INDEPENDENT AUDITORS' REPORT

To the Commissioners
East Laurel Water District
London, Kentucky

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities of East Laurel Water District, as of and for the years ended December 31, 2022 and 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the East Laurel Water District, as of December 31, 2022 and 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the East Laurel Water District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit program.

Responsibility of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the East Laurel Water District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statement

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, so such opinion is expressed.
- Evaluate the appropriateness of accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 30, 2023 on our consideration of the East Laurel Water District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering East Laurel Water District's internal control over financial reporting and compliance.

EAST LAUREL WATER DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

Years ended December 31, 2022 and 2021

This discussion and analysis is intended to be an easily readable analysis of the East Laurel Water District's financial activities based on currently known facts, decisions or conditions. This analysis focuses on current year activities and should be read in conjunction with the financial statements and notes that follow. We encourage readers to consider the information presented here in conjunction with additional information found within the body of the financial statements and notes.

FINANCIAL HIGHLIGHTS

- In 2022, the District's net position decreased by \$280,666, or 6.37%, compared to a decrease in 2021 of \$248,800 or 5.34%.
- In 2022, sales of water decreased by \$32,381 or 1.11%. In 2021, sales increased by \$77,837 or 2.75%.
- Operating expenses increased by \$95,788 or 2.99% in 2022 compared to an increase of \$123,182, or 4.00% in 2021.
- Additions to capital assets in 2022 were \$127,719. In 2021, additions to capital assets were \$93,432.
- Principal payments on long-term debt amounted to \$101,000 in 2022, compared to \$100,500 in 2021.

OVERVIEW OF FINANCIAL STATEMENTS

This report consists of the management's discussion and analysis and the basic financial statements. The financial statements include notes that explain information included in the basic financial statements.

FINANCIAL STATEMENTS

The financial statements report information utilizing the full accrual basis of accounting and conform to accounting principles that are generally accepted in the United States of America. The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. The statement of revenues, expenses, and changes in net position presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. The financial statements also include a statement of cash flows, which presents sources and uses of cash and changes in cash balances during the fiscal year.

The MD&A is intended to explain the significant changes in financial position and differences in operation between the current and prior years.

**EAST LAUREL WATER DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)**

Years ended December 31, 2022 and 2021

NET POSITION

A summary of the District's statement of net position as of December 31, 2022 and 2021 is presented below:

	2022 Amount	2021 Amount	Net dollar Change	Net percentage Change
Current and other assets	\$ 782,558	\$ 1,035,504	\$ (252,946)	-24.43%

Other operating expense	3,059,550	2,963,515	96,035	3.24%
Nonoperating expense	51,752	130,012	(78,260)	-60.19%
Total expense	3,346,499	3,328,971	17,528	0.53%
Changes in net position	(280,666)	(248,800)	(31,866)	12.81%
Net position, beginning	4,406,586	4,655,386	(248,800)	-5.34%
Net position, ending	\$ 4,125,920	\$ 4,406,586	\$ (280,666)	-6.37%

**EAST LAUREL WATER DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)**

Years ended December 31, 2022 and 2021

CAPITAL ASSETS

On December 31, 2022, the District's investment in capital assets, net of depreciation, totaled \$5,986,659, which is a decrease of \$107,480, or 1.76%, over the capital asset balance of \$6,094,139 at December 31, 2021. This decrease is attributable to the depreciation expense exceeding the additional fixed assets added for the year ended December 31, 2022.

LONG-TERM DEBT

As of December 31, 2022, the District had long-term debt of \$2,496,000 compared to \$2,597,000 at December 31, 2021, including current portion. During the year ended December 31, 2022, the District paid \$101,000 of principal payments on the long-term debt compared to \$100,500 in 2021.

CONTACT INFORMATION

The District's financial statements are designed to present users (citizens, taxpayers, customers, investors, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. Questions concerning this report or request for additional information should be addressed to the Office Manager, Dewayne Lewis, at East Laurel Water District, London, Kentucky, 40741 or by calling (606) 878-9420.

EAST LAUREL WATER DISTRICT NOTES TO THE FINANCIAL STATEMENTS

Years ended December 31, 2022 and 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

East Laurel Water District, of Laurel County, Kentucky (the District) was created in 1969 under Chapter 74 of the Kentucky Revised Statutes and is exempt from income taxes under Section 501(c)(4) of the Internal Revenue Code. The District is governed by a three-person board of Commissioners, which is appointed by the Laurel County Fiscal Court. The District is regulated by the Kentucky Public Service Commission.

East Laurel Water District is a rural water utility system whose purpose is to establish, develop, and operate a water supply and distribution system for its members and customers in the eastern portion of Laurel County, Kentucky. The District's primary source of revenue is from water sales to its members and customers, including public bodies and local businesses in its service area.

Basis of Accounting, Financial Presentation and Measurement Focus

The basic financial statements of the District have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards, which along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. In addition, the District applies all applicable Financial Accounting Standards Board (FASB) Statements and Interpretations issued after November 30, 1989, except those that conflict with or contradict GASB pronouncements to its business-type activities.

The statement of net position and statement of revenues, expenses and changes in net position display information about the District as a whole. These statements include all funds of the District. The statements distinguish between governmental and business-type activities. The District does not have any governmental activities.

The financial statements are prepared using the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Operating income reported by the District includes revenues and expenses related to the continuing operation of water service for its customers. Principal operating revenues are charges to customers for services. Principal operating expenses are the costs of providing the services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

**EAST LAUREL WATER DISTRICT
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED**

Years ended December 31, 2022 and 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash and Cash Equivalents

The District considers all highly liquid investments (including restricted cash and investments), with maturities of 90 days or less to be cash equivalents. This includes bank certificates of deposit and demand checking accounts.

Investments

The District is authorized by state statute to invest in: 1) obligations of the United States and of its agencies and instrumentalities; 2) bonds or certificates of indebtedness of this state and of its agencies and instrumentalities; 3) shares of any savings and loan insured by an agency of the government of the United States up to the amount so insured; 4) interest bearing deposits in nationally chartered or state banks chartered in Kentucky and insured by an agency of the government of the United States up to the amount so insured, and in larger amounts provided such bank shall pledge, as security, obligations of the United States government, its agencies and instrumentalities.

The District's investments include certificates of deposits with maturity dates of three months or more. Certificates of deposits in excess of FDIC insurance are collateralized by securities held by the pledging bank.

Accounts Receivable

Accounts receivable arise as services are rendered for which collections have not been realized and are carried net of a provision for doubtful accounts. The provision for doubtful accounts is estimated using a percentage of accounts more than 90 days past due. At December 31, 2022, and 2021, the provision for doubtful accounts was \$3,048 and \$3,048, respectively.

Unbilled Receivables

The District estimated unbilled revenues from water sales, on a pro rata basis, at the end of each fiscal year. The estimated amount is based on amounts billed during the month following the close of the fiscal year.

Prepaid Assets

Payments made that will benefit periods beyond the end of the fiscal year are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase, and an expenditure/expense is reported in the year in which services are consumed.

**EAST LAUREL WATER DISTRICT
NOTES TO THE FINANCIAL STATEMENTS - CONTINUED**

Years ended December 31, 2022 and 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Capital Assets

Capital assets include land, land improvements, buildings, furniture and office equipment, building improvements, machinery, and equipment that have a useful life of more than one reporting period based on the District's capitalization policy. The cost of additions to the utility plant and major replacements of retired property is capitalized, and the cost of repairs, maintenance, and minor replacements is recorded as expense. By District policy, capital assets are defined as assets with a cost of \$1,000 or more and an estimated useful life in excess of one year. Cost includes direct labor, outside services, materials and transportation employee fringe benefits, and overhead. Interest incurred during construction is capitalized.

The cost and accumulated depreciation of property sold or retired is deducted from capital assets, and any profit or loss resulting from disposal is credited or recorded in the non-operating section of the statements of revenues, expenses and changes in net assets. Depreciation has been provided over estimated useful lives of the assets using the straight-line method. The range of useful lives of assets is as follows:

<u>Assets Classification</u>	<u>Range of Lives</u>
Intangible	40 years
Transmission and distribution mains	50 years
Structures and improvements	40 years
Pumping and water treatment equipment	25 years
Meters, hydrants and services	35-40 years
Other equipment	5-10 years

Accounts Payable

Accounts payable represent expenses incurred in the current year to be paid in the subsequent year. Most of the District's accounts payable are to vendors or for the purchase of water.

Long-Term Debt

Long-term debt is reported as liabilities. Loan discount or premium is amortized over the term of the respective loans outstanding using the straight-line method. At December 31, 2022 the unamortized value of loan premium was \$6,827.

Other Deferred Costs

During 1994, East Laurel Water District transferred \$542,500 to Wood Creek Water District for a tap-on fee in accordance with the Water Purchase Contract which was revised on June 1, 1994. The fee is being amortized over a 50-year period as instructed by the Public Service Commission and is recorded by the District as other deferred costs. At December 31, 2022, the amortized value of other deferred costs was \$239,425.

Years ended December 31, 2022 and 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Customer Deposits

The District collects and holds in escrow a \$60 deposit from customers to insure collection of its water charges. Interest at an annual rate of 1% is paid on these deposits.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Net Position

Net position comprises the various net earnings from operating income, non-operating revenues and expenses, and capital contributions. Net position is classified in the following three components:

- Net Investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets and any unamortized debt cost or premium.

Restricted – This component of net position consists of constraints imposed by creditors (such as through debt covenants), grantors, contributors; or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – This component of net position consists of net position that do not meet the definition of “restricted” or “net investment in capital assets.”

NOTE 2 – RESTRICTED CASH

The District restricts all sinking fund deposits, funds required for other debt service, and funds related to specific projects or customer accounts. At December 31, 2022, and 2021, restricted cash amounted to \$121,997 and \$156,621, respectively. This includes restrictions for customer deposits of \$8,966 and \$10,394 and restrictions for debt service of \$113,031 and \$146,227, respectively.

NOTE 3 – INVESTMENTS – INTEREST RATE RISK

According to KRS 91A.060, the District is allowed to invest in obligations of the U.S. Treasury and U.S. agencies, repurchase agreements, obligations of the Commonwealth of Kentucky and its agencies, insured savings and loans, or interest-bearing deposits of insured national or state banks. The District classifies only certificates of deposit as investments and does not consider interest rate risk to be significant.

Years ended December 31, 2022 and 2021

NOTE 4 – CUSTODIAL CREDIT RISK - DEPOSITS

Custodial credit risk for deposits is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of December 31, 2022, and 2021, the District's bank balances were \$435,838 and \$718,854 respectively. In accordance with Kentucky Revised Statute (KRS) 91A.060, deposits are to be collateralized to the extent uninsured by FDIC. According to KRS 41.240(4), it shall either pledge or provide as collateral securities or other obligations having an aggregate current face value or current quoted market value at least equal to the deposits. The District's deposits were fully insured or collateralized with securities held by an agent of the District in the District's name at December 31, 2022, and 2021.

NOTE 5 – CUSTOMER AND OTHER ACCOUNTS RECEIVABLE

At December 31, 2022, customer and other accounts receivable are as follows:

Due from consumers for sale of water	\$	328,904
Allowance for doubtful accounts		<u>(3,048)</u>
	\$	325,856

The above accounts receivable does not include unbilled receivables of \$151,219.

NOTE 8 – SERVICES PROVIDED TO OTHER WATER DISTRICTS

East Laurel Water District has no employed personnel except for its board members. The District obtains all maintenance, construction (including materials), and office services through contractual agreements with Wood Creek Water District. Wood Creek Water District bills, at cost, East Laurel Water District for services and materials monthly. East Laurel Water District also purchases water for resale from Wood Creek Water District.

At December 31, 2022 and 2021, the District had accounts payable to Wood Creek Water District as follows:

	<u>2022</u>	<u>2021</u>
<u>Wood Creek Water District</u>		
Accounts Payable	\$ 306,308	\$ 256,265
Accounts Payable - Wastewater	114,814	183,652
	<u>\$ 421,122</u>	<u>\$ 439,917</u>

Amounts paid to Wood Creek Water District for purchased water and for materials and services provided to East Laurel Water District are as follows:

	<u>2022</u>	<u>2021</u>
<u>Wood Creek Water District</u>		
Purchased water	\$ 1,736,672	\$ 1,735,385
Materials, labor, and other	1,385,652	1,220,534
	<u>\$ 3,122,324</u>	<u>\$ 2,955,919</u>

NOTE 9 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. The insurance coverage is acquired through Wood Creek Water District which includes coverage for Wood Creek Water District, East Laurel Water District, and West Laurel Water Association, Incorporated. The District pays for and is entitled to its respective share of coverage. There have been no significant reductions in coverage for the year and settlements have not exceeded coverage in the past three years.

NOTES TO THE FINANCIAL STATEMENTS - CONTINUED**

Years ended December 31, 2022 and 2021

NOTE 10 – IMPACT OF COVID

In March 2020, the World Health Organization (“WHO”) declared the outbreak of a novel coronavirus (COVID-19) as a pandemic. This prompted many national, regional, and local governments to implement preventative or protective measures, such as travel and business restrictions, temporary store closures, and wide-sweeping quarantines and stay-at-home orders. As a result, COVID-19 and the related restrictive measures have had a significant adverse impact upon many sectors of the economy. We believe the ultimate financial impact of the COVID-19 pandemic on the District is likely to be determined by factors which are uncertain, unpredictable, and outside the control of the District. The situation surrounding COVID-19 remains fluid, and if disruptions do arise, they could materially adversely affect future revenues.

NOTE 11 – SUBSEQUENT EVENTS

Management of the District has evaluated events and transactions that occurred after the balance sheet date as potential subsequent events. Management performed this evaluation through April 30, 2023, the date on which the financial statements were available to be issued. No events have occurred after the date of the financial statements that would require adjustment to the financial statements.

**REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Commissioners
East Laurel Water District
London, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business type activities of East Laurel Water District, as of and for the years ended December 31, 2022, and 2021, and the related notes to the financial statements, which collectively comprise East Laurel Water District's basic financial statements, and have issued our report thereon dated May 30, 2023.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered East Laurel Water District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of East Laurel Water District's internal control. Accordingly, we do not express an opinion on the effectiveness of the East Laurel Water District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether East Laurel Water District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
