Independent Auditors' Report

To the Commissioners
Hyden-Leslie County Water District
Hyden, Kentucky

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of Hyden-Leslie County Water District (the District) as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of Hyden-Leslie County Water District, as of December 31, 2020, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

The financial statements of Hyden-Leslie County Water District as of December 31, 2019 were audited by other auditors whose report dated March 31, 2020 expressed an unmodified opinion on those statements.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2021 on our consideration of Hyden-Leslie County Water District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Hyden-Leslie County Water District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Hyden-Leslie County Water District's internal control over financial reporting and compliance.

Hyden-Leslie County Water District
Notes to Financial Statements
December 31, 2020 and 2019

Note 1 – Summary of Significant Accounting Policies

Reporting Entity

Hyden-Leslie County Water District, of Leslie County, Kentucky (“District”) was created in 1968 under Chapter 74 of the Kentucky Revised Statutes. The District is governed by a five-person board of Commissioners which is appointed by the Leslie County Fiscal Court. The District is regulated by the Kentucky Public Service Commission.

The District is a rural water utility system whose purpose is to establish, develop and operate a water supply and distribution system for its customers in Leslie County, Kentucky. The District’s primary source of revenue is from water sales to its customers, including public bodies and local businesses in its service area.

Basis of Accounting, Financial Presentation and Measurement Focus

The basic financial statements of the District have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) as applied to governmental units. The Governmental Accounting Standards Board (“GASB”) is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units.

The District applies all relevant Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, unless those pronouncements conflict or contradict GASB pronouncements, in which case, GASB prevails. In addition, the District applies all applicable FASB Statements and Interpretations issued after November 30, 1989, except those that conflict with or contradict GASB pronouncements.

The Statements of Net Position and Statements of Revenues, Expenses and Changes in Net Position display information about the District as a whole. These statements include all funds of the District.

The financial statements are prepared using the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Operating income reported by the District includes revenues and expenses related to the continuing operation of water service for its customers. Principal operating revenues are charges to customers for services. Principal operating expenses are the costs of providing the services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

Cash and Cash Equivalents

The District considers demand deposits and certificates of deposit with maturities of less than three months to be cash equivalents.

Investments

Investments include certificates of deposit with maturity dates of three months or more and a general government securities money market fund.

Hyden-Leslie County Water District
Notes to Financial Statements (Continued)
December 31, 2020 and 2019

Note 1 - Summary of Significant Accounting Policies (Continued)

Accounts Receivable

Receivables include amounts due from customers for water services. These receivables are due at the time the services are billed and are considered past due on the first day of the following month. Accounts receivable are presented net of uncollectible accounts. The allowance amount is estimated using a percentage of accounts past due more than 30 days. At December 31, 2020 and 2019, the allowance for doubtful accounts was \$5,000.

Unbilled Accounts Receivable

Estimated unbilled revenues from water sales are recognized at the end of each fiscal year on a pro rata basis. The estimated amount is based on billing during the month following the close of the fiscal year.

Inventories and Prepaid Expenses

Inventories consist of expendable supplies held for consumption stated on a first-in, first-out basis. They are reported at cost and are recorded as an expense at the time individual items are used. Prepaid expenses include payments to vendors that benefit future reporting periods and are reported on the consumption basis.

Capital Assets

The District's property, plant and equipment with useful lives of more than one year are stated at historical cost. The District has established a capitalization threshold of \$2,000. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations. During the year ended December 31, 2019, the District revised the estimated useful lives of their assets to comply with useful lives suggested by the Public Service Commission (PSC). This change in accounting estimate resulted in a reduced depreciation expense for the year and will be effective for future periods. Depreciation expense for the years ended December 31, 2020 and 2019 was \$787,998 and \$785,429, respectively.

Estimated useful lives for depreciable assets are as follows:

Asset Classification	Range of Lives
Structures and improvements	35-40 years
Transmission distribution mains	50-75 years
Plant equipment	10-60 years
Meters and services	30-50 years
Other equipment and vehicles	7-25 years

Compensated Absences

The District grants annual vacation of 80 hours to regular full-time employees. Time is accrued in January of each year. Employees may be paid out for a maximum of 80 hours each calendar year for unused earned vacation time at the employee's regular rate of pay. A maximum of 160 hours of unused vacation time may be rolled over to the next year. An employee who terminates employment in good standing will receive pay for unused vacation time earned at the time of termination. The District's accrued compensated absences as of December 31, 2020 and 2019 were \$14,253 and \$15,227, respectively.

Hyden-Leslie County Water District
Notes to Financial Statements (Continued)
December 31, 2020 and 2019

Note 1 - Summary of Significant Accounting Policies (Continued)

Customer Deposits

The District collects and holds in escrow a \$30 (increased to \$74 in November 2020) deposit from customers to ensure collection of its water charges. Interest at an annual rate of 1.66% is paid on these deposits.

Net Position

Net position is comprised of the various net earnings from operating income, non-operating revenues and expenses, and capital contributions. Net position is classified in the following three components:

Net investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

Restricted – This component of net position consists of restricted assets less liabilities and deferred inflows of resources related to those assets. Restricted assets are those with limits on their use that are externally imposed constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – This component of net position consists of net amounts of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of the net investment in capital assets or the restricted component of net position.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District would typically use restricted assets first, but reserves the right to selectively spend unrestricted assets first.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 – Restricted Assets

Under the terms of all loan resolutions, the District is required to maintain certain accounts and funds for the benefit and protection of the creditors. In addition, the District is also required to collect reasonable and sufficient rates and charges for services rendered, prohibited from selling, leasing or mortgaging any part of the system without prior approval, required to maintain the operating system in good condition and to carry adequate insurance on all properties to protect against loss or damage.

The resolutions require the District to establish a depreciation fund or reserve to be used to finance the cost of unusual repairs, renewals and replacements not included in the annual budget and to pay for future system extensions. The balance of these accounts at December 31, 2020 and 2019 was \$358,260 and \$318,577, respectively. The balance of customer deposits held at December 31, 2020 and 2019 was \$55,362 and \$51,807, respectively.

Hyden-Leslie County Water District
Notes to Financial Statements (Continued)
December 31, 2020 and 2019

Note 3 – Kentucky Revised Statute

At December 31, 2020 and 2019, \$1,063,090 and \$1,437,732, respectively, of the cash and certificates of deposit of the District was covered by federal depository insurance and securities pledged as collateral on behalf of the District. In accordance with Kentucky Revised Statute (KRS) 91A.060, the deposits are to be insured by the Federal Depository Insurance Corporation or collateralized to the extent uninsured by any obligations permitted by KRS 41.240(4). According to KRS 41.240(4), financial institutions shall either pledge or provide as collateral securities or other obligations having an aggregate current face value or current quoted market value at least equal to the deposits. According to KRS 66.480, the District is allowed to invest in obligations of the U.S. Treasury and U.S. agencies, repurchase agreements, obligations of the Commonwealth of Kentucky and its agencies, interest bearing deposits of insured savings and loans, or interest-bearing deposits of insured national or state banks. For additional cash descriptive information, see Note 1.

Note 4 – Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. As of December 31, 2020, and 2019, \$365,223 and \$282,376, respectively, of the District's total deposits at banks of \$1,063,090 and \$1,437,732 respectively, were exposed to custodial credit risk as follows:

	<u>2020</u>	<u>2019</u>
Uninsured and uncollateralized	\$ -	\$ -
Uninsured and collateral held by pledging bank	365,223	282,376
Uninsured and collateral held by pledging bank's trust department not in the District's name	-	-
Total	<u><u>\$ 365,223</u></u>	<u><u>\$ 282,376</u></u>

Note 5 – Investments

As of December 31, 2020, and 2019, the District had the following investments:

	<u>Rating</u>	<u>Fair Value</u>	
		<u>2020</u>	<u>2019</u>
General Government Securities Money Market Fund	Not Rated	\$ 127,743	\$ 187,202
Certificates of Deposit	Not Rated	323,208	724,248
Total		<u><u>\$ 450,951</u></u>	<u><u>\$ 911,450</u></u>

Interest Rate Risk – Investments. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value arising from increasing interest rates.

Concentration of Credit Risk – Investments. The District places no limit on the amount the District may invest in any one fund. At December 31, 2020 and 2019, all of the District's investments consisted of certificates of deposit and a money market fund.

Note 7 – Long-Term Debt

On February 1, 2016, the District entered into an assistance agreement with the Kentucky Rural Water Finance Corporation (KRWFC) to borrow funds with a fixed rate of 2.00%. The District entered into the agreement and used all loan proceeds to advance refund their outstanding Series 2013F loan with KRWFC. As a result, the Series 2013F bonds are considered defeased. The agreement matured February 1, 2018. The agreement was refinanced in 2018, 2019, 2020, and 2021 with a new maturity date of February 1, 2022. As of March 29, 2021 permanent financing has been obtained with Kentucky Infrastructure Authority. Upon payoff of the KRWFC bonds, capitalized interest of \$35,687.50 was refunded to the District and reduced the final payoff amount. This prepaid interest is included in prepaid expenses on the Statements of Net Position. Beginning June 1, 2021 principal and interest payments will be due semi-annually, with final payment due December 1, 2050. The interest rate will be 0.50%. The scheduled principal and interest payments on the permanent loan with KIA have been included on the following summary of long-term debt transactions for 2020 and the aggregate annual repayment schedule.

The following is a summary of long-term debt transactions for the year ended December 31, 2020:

	<u>Balance</u> <u>Dec. 31, 2019</u>	<u>Additions</u>	<u>Payments</u>	<u>Balance</u> <u>Dec. 31, 2020</u>	<u>Due Within</u> <u>One Year</u>

2046-2050	1,141,436	71,411	1,212,847
2055-2055	134,000	1,960	135,960
	<u>\$ 6,105,000</u>	<u>\$ 1,736,330</u>	<u>\$ 7,841,330</u>

Note 8 – Risk Management

The District is exposed to various risks of loss related to limited torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the District carries commercial insurance. There have been no significant reductions in coverage for the year and settlements have not exceeded coverage in the past three years.

Note 9 – Related Party Transactions

There is one business that the District uses as a vendor which is owned by a related party of the District. During the years ended December 31, 2020 and 2019, the District purchased materials and supplies from a hardware store, which is owned by a Commissioner's brother, in the amounts of \$695 and \$1,144, respectively.

Note 10 - Subsequent Events

The world-wide outbreak of COVID-19 has had a major impact on the normal business activities in the United States and the state of Kentucky. On March 16, 2020, the Public Service Commission (PSC) ordered all utility companies to temporarily suspend all disconnections for non-payment, as well as late payment fees, in order to provide relief for customers during the COVID-19 pandemic. Customers were not relieved of their obligation to pay for services, but payment plans were required to be established for customers with arrearages during the time period of March 16 through October 1, 2020. Although the moratorium on disconnections for non-payment was lifted, the moratorium on the assessment of late payment charges for residential customers was extended until December 31, 2020. The effect of the PSC orders has been reflected in this report. However, Kentucky is currently in the process of reopening the economy. The District has not determined the impact, if any, that this and future decisions may have on its net position, results of operations and cash flows.

Management of the District has evaluated subsequent events through March 31, 2021, the date on which the financial statements were available to be issued.

Independent Auditors' Report on Internal Control Over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards*

To the Commissioners
Hyden-Leslie County Water District
Hyden, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Hyden-Leslie County Water District as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise Hyden-Leslie County Water District's basic financial statements and have issued our report thereon dated March 31, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Hyden-Leslie County Water District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Hyden-Leslie County Water District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses that we consider to be material weaknesses (See items 2020-1 and 2020-2).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Hyden-Leslie County Water District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Hyden-Leslie County Water District's Response to Findings

Hyden-Leslie County Water District's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. Hyden-Leslie County Water District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Hyden-Leslie County Water District
Schedule of Findings and Responses
December 31, 2020

Findings – Financial Statements

2020-1

Criteria:

As discussed in *Standards for Internal Control in the Federal Government* published by the General Accounting Office of the United States, internal control is an integral component of an organization's management that provides reasonable assurance that an objective of reliable financial reporting is being achieved. Organizations should implement procedures to ensure this objective is achieved.

Condition:

During the audit procedures performed, instances of this objective not being completely achieved were noted.

Cause:

The District's limited internal resources prevent the preparation of financial statements and related note disclosures in accordance with generally accepted accounting principles.

Effect:

The District was unable to prepare their financial statements and related note disclosures in accordance with generally accepted accounting principles.

Views of responsible officials and planned corrective actions:

The District feels that it would not be cost beneficial to hire the personnel required to complete these tasks.

2020-2

Criteria:

As discussed in *Standards for Internal Control in the Federal Government* published by the General Accounting Office of the United States, internal control is an integral component of an organization's management that provides reasonable assurance that an objective of reliable financial reporting is being achieved. Organizations should implement procedures to ensure this objective is achieved.

Condition:

During the audit procedures performed, instances of this objective not being completely achieved were noted.

Cause:

The size of the District's office staff does not allow proper segregation of duties with regard to cash collections, billings and postings to the accounts receivable ledger.

Effect:

This condition creates a weakness in internal controls which could result in unauthorized transactions being processed.

Views of responsible officials and planned corrective actions:

The District feels that it would not be cost beneficial to hire the personnel required to complete these tasks.
