 31, 2024 and 2023, respectively. The balances for "Certificates of Deposit" were \$2,432,988 and \$768,984 at December 31, 2024 and 2023, respectively. The balances for "Restricted Assets," net of accounts receivable - surcharges were \$1,516,761 and \$2,244,528 at December 31, 2024 and 2023, respectively. The District has amounts on deposit with two banks in excess of FDIC insured amounts. The banks have pledged collateral agreements to cover such excess amounts. At December 31, 2024, all amounts held on deposit by the District were sufficiently collateralized.

Investments are reported at fair value which is determined using the selected basis. Short term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair market value.

The District's investments are categorized to give an indication of the level of risk assumed by the District at December 31, 2024 and 2023. The categories are described as follows:

Category 1 – Insured and registered, with securities held by the entity or its agent in the entity's name;

Category 2 – Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the entity's name;

Category 3 – Uninsured and unregistered, with securities held by the counterparty, or its trust department or agent but not in the entity's name.

The District's investments at December 31, 2024 are as follows:

				Fair Value/	
At December, 31, 2024	Category 1	Category 2	Category 3	Carrying Cost	Cost
Operation and maintenance	\$ 1,583,201	\$ -	\$ -	\$ 1,583,201	\$ 1,583,201
Customer deposits	468,230	-	-	468,230	468,230
Debt payment accounts	774,266	-	59,463	833,729	833,729
Current and replacement reserve	207,133			207,133	207,133
Total	\$ 3,032,830	\$ -	\$ 59,463	\$ 3,092,293	\$ 3,092,293

The District's investments at December 31, 2023 are as follows:

				Fair Value/	
At December, 31, 2023	Category 1	Category 2	Category 3	Carrying Cost	Cost
Operation and maintenance	\$ 1,353,151	\$ -	\$ -	\$ 1,353,151	\$ 1,353,151
Customer deposits	424,667	-	-	424,667	424,667
Debt payment accounts	712,173	-	56,341	768,514	768,514
Current and replacement reserve	1,044,518	_		1,044,518	1,044,518
Total	\$ 3,534,509	\$ -	\$ 56,341	\$ 3,590,850	\$ 3,590,850

NOTE 3 – RESTRICTED NET POSITION

Net position is comprised of the various net earnings from operating and non-operating revenues, expenses and contributions of capital. Net position is classified in the following three components: invested in capital assets, net of related debt; restricted; and unrestricted net position. Invested in capital assets, net of related debt, consists of all capital assets net of accumulated depreciation and reduced by outstanding debts that are attributable to the acquisition, construction and improvement of those assets. The restricted portion of net position consists of assets, net of related liabilities, for which constraints are placed thereon by external parties, such as lenders, grantors, contributors, laws, regulations and enabling legislation, including self-imposed legal mandates. The unrestricted portion of net position consists of all other assets, net of related liabilities, not included in the above categories.

The following amounts are included in restricted net position at December 31, 2024 and 2023:

	2024		2023
Current reserve fund - USRDA	\$ 143,400	-	\$ 143,400
Debt payment account	94,390		158,618
Customer deposits - current	155,312		155,312
Account receivable - surcharge	1,207		1,208
Accrued interest payable	(5,901)		(6,570)
Portion of bonds payable	(39,000)		(37,000)
Maintenance and replacement	53,978		520,940
Portion of CD investments	108,762	_	-
Total restricted net position	\$ 512,148	_	\$ 935,908

NOTE 4 – UTILITY PLANT IN SERVICE

All property, plant and equipment including infrastructure assets are recorded at cost and depreciated over their estimated useful lives, using the straight-line method. Upon sale or retirement, the cost and related accumulated depreciation are eliminated from the respective accounts and the resulting gain or loss included in the results of operations. Repair and maintenance charges, which do not increase the useful lives of the assets, are charged to income as incurred. Interest incurred on construction funding during the period of construction is capitalized and is added to the item under construction rather than charged to expense as incurred.

Estimated useful lives, in years, for depreciable assets are as follows:

Buildings and improvements	10-50 years
Furniture and fixtures	3-10 years
Machinery and equipment	5-25 years
Transportation equipment	3-13 years
Transmission lines and distribution systems	50 years

The capital asset balances at December 31, 2024 and 2023 are as follows:

	Balance at				Balance at
	December 31,				December 31,
Asset Type	2023	Ac	dditions	Retirements	2024

NOTE 5 – BONDED INDEBTEDNESS

Kentucky Rural Water Finance Corporation Revenue Bonds, Series 2005B - Phase 8

On October 19, 2005, the District sold \$514,000 of revenue bonds for the purpose of funding its Phase 8 waterline extension project. All bonds mature on February 1st of each year beginning in 2007 and ending in 2031. Interest is payable on February 1st and August 1st of each year and principal is due in annual installments on February 1st through 2031. The remaining debt service is as follows:

	Interest	F	Principal		Principal		Principal		Principal Interest			Total	
Year	Rates	1	Amount		Amount		mount	De	bt Service				
2025	4.39%	\$	25,000	\$	8,533	\$	33,533						
2026	4.44%		26,000		7,407		33,407						
2027	4.465%		28,000		6,205		34,205						
2028	4.465%		28,000		4,955		32,955						
2029	4.490%		31,000		3,633		34,633						
2030-2031	4.590%		64,000		2,984		66,984						
Totals		\$	202,000	\$	33,717	\$	235,717						

Kentucky Rural Water Finance Corporation Revenue Bonds, Series 2005B - Phase 10

On October 19, 2005, the District sold \$290,000 of revenue bonds for the purpose of funding its Phase 10 waterline extension project. All bonds mature on February 1st of each year beginning in 2007 and ending in 2031. Interest is payable on February 1st and August 1st of each year and principal is due in annual installments on February 1st through 2031. The remaining debt service is as follows:

	Interest	Principal		rincipal Interest			Total	
Year	Rates		Amount		mount	De	bt Service	
2025	4.39%	\$	14,000	\$	4,773	\$	18,773	
2026	4.44%		15,000		4,133		19,133	
2027	4.465%		15,000		3,465		18,465	
2028	4.465%	16,000			2,773		18,773	
2029	4.490%		17,000		2,034		19,034	
2030-2031	4.590%		36,000		1,653		37,653	
Totals		\$	113,000	\$	18,831	\$	131,831	

NOTE 6 – NOTES PAYABLE

Kentucky Infrastructure Authority - Drinking Water Supply Project 2003

On November 1, 2003, the District signed a note from the Kentucky Infrastructure Authority for \$1,210,604 to fund waterline extension projects and the Mt. Zion water tank installation. Water system revenues serve as collateral for this loan. The note carries an interest rate of 3.0% and matures on June 1, 2024. Final payment was made in 2024.

Kentucky Infrastructure Authority – Drinking Water Supply Project 2010

During 2009, the District executed a drawdown loan with the Kentucky Infrastructure Authority for \$2,192,700 to finance the Phase 6 waterline extension project. The final draw on this loan was taken on February 15, 2011. Water system revenues serve as collateral for this loan. The loan carries an interest rate of 3.0% and matures on December 1, 2030. The remaining debt service is as follows:

Year	Interest Rates	Principal Amount		•		De	Total Debt Service	
2025	3.00%	\$	123,527	\$	23,064	\$	146,591	
2026	3.00%		127,260		19,331		146,591	
2027	3.00%		131,107		15,484		146,591	
2028	3.00%	135,069			11,523		146,592	
2029	3.00%		139,152		7,439		146,591	
2030	3.00%		143,357		3,235		146,592	
Totals		\$	799,472	\$	80,076	\$	879,548	

<u>Kentucky Infrastructure Authority – Drinking Water State Revolving Loan Fund 2012</u>

During 2012, the District executed a drawdown loan with the Kentucky Infrastructure Authority for \$1,796,300 to finance the Phase 12 500,000 gallon water tower storage tank. Water system revenues serve as collateral for this loan. The loan carries an interest rate of 2.0% and matures on June 1, 2034. The final draw on this loan was deposited on October 23, 2014. The remaining debt service is as follows:

	Interest	Principal		Principal		Principal Interest		Total	
Year	Rates	Amount			Amount	D	ebt Service		
2025	2.00%	\$ 91,020 \$ 18,395		\$	109,415				
2026	2.00%		92,849		16,566		109,415		
2027	2.00%		94,716		14,699		109,415		
2028	2.00%		96,619		12,796		109,415		
2029	2.00%		98,562		10,853		109,415		
2030-2034	2.00%		468,624		23,741		492,365		
Totals		\$	942,390	\$	97,050	\$	1,039,440		

Kentucky Infrastructure Authority - Drinking Water State Revolving Loan Fund 2015

On September 10, 2015, the District executed a drawdown loan with the Kentucky Infrastructure Authority in order to finance its Phase 14 looped lines. Water system revenues serve as collateral for this loan. The loan carries an interest rate of 1.75% and matures on June 1, 2036. The final draw on this loan was deposited on August 25, 2016. The remaining debt service is as follows:

Year	Interest Rates	Principal Amount		Principal Amount		•		•		•			De	Total bt Service
1 Cui	- Rates		unount		unount		Dt OCIVIOC							
2025	1.75%	\$	11,404	\$	2,591	\$	13,995							
2026	1.75%		11,605		2,390		13,995							
2027	1.75%		11,808		2,187		13,995							
2028	1.75%		12,016		1,979		13,995							
2029	1.75%		12,227		1,768		13,995							
2030-2034	1.75%		64,436		5,538		69,974							
2035-2036	1.75%		27,388		600		27,988							
Totals		\$	150,884	\$	17,053	\$	167,937							

NOTE 7 – CAPITAL LEASES

BB&T - 2013

On October 29, 2013, the District signed a capital lease agreement with BB&T for \$769,465, which served to relinquish the District's obligations on its December 28, 1978 bond debt through the U.S. Department of Agriculture and its May 15, 2002 Series 2001C – Surcharge and Series 2001C – Phase V bond debt through the Kentucky Rural Water Finance Corporation. The interest rate is fixed at 2.80%. Principal and interest payments are due on the twenty-ninth day of each month beginning November 29, 2013 and ending October 29, 2023. Final payment was made in 2023.

NOTE 8 - INDEBTEDNESS SUMMARY

The changes in long-term indebtedness for 2024 are as follows:

	E	Balance at					Е	Balance at
	De	ecember 31,					De	cember 31,
Debt Instrument		2023	Ad	ditions	Re	etirements		2024
KRW series 2005B bonds - Phase 8	\$	225,000	\$	-	\$	(23,000)	\$	202,000

Less: current portion of long-term debt		(297,292)						(264,950)
Total Long-Term Indebtedness	\$	2,207,746					\$	1,942,795

NOTE 9 - COUNTY EMPLOYEES' RETIREMENT SYSTEM

Plan description – District employees are covered by CERS (County Employees' Retirement System), a cost-sharing multiple-employer defined benefit pension and health insurance (Other Post-Employment Benefits; OPEB) plan administered by the Kentucky Public Pension Authority, an agency of the Commonwealth of Kentucky. Under the provisions of the Kentucky Revised Statue ("KRS") Section 61.645, the Board of Trustees of the Kentucky Public Pension Authority administers CERS and has the authority to establish and amend benefit provisions. The Kentucky Public Pension Authority issues a publicly available financial report that includes financial statements and required supplementary information for CERS. That report may be obtained from http://kyret.ky.gov/.

The Plan is divided into both a **Pension Plan** and **Health Insurance Fund Plan** (Other Post-Employment Benefits; OPEB) and each plan is further sub-divided based on **Non-Hazardous** duty and **Hazardous** duty covered-employee classifications. The District has only Non-Hazardous employees.

Membership in CERS consisted of the following at June 30, 2023:

_	Non-Hazardous				
	Pension	OPEB			
Active Plan Members	78,810	78,418			
Inactive Plan Members	111,086	27,097			
Retired Members	70,932	38,679			
	260,828	144,194			
Number of partic	1,148				

PENSION PLAN

Benefits provided: The non-hazardous system provides for retirement, disability, and death benefits to system members. Retirement benefits may be extended to beneficiaries of plan members under certain circumstances.

Tier 1: Retirement Eligibility for Members Whose Participation Began Before 09/01/2008

Age	Years of Service	Allowance Reduction
65	1 month	None
Any	27	None
55	5	6.5% per year for first five years, and 4.5% for the
		next five years before age 65 or 27 years of service.
Any	25	6.5% per year for first five years, and 4.5% for the
		next five years before age 65 or 27 years of service.

Tier 2: Retirement Eligibility for Members Whose Participation Began on or After 09/01/2008 but before 01/01/2014

Age	Years of Service	Allowance Reduction	
65	5	None	
57	Rule of 87	None	
60	10	6.5% per year for first five years, and 4.5% for the next five	
		years before age 65 or Rule of 87 (age plus years of service).	

Tier 3: Retirement Eligibility for Members Whose Participation Began On or After 01/01/2014

Age	Years of Service	Allowance Reduction
65	5	None
57	Rule of 87	None

Benefit Formula for Tiers 1 & 2

Final Compensation X	Benefit Factor			Years of Service
		Member begins		
Average of the five	2.20% if:	participating prior		
highest years of		to 08/01/2004.		Includes earned

Benefit Formula for Tier 3

(A-B) = C X 75% = D, then B+D = Interest								
	Α	В	С	D	Interest	Total		
	5 Year Rate				Rate	Interest		
	Geometric Less Upside Interest							
Measurement Average Guarantee Sharing		Rate	(4% +	Members'				
Year	Return	Rate	Interest	Earned	Upside)	Account		
2024	7.67%	4.00%	3.67%	2.75%	6.75%	\$ 35,699,000		
2023	6.52%	4.00%	2.68%	2.01%	6.01%	\$ 8,761,000		

For post-retirement death benefits, if the member is receiving a monthly benefit based on at least four (4) years of creditable service, the retirement system will pay a \$5,000 death benefit payment to the beneficiary named by the member specifically for this benefit.

For disability benefits, members participating before August 1, 2004 may retire on account of disability provided the member has at least 60 months of service credit and is not eligible for an unreduced benefit. Additional service credit may be added for computation of benefits under the benefit formula. Members participating on or after August 1, 2004 but before January 1, 2014 may retire on account of disability provided the member has at least 60 months of service credit. Benefits are computed at the greatest of 20% for non-hazardous of final rate of pay or the amount calculated under the benefit formula based upon actual service. Members participating on or after January 1, 2014 may retire on account of disability provided the member has at least 60 months of service credit. The hybrid account which includes member contributions, employer contributions, and interest credits can be withdrawn from the System as a lump sum or an annuity equal to the larger of 20% for non-hazardous of the member's monthly final rate of pay or the annuitized hypothetical account into a single life annuity option. Members disabled as a result of a single duty-related injury or act of violence related to their job may be eligible for special benefits.

For pre-retirement death benefits, the beneficiary of a deceased active member will be eligible for a monthly benefit if the member was: (1) eligible for retirement at the time of death or, (2) under the age of 55 with at least 60 months of service credit and currently working for a participating agency at the time of death or (3) no longer working for a participating agency but at the time of death had at least 144 months

of service credit. If the beneficiary of a deceased active member is not eligible for a monthly benefit, the beneficiary will receive a lump sum payment of the member's contributions and any accumulated interest.

The Kentucky General Assembly has the authority to increase, suspend, or reduce Cost of Living Adjustments (COLAs). Senate Bill 2 of 2013 eliminated all future COLAs unless the State Legislature authorizes on a biennial basis and either (1) the system is over 100.00% funded or (2) the Legislature appropriates sufficient funds to pay the increased liability for the COLA.

House Bill 271 passed during the 2020 legislative session which removed provisions that reduce the monthly payment to a surviving spouse of a member whose death was due to an in line of duty or duty-related injury upon remarriage of the surviving spouse. It also increased benefits for a very small number of surviving spouses and dependent children who did not initially elect the in line of duty or duty-related benefit. There were no other material benefit provision changes since the prior valuation.

Contributions

The employee contribution rate is set by state statute. Non-Hazardous employees contribute 5.00% of their annual creditable compensation. Employees hired on or after September 1, 2008 contribute an additional 1.00% to health insurance.

Plan members who began participating on, or after, September 1, 2008, were required to contribute a total of 6.00% for non-hazardous of their annual creditable compensation. The 1.00% was deposited to an account created for the payment of health insurance benefits under 26 USC section 401(h) in the Pension Fund. These members were classified in the Tier 2 structure of benefits. Interest is paid each June 30 on members' accounts at a rate of 2.50%. If a member terminates employment and applies to take a refund, the member is entitled to a full refund of contributions and interest; however, the 1.00% contribution to the 401(h) account is non-refundable and is forfeited.

Plan members who began participating on or after January 1, 2014, were required to contribute to the Cash Balance Plan. These members were classified in the Tier 3 structure of benefits. The Cash Balance Plan is known as a hybrid plan because it has characteristics of both a defined benefit plan and a defined contribution plan. Members in the plan contribute a set percentage of their salary each month to their own account. Members contribute 5.00% non-hazardous of their annual creditable compensation and 1.00% to the health insurance fund which is not credited to the member's account and is not refundable. The employer contribution rate is set annually by the Board based on an actuarial valuation. The employer contributes a set percentage of the member's salary. Each month, when employer contributions are received, an employer pay credit is deposited to the member's account. A member's account is credited with 4.00% non-hazardous employer pay credit. The employer pay credit represents a portion of the employer contribution.

The employer contribution rates are set by the KRS Board under Kentucky Revised Statute 61.565 based on an annual actuarial valuation, unless altered by legislation enacted by the Kentucky General Assembly.

The District contributed 23.34% of covered-employee's compensation (from January – June 2024) of which 23.34% was for the pension fund and 0% was for the health insurance fund and contributed 19.71% of covered-employee's compensation (from July – December 2024), of which 19.71% was for the pension fund and 0.00% was for the health insurance fund.

The District made all required contributions for the non-hazardous Plan pension obligation for the fiscal year in the amount of \$190,232, of which \$190,232 was for the pension fund and \$0 was for the health insurance fund.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At December 31, 2024, the District reported a liability of \$1,660,405 as its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At the June 30, 2024 measurement year, the District's non-hazardous employer allocation proportion was 0.0277% of the total CERS non-hazardous duty employees. For the year ended December 31, 2024, the District recognized a pension benefit of \$164,268 in addition to its \$190,232 pension contribution.

At December 31, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Non-Hazardous			
	Deferred		Deferred	
		Outflow		Inflow
Differences between expected and actual experience	\$	80,367	\$	-
Net difference between projected actual earnings on plan investments		-		(106,756)
Changes of assumptions		-		(75,018)
Changes in proportion and differences between contributions and proportionate share of contributions		6,277		(61,880)
Contributions subsequent		,		, ,
to the measurement date		86,258		
	\$	172,902	\$	(243,654)

The District's contributions subsequent to the measurement date of \$86,258 will be recognized as a reduction of the net pension liability in the year ending December 31, 2025.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Measurement Year Ending	Net		
June 30,		Deferral	
2025	\$	(98,926)	
2026		6,746	
2027		(41,038)	
2028		(23,792)	
2029		-	
Thereafter		-	
	\$	(157,010)	

Basis of Calculations

The System Actuary, Gabriel, Roeder, Smith & Co. (GRS), completed reports by plan in compliance with GASB Statement No. 67 Financial Reporting for Pension Plans. The TPL, NPL, and sensitivity information are based on an actuarial valuation date of June 30, 2023. The TPL was rolled forward from the valuation date to the Plans' fiscal year ended June 30, 2024, using generally accepted actuarial principles. Information disclosed for years prior to June 30, 2017, were prepared by the prior actuary. GRS will provide separate reports at a later date with additional accounting information determined in accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions.

Assumptions

Below is a summary of the principal assumptions used for the June 30, 2023, actuarial valuation:

Inflation 2.50%

Payroll Growth Rate 2.0% for CERS Non-hazardous

Salary Increases 3.30% to 10.30%, varies by service for CERS Non-

hazardous

Investment Rate of Return 6.50% for CERS Non-hazardous

Mortality System specific mortality table based on experience from 2013-

2022, projected with the ultimate rates from MP-2020 mortality

improvement scale using a base year of 2023.

Changes of Assumptions

There have been no assumption, method or plan provision changes that would materially impact the total pension liability since June 30, 2023. It is our opinion that these procedures for determining the information contained in these reports are reasonable, appropriate, and comply with applicable requirements under GASB No. 67.

Discount Rate

A single discount rate of 6.50% for the nonhazardous and hazardous plans was used to measure the total pension liability for the fiscal year ended June 30, 2024. This single discount rate was based on the expected rate of return on pension plan investments for each plan. Based on the stated assumptions and the projection of cash flows as of each fiscal year ended, the pension plan's fiduciary net position and future contributions were projected to be sufficient to finance all the future benefit payments of the

current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of the projected benefit payments to determine the total pension liability for each plan. The projection of cash flows used to determine the single discount rate must include an assumption regarding actual employer contributions made each future year. Future contributions are projected assuming that the entire actuarially determined employer contribution is received by each plan each future year, calculated in accordance with the current funding policy. The provisions of House Bill 362 (passed during the 2018 legislative session) are still in effect and limit the increases to the employer contribution rates to 12% over the prior fiscal year through June 30, 2028. However, contribution rates are not currently projected to increase by more than 12% in any given future year. Therefore, for the purposes of this calculation, the provisions of House Bill 362 do not impact the projected employer contributions

Actuarial Methods and Assumptions used to determine the Actuarial Determined Contributions for Fiscal Year 2024

The following actuarial methods and assumptions were used to determine the actuarially determined contributions effective for fiscal year ending June 30, 2024:

Actuarial Valuation Date June 30, 2022
Actuarial Cost Method Entry Age Normal

Asset Valuation Method 20% of the difference between the market value of assets and the

expected actuarial value of assets is recognized

Amortization Method Level Percent of Pay

Amortization Period 30 years closed period at June 30, 2019; gains and losses incurring

after 2019 will be amortized over separate closed 20-year

amortization bases

Payroll Growth Rate 2.0%
Investment Rate of Return 6.25%
Inflation 2.30%

Salary Increases 3.30% to 10.30%, varies by service for Non-Hazardous

Mortality System specific mortality table based on experience from 2013-

2018, projected with the ultimate rates from MP-2014 mortality

improvement scale using a base year of 2019.

Phase-in Provision Board certified rate is phased into the actuarially determined rate in

accordance with HB 362 enacted in 2018.

Plan Target Allocation

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	CERS Pensions	
	Non-Hazardous	Long Term
	Target	Expected
Asset Class	Allocation	Nominal Return
Public equity	50.00%	4.15%
Private equity	10.00%	9.10%
Core bonds	10.00%	2.85%
Specialty credit / high yield	10.00%	3.82%
Cash	0.00%	1.70%
Real estate	7.00%	4.90%
Real return	13.00%	5.35%
Expected Real Return	100.00%	4.69%
Long-Term Inflation Assumption		2.50%
Expected Nominal Return for Portfolio		7.19%

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.50%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.50%) or 1-percentage-point higher (7.50%) than the current rate:

	Proportionate Share of Net Pension Liability					
	1% Decrease		Current Rate		1% Increase	
	5.50%		6.50%		7.50%	
Non-hazardous	\$	2,140,533	\$	1,660,405	\$	1,262,025
Total	\$	2,140,533	\$	1,660,405	\$	1,262,025

HEALTH INSURANCE – OTHER POST-EMPLOYMENT BENEFITS

General Information about the OPEB Plan

Plan description: County Employees Retirement System consists of two plans, Non-Hazardous and Hazardous. Each plan is a cost-sharing multiple-employer defined benefit OPEB plan administered by the Kentucky Public Pension Authority under the provision of Kentucky Revised Statute 61.645. The plan covers all regular full-time members employed in non-hazardous and hazardous duty positions of each participating county, city, and any additional eligible local agencies electing to participate in CERS. The District only participates in the non-hazardous plan.

Benefits provided: The KRS' Insurance Fund was established to provide hospital and medical insurance for eligible members receiving benefits from CERS. The eligible non-Medicare retirees are covered by the Department of Employee Insurance (DEI) plans. KRS submits the premium payments to DEI. The Board contracts with Humana to provide health care benefits to the eligible Medicare retirees through a Medicare Advantage Plan. The Insurance Fund pays a prescribed contribution for whole or partial payment of required premiums to purchase hospital and medical insurance. The Insurance Fund pays the same proportion of hospital and medical insurance premiums for the spouse and dependents of retired hazardous members killed in the line of duty.

As a result of House Bill 290 (2004 Kentucky General Assembly), medical insurance benefits are calculated differently for members who began participating on, or after July 1, 2003. Once members reach a minimum vesting period of 10 years, non-hazardous employees whose participation began on, or after July 1, 2003, earn \$10 per month for insurance benefits at retirement for every year of earned service without regard to a maximum dollar amount. Hazardous employees whose participation began on, or after July 1, 2003 earn \$15 per month for insurance benefits at retirement for every year of earned service without regard to a maximum dollar amount.

Upon death of a hazardous employee, the employee's spouse receives \$10 per month for insurance benefits for each year of the deceased employee's earned hazardous service. This dollar amount is subject to adjustment annually, which is currently 1.5% based upon Kentucky Revised Statutes. This benefit is not protected under the inviolable contract provisions of KRS 61.692. The Kentucky General Assembly reserves the right to suspend or reduce this benefit if, in its judgment, the welfare of the Commonwealth so demands.

The amount of contribution paid by the Insurance Fund is based on years of service. For members participating prior to July 1, 2003, years of service and respective percentages of the maximum contribution are as follows:

Portion Paid by Insurance Fund			
Years	Paid by		
of	Insurance		
Service	Fund (%)		
20 + Years	100.00%		
15 - 19 Years	75.00%		
10 - 14 Years	50.00%		
4 - 9 Years	25.00%		
< 4 Years	0.00%		

Contributions

The employee contribution rate is set by state statute. Non-Hazardous employees contribute 5.00% of their annual creditable compensation. Employees hired on or after September 1, 2008 contribute an additional 1.00% to health insurance.

Plan members who began participating on, or after, September 1, 2008, were required to contribute a total of 6.00% for non-hazardous of their annual creditable compensation. The 1.00% was deposited to an account created for the payment of health insurance benefits under 26 USC section 401(h) in the Pension Fund. These members were classified in the Tier 2 structure of benefits. Interest is paid each June 30 on members' accounts at a rate of 2.50%. If a member terminates employment and applies to take a refund, the member is entitled to a full refund of contributions and interest; however, the 1.00% contribution to the 401(h) account is non-refundable and is forfeited.

Plan members who began participating on or after January 1, 2014, were required to contribute to the Cash Balance Plan. These members were classified in the Tier 3 structure of benefits. The Cash Balance Plan is known as a hybrid plan because it has characteristics of both a defined benefit plan and a defined contribution plan. Members in the plan contribute a set percentage of their salary each month to their own account. Members contribute 5.00% non-hazardous of their annual creditable compensation and 1.00% to the health insurance fund which is not credited to the member's account and is not refundable. The employer contribution rate is set annually by the Board based on an actuarial valuation. The employer contributes a set percentage of the member's salary. Each month, when employer contributions are received, an employer pay credit is deposited to the member's account. A member's account is credited

with 4.00% non-hazardous employer pay credit. The employer pay credit represents a portion of the employer contribution.

The employer contribution rates are set by the KRS Board under Kentucky Revised Statute 61.565 based on an annual actuarial valuation, unless altered by legislation enacted by the Kentucky General Assembly.

The District contributed 0% of covered-employee's compensation (from January – June 2024) and contributed 0% of covered-employee's compensation (from July – December 2024) for the health insurance fund. These contributions are actuarially determined as an amount that is expected to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability (asset). For the year ended December 31, 2024, the District recognized an OPEB gain of \$136,485 in addition to its \$0 OPEB contribution.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At December 31, 2024, the District reported an OPEB asset of \$48,075 as its proportionate share of the net OPEB asset. The net OPEB asset was measured as of June 30, 2024, and the total OPEB asset used to calculate the net OPEB asset was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB asset was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of all governmental entities, actuarially determined. At the June 30, 2024 measurement year, the District's proportion of the total non-hazardous plan was 0.0277%. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Non-Hazardous			
	Deferred		I	Deferred
		Outflow		Inflow
Differences between expected and actual experience	\$	26,671	\$	(378,253)
Net difference between projected actual earnings on plan investments		-		(43,871)
Changes of assumptions		43,561		(33,922)
Changes in proportion and differences between contributions and proportionate share of				
contributions		3,458		(33,683)
Contributions subsequent to the measurement date				<u>-</u>
	\$	73,690	\$	(489,729)

The District's contributions subsequent to the measurement date of \$0 for non-hazardous duty employees will be recognized as a reduction of the net OPEB liability in the year ending December 31, 2025.

Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in OPEB expense as follows:

Measurement Year Ending	Net
June 30,	 Deferral
2025	\$ (167,735)
2026	(130,765)
2027	(110,023)
2028	(7,517)
2029	-
Thereafter	
	\$ (416,040)

Basis of Calculations

The total OPEB liability, net OPEB liability (NOL), and sensitivity information are based on an actuarial valuation date of June 30, 2023. The total OPEB liability was rolled forward from the valuation date to the plan's fiscal year ended June 30, 2024, using generally accepted actuarial principles

Assumptions

Below is a summary of the principal assumptions used for the June 30, 2023 actuarial valuation:

Inflation 2.50%

Salary Increases 3.30% to 10.30%, varies by service for CERS Non-

hazardous

Payroll Growth Rate 2.0% for CERS Non-hazardous

Mortality System specific mortality table based on experience from 2013-

2022, projected with the ultimate rates from MP-2020 mortality

improvement scale using a base year of 2023.

Health Care Trend Rates

Pre-65 Initial trend starting at 6.80% at January 1, 2025, and gradually

decreasing to an ultimate trend rate of 4.05% over a period of 13 years. The 2024 premiums were known at the time of the valuation and were

incorporated into the liability measurement.

Post-65 Initial trend starting at 8.50% in 2025, then gradually decreasing

to an ultimate trend rate of 4.05% over a period of 11 years. The 2024 premiums were known at the time of the valuation and were

incorporated into the liability measurement.

Change in Assumptions - Plan

There have been no other plan provision changes that would materially impact the total OPEB liability (asset) since June 30, 2023. It is GRS's opinion that these procedures are reasonable and appropriate and comply with applicable requirements under GASB Statement No. 75.

Discount Rate

The discount rate used to calculate the total OPEB liability increased from 5.93% to 5.99% for the nonhazardous plan. The assumed increase in future health care costs, or trend assumption, was reviewed during the June 30, 2023, valuation process and was updated to better reflect the plan's anticipated long-term healthcare cost increases. In general, the updated assumption is assuming higher future increases in pre-Medicare healthcare costs.

Single discount rates of 5.99% for the nonhazardous plan and 6.02% for the hazardous plan were used to measure the total OPEB liability for the fiscal year ended June 30, 2024. They are based on the expected rate of return on OPEB plan investments of 6.50% and a municipal bond rate of 3.97%, as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of June 30, 2024. Based on the stated assumptions and the projection of cash flows as of each fiscal year ended, the plan's fiduciary net position and future contributions were projected to be sufficient to finance the future benefit payments of the current plan members. Therefore, the long-term expected rate of return on insurance plan investments was applied to all periods of the projected benefit payments paid from the retirement system. However, the cost associated with the implicit employer subsidy is not currently being included in the calculation of the plan's actuarial determined contributions, and it is our understanding that any cost associated with the implicit subsidy will not be paid out of the plan's trust. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy. The projection of cash flows used to determine the single discount rate must include an assumption regarding actual employer contributions made each future year. Future contributions are projected assuming that the entire actuarially determined employer contribution is received by each plan each future year, calculated in accordance with the current funding policy.

Actuarial Methods and Assumptions used to determine the Actuarial Determined Contribution for Fiscal Year 2024

The following actuarial methods and assumptions were used to determine the actuarially determined contributions effective for the fiscal year ending June 30, 2024:

Valuation Date June 30, 2022
Actuarial Cost Method Entry Age Normal

Asset Valuation Method 20% of the difference between the market value of assets and the

expected actuarial value of assets is recognized

Amortization Method Level Percent of Pay

Amortization Period 30 years closed period at June 30, 2019; gains and losses incurring

after 2019 will be amortized over separate closed 20-year

amortization bases

Payroll Growth Rate 2.0%
Investment Rate of Return 6.25%

Inflation 2.30%

Salary Increases 3.30% to 10.30%, varies by service for Non-hazardous

Mortality System-specific mortality table based on mortality experience

2013-2018, projected with the ultimate rates from MP-2014

mortality improvement scale using a base year of 2019.

Healthcare Trend Rates

Pre - 65 Initial trend starting at 6.20% at January 1, 2024, and gradually

decreasing to an ultimate trend rate of 4.05% over a period of 12 years. The 2023 premiums were known at the time of the valuation

and were included into the liability measurement.

Post - 65 Initial trend starting at 9.00% at January 1, 2024, then gradually

decreasing to an ultimate trend rate of 4.05% over a period of 12 years. The 2023 premiums were known at the time of the valuation

and were included into the liability measurement.

Changes of Assumptions - Contributions

The discount rates used to calculate the total OPEB liability (asset) increased from 5.93% to 5.99%. The assumed increase in future health care costs, or trend assumption, was reviewed during the June 30, 2024 valuation process and was updated to better reflect more current expectations relating to anticipated future increases in the medical costs. There were no other material assumption changes.

Plan Target Allocation

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	CERS Pensions	
	Non-Hazardous	Long Term
	Target	Expected
Asset Class	Allocation	Nominal Return
Public equity	50.00%	4.15%
Private equity	10.00%	9.10%
Core bonds	10.00%	2.85%
Specialty credit /high yield	10.00%	3.82%
Cash	0.00%	1.70%
Real estate	7.00%	4.90%
Real return	13.00%	5.35%
Expected Real Return	100.00%	4.69%
Long-Term Inflation Assumption		2.50%
Expected Nominal Return for Portfolio		7.19%

Sensitivity of the Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the proportionate share of the net OPEB liability calculated using the discount rates of 5.99% for the non-hazardous plan, as well as what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	Proportionate Share of Net OPEB Liability											
	1.00	% Decrease	Cı	urrent Rate	1.0	00% Increase						
Discount Rate, Non-Hazardous		4.99%		5.99%	6.99%							
Net OPEB liability, Non-Haz	\$	65,002	\$	(48,075)	\$	(143,150)						
Total	\$	65,002	\$	(48,075)	\$	(143,150)						

Sensitivity of the Proportionate Share of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following presents the proportionate share of the net OPEB liability, as well as what the proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	Proportionate Share of Net OPEB Liability										
Healthcare cost trend rate	1.00	% Decrease	Cu	rrent Rate	1.00% Increase						
Net OPEB liability, non-hazardous	\$	(115,662)	\$	(48,075)	\$	30,660					
Total	\$	(115,662)	\$	(48,075)	\$	30,660					

Plan Fiduciary Net Position

Both the Pension Plan and the Health Insurance Plan issue publicly available financial reports that include financial statements and required supplementary information, and detailed information about each Plan's fiduciary net position. These reports may be obtained, in writing, from the Kentucky Public Pension Authority, 1260 Louisville Road, Perimeter Park West, Frankfort, Kentucky, 40601 or online at www.kyret.ky.gov.

NOTE 10 - KENTUCKY PUBLIC EMPLOYEES DEFERRED COMPENSATION AUTHORITY

During 1999, the District approved employee participation in a deferred compensation plan administered by the Kentucky Public Employees' Deferred Compensation Authority (Authority). The Authority is authorized under KRS 18A.230-18A.275 to provide administration of tax sheltered supplemental retirement plans for all state, public school, and university employees and employees of local political subdivisions that have elected to participate. The District has elected to participate in Plan II, authorized under Section 401(k) of the United States Internal Revenue Code. The plan is funded 100% by payroll deductions from those employees who have elected to participate. The District makes the payroll deduction and then forwards the funds to the Authority.

NOTE 11 – RELATED PARTY TRANSACTIONS

The staff of the Bullock Pen Water District operates the Grant County Sewer District as well. The District receives a management fee from the Grant County Sewer District for these services. This fee was \$226,483 and \$223,072 in 2024 and 2023, respectively. The District has \$47,157 and \$25,686 in accounts receivable from Grant County Sanitary Sewer District at December 31, 2024 and 2023, respectively. The Chair of the Board of Commissioners and two other commissioners of the District serve on the boards of both the Bullock Pen Water District and the Grant County Sewer District.

NOTE 12 – ECONOMIC DEPENDENCY/CREDIT RISK

Bullock Pen Water District is a government agency operating with one office in Crittenden, Kentucky. It grants credit to customers who are primarily local residents and businesses. The District receives all of its operating revenues from customers in Grant, Boone, Kenton, Pendleton, and Gallatin Counties in Kentucky.

NOTE 13 – CONCENTRATIONS

The District has agreements to purchase water from the cities of Walton and Williamstown, Kentucky, the Northern Kentucky Water District, and the Boone County Water District.

NOTE 14 - IMPLEMENTATION OF NEW ACCOUNTING STANDARDS IN CURRENT YEAR

Statement No. 100 – Accounting Changes and Error Corrections – an Amendment of GASB Statement No. 62

Statement No. 101 – Compensated Absences

The implementation of these standards had no significant effect on the District during this calendar year.

NOTE 15 – FUTURE ACCOUNTING STANDARDS

Statement No. 102 – Certain Risk Disclosures – Implementation in calendar year 2025

Statement No. 103 – Financial Reporting Model Improvements – Implementation in calendar year 2026

Statement No. 104 - Disclosure of Certain Capital Assets - Implementation in calendar year 2026

NOTE 16 – SUBSEQUENT EVENTS

Management has considered subsequent events through May 29, 2025, which represents the date financial statements were available to be issued. The District did not have any events subsequent to December 31, 2024 through May 29, 2025 to disclose.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Commissioners Bullock Pen Water District Crittenden, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities of Bullock Pen Water District, as of and for the years ended December 31, 2024 and 2023, and the related notes to the financial statements, which collectively comprise Bullock Pen Water District's basic financial statements, and have issued our report thereon dated May 29, 2025.

Internal Control over Financial Reporting

In planning and performing our audits of the financial statements, we considered Bullock Pen Water District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Bullock Pen Water District's internal control. Accordingly, we do not express an opinion on the effectiveness of Bullock Pen Water District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did not identify any deficiencies in internal control that we consider significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Bullock Pen Water District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements. Noncompliance could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audits, and accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
