#### INDEPENDENT AUDITORS' REPORT

To the Commissioners
East Laurel Water District
London, Kentucky

We have audited the accompanying financial statements of the business-type activities of East Laurel Water District as of and for the years ended December 31, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the East Laurel Water District as of December 31, 2020 and 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 5 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 30, 2021 on our consideration of the East Laurel Water District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering East Laurel Water District's internal control over financial reporting and compliance.

# EAST LAUREL WATER DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

## Years ended December 31, 2020 and 2019

This discussion and analysis is intended to be an easily readable analysis of the East Laurel Water District's financial activities based on currently known facts, decisions or conditions. This analysis focuses on current year activities and should be read in conjunction with the financial statements and notes that follow. We encourage readers to consider the information presented here in conjunction with additional information found within the body of the financial statements and notes.

#### FINANCIAL HIGHLIGHTS

- In 2020, the District's net position decreased by \$222,768, or 4.56%, compared to a decrease in 2019 of \$51,628 or 1.05%.
- In 2020, sales of water increased by \$3,193 or 0.01%. In 2019, sales increased by \$48,349 or 1.74%.
- Operating expenses increased by \$107,662 or 3.62% in 2020 compared to an increase of \$156,603, or 5.58% in 2019.
- Additions to capital assets in 2020 were \$158,538. In 2019, additions to capital assets were \$142,429.
- Principal payments on long-term debt amounted to \$100,000 in 2020, compared to \$94,000 in 2019.

#### **OVERVIEW OF FINANCIAL STATEMENTS**

This report consists of the management's discussion and analysis and the basic financial statements. The financial statements include notes that explain information included in the basic financial statements.

#### FINANCIAL STATEMENTS

The financial statements report information utilizing the full accrual basis of accounting and conform to accounting principles that are generally accepted in the United States of America. The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. The statement of revenues, expenses, and changes in net position presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. The financial statements also include a statement of cash flows, which presents sources and uses of cash and changes in cash balances during the fiscal year.

# EAST LAUREL WATER DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

## Years ended December 31, 2020 and 2019

The MD&A is intended to explain the significant changes in financial position and differences in operation between the current and prior years.

#### **NET POSITION**

# EAST LAUREL WATER DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

#### Years ended December 31, 2020 and 2019

#### CAPITAL ASSETS

On December 31, 2020, the District's investment in capital assets, net of depreciation, totaled \$6,236,150, which is a decrease of \$74,954, or 1.52%, over the capital asset balance of \$6,311,104 at December 31, 2019. This decrease is attributable to the depreciation expense exceeding the additional fixed assets added for the year ended December 31, 2018.

#### **LONG-TERM DEBT**

As of December 31, 2020, the District had long-term debt of \$2,697,500 compared to \$2,797,500 at December 31, 2019, including current portion. During the year ended December 31, 2020, the District paid \$100,000 of principal payments on the long-term debt compared to \$94,000 in 2019.

#### **CONTACT INFORMATION**

The District's financial statements are designed to present users (citizens, taxpayers, customers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning this report or request for additional information should be addressed to the Office Manager, Dewayne Lewis, at East Laurel Water District, London, Kentucky, 40741 or by calling (606) 878-9420.

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Reporting Entity

East Laurel Water District, of Laurel County, Kentucky (the District) was created in 1969 under Chapter 74 of the Kentucky Revised Statutes and is exempt from income taxes under Section 501(c)(4) of the Internal Revenue Code. The District is governed by a three-person board of Commissioners, which is appointed by the Laurel County Fiscal Court. The District is regulated by the Kentucky Public Service Commission.

East Laurel Water District is a rural water utility system whose purpose is to establish, develop, and operate a water supply and distribution system for its members and customers in the eastern portion of Laurel County, Kentucky. The District's primary source of revenue is from water sales to its members and customers, including public bodies and local businesses in its service area.

#### Basis of Accounting, Financial Presentation and Measurement Focus

The basic financial statements of the District have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards, which along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. In addition, the District applies all applicable Financial Accounting Standards Board (FASB) Statements and Interpretations issued after November 30, 1989, except those that conflict with or contradict GASB pronouncements to its business-type activities.

The statement of net position and statement of revenues, expenses and changes in net position display information about the District as a whole. These statements include all funds of the District. The statements distinguish between governmental and business-type activities. The District does not have any governmental activities.

The financial statements are prepared using the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Operating income reported by the District includes revenues and expenses related to the continuing operation of water service for its customers. Principal operating revenues are charges to customers for services. Principal operating expenses are the costs of providing the services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

## Years ended December 31, 2020 and 2019

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Cash and Cash Equivalents

The District considers all highly liquid investments (including restricted cash and investments), with maturities of 90 days or less to be cash equivalents. This includes bank certificates of deposit and demand checking accounts.

#### <u>Investments</u>

The District is authorized by state statute to invest in: 1) obligations of the United States and of its agencies and instrumentalities; 2) bonds or certificates of indebtedness of this state and of its agencies and instrumentalities; 3) shares of any savings and loan insured by an agency of the government of the United States up to the amount so insured; 4) interest bearing deposits in nationally chartered or state banks chartered in Kentucky and insured by an agency of the government of the United States up to the amount so insured, and in larger amounts provided such bank shall pledge, as security, obligations of the United States government, its agencies and instrumentalities.

The District's investments include certificates of deposits with maturity dates of three months or more. Certificates of deposits in excess of FDIC insurance are collateralized by securities held by the pledging bank.

#### Accounts Receivable

Accounts receivable arise as services are rendered for which collections have not been realized and are carried net of a provision for doubtful accounts. The provision for doubtful accounts is estimated using a percentage of accounts more than 90 days past due. At December 31, 2020, and 2019, the provision for doubtful accounts was \$3,048 and \$3,048, respectively.

#### Unbilled Receivables

The District estimated unbilled revenues from water sales, on a pro rata basis, at the end of each fiscal year. The estimated amount is based on amounts billed during the month following the close of the fiscal year.

#### Prepaid Assets

Payments made that will benefit periods beyond the end of the fiscal year are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase, and an expenditure/expense is reported in the year in which services are consumed.

## Years ended December 31, 2020 and 2019

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Capital Assets

Capital assets include land, land improvements, buildings, furniture and office equipment, building improvements, machinery, and equipment that have a useful life of more than one reporting period based on the District's capitalization policy. The cost of additions to the utility plant and major replacements of retired property is capitalized, and the cost of repairs, maintenance, and minor replacements is recorded as expense. By District policy, capital assets are defined as assets with a cost of \$1,000 or more and an estimated useful life in excess of one year. Cost includes direct labor, outside services, materials and transportation employee fringe benefits, and overhead. Interest incurred during construction is capitalized.

The cost and accumulated depreciation of property sold or retired is deducted from capital assets, and any profit or loss resulting from disposal is credited or recorded in the non-operating section of the statements of revenues, expenses and changes in net assets. Depreciation has been provided over estimated useful lives of the assets using the straight-line method. The range of useful lives of assets is as follows:

Assets Classification	Range of Lives
Intangible	40 years
Transmission and distribution mains	50 years
Structures and improvements	40 years
Pumping and water treatment equipment	25 years
Meters, hydrants and services	35-40 years
Other equipment	5-10 years

#### Accounts Payable

Accounts payable represent expenses incurred in the current year to be paid in the subsequent year. The majority of the District's accounts payable are to vendors or for the purchase of water.

#### Long-Term Debt

Long-term debt is reported as liabilities. Loan discount or premium is amortized over the term of the respective loans outstanding using the straight-line method. At December 31, 2020 unamortized value of loan premium was \$8,218.

#### Other Deferred Costs

During 1994, East Laurel Water District transferred \$542,500 to Wood Creek Water District for a tap-on fee in accordance with the Water Purchase Contract which was revised on June 1, 1994. The fee is being amortized over a 50-year period as instructed by the Public Service Commission and is recorded by the District as other deferred costs. At December 31, 2020 amortized value of other deferred costs was \$261,125.

## Years ended December 31, 2020 and 2019

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### **Customer Deposits**

The District collects and holds in escrow a \$60 deposit from customers to insure collection of its water charges. Interest at an annual rate of 1% is paid on these deposits.

#### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### **Net Position**

Net position comprises the various net earnings from operating income, non-operating revenues and expenses, and capital contributions. Net position is classified in the following three components:

Net Investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets and any unamortized debt cost or premium.

Restricted – This component of net position consists of constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – This component of net position consists of net position that do not meet the definition of "restricted" or "net investment in capital assets."

#### NOTE 2 - RESTRICTED CASH

The District restricts all sinking fund deposits, funds required for other debt service, and funds related to specific projects or customer accounts. At December 31, 2020, and 2019, restricted cash amounted to \$150,346 and \$143,704, respectively. This includes restrictions for customer deposits of \$9,536 and \$8,624 and restrictions for debt service of \$140,810 and \$135,080, respectively.

#### NOTE 3 - INVESTMENTS - INTEREST RATE RISK

According to KRS 91A.060, the District is allowed to invest in obligations of the U.S. Treasury and U.S. agencies, repurchase agreements, obligations of the Commonwealth of Kentucky and its agencies, insured savings and loans, or interest-bearing deposits of insured national or state

#### Years ended December 31, 2020 and 2019

#### NOTE 3 – INVESTMENTS – INTEREST RATE RISK (continued)

banks. The District classifies only certificates of deposit as investments and does not consider interest rate risk to be significant.

#### NOTE 4 - CUSTODIAL CREDIT RISK - DEPOSITS

Custodial credit risk for deposits is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of December 31, 2020, and 2019, the District's bank balances were \$785,787 and \$959,002 respectively. In accordance with Kentucky Revised Statute (KRS) 91A.060, deposits are to be collateralized to the extent uninsured by FDIC. According to KRS 41.240(4), it shall either pledge or provide as collateral securities or other obligations having an aggregate current face value or current quoted market value at least equal to the deposits. The District's deposits were fully insured or collateralized with securities held by an agent of the District in the District's name at December 31, 2020, and 2019.

#### NOTE 5 - CUSTOMER AND OTHER ACCOUNTS RECEIVABLE

At December 31, 2020, customer and other accounts receivable are as follows:

Due from consumers for sale of water		\$	337,927
Allowance for doubful accounts	_		(3,048)
		Φ.	33/1 870

The above accounts receivable does not include unbilled receivables of \$151,219.

Continued on the next page

# Years ended December 31, 2020 and 2019

#### **NOTE 6 – CAPITAL ASSETS**

Capital asset activity for the year ended December 31, 2020 and 2019 was as follows:

	Balance						Balance

## Years ended December 31, 2020 and 2019

#### **NOTE 7 – LONG-TERM DEBT**

The District's long-term debt consists of bonds payable to Rural Development (RD) and Kentucky Rural Water Finance Corporation (KRWFC), which were obtained for various acquisitions of plant and equipment and to refinance a prior issue. The bonds mature annually in varying series over the period 2018 to 2038. A summary of the bonds is presented below:

#### RURAL DEVELOPMENT

#### Years ended December 31, 2020 and 2019

#### NOTE 8 – SERVICES PROVIDED TO OTHER WATER DISTRICTS

East Laurel Water District has no employed personnel with the exception of its board members. The District obtains all maintenance, construction (including materials), and office services through contractual agreements with Wood Creek Water District. Wood Creek Water District bills, at cost, East Laurel Water District for services and materials on a monthly basis. East Laurel Water District also purchases water for resale from Wood Creek Water District.

At December 31, 2020 and 2019, the District had accounts payable to Wood Creek Water District as follows:

	2020	2019
Wood Creek Water District		
Accounts Payable	\$ 246,673	\$ 209,194
Accounts Payable - Wastewater	 82,441	67,623
	\$ 329,114	\$ 276,817

Amounts paid to Wood Creek Water District for purchased water and for materials and services provided to East Laurel Water District are as follows:

	<u>2020</u>		<u>2019</u>	
Wood Creek Water District				
Purchased water	\$	1,655,824	\$	1,595,658
Materials, labor, and other		977,176		876,741
	\$	2,633,000	¢ <del>p</del>	2,472,399

#### NOTE 9 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. The insurance coverage is acquired through Wood Creek Water District which includes coverage for Wood Creek Water District, East Laurel Water District, and West Laurel Water Association, Incorporated. The District pays for and is entitled to its respective share of coverage. There have been no significant reductions in coverage for the year and settlements have not exceeded coverage in the past three years.

## Years ended December 31, 2020 and 2019

#### NOTE 10 - IMPACT OF COVID

In March 2020, the World Health Organization ("WHO") declared the outbreak of a novel coronavirus (COVID-19) as a pandemic. This prompted many national, regional, and local governments to implement preventative or protective measures, such as travel and business restrictions, temporary store closures, and wide-sweeping quarantines and stay-at-home orders. As a result, COVID-19 and the related restrictive measures have had a significant adverse impact upon many sectors of the economy. We believe the ultimate financial impact of the COVID-19 pandemic on the District is likely to be determined by factors which are uncertain, unpredictable, and outside the control of the District. The situation surrounding COVID-19 remains fluid, and if disruptions do arise, they could materially adversely affect future revenues.

#### **NOTE 11 - SUBSEQUENT EVENTS**

Management of the District has evaluated events and transactions that occurred after the balance sheet date as potential subsequent events. Management performed this evaluation through April 30, 2021, the date on which the financial statements were available to be issued. No events have occurred subsequent to the date of the financial statements that would require adjustment to the financial statements.

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Commissioners East Laurel Water District London, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business type activities of East Laurel Water District, as of and for the years ended December 31, 2020, and 2019, and the related notes to the financial statements, which collectively comprise East Laurel Water District's basic financial statements, and have issued our report thereon dated April 30, 2021.

#### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered East Laurel Water District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of East Laurel Water District's internal control. Accordingly, we do not express an opinion on the effectiveness of the East Laurel Water District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether East Laurel Water District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
