INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners Lyon County Water District Kuttawa, Kentucky

Opinions

We have audited the accompanying financial statements of the business-type activities of the Lyon County Water District as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective position of the business-type activities of the Lyon County Water District as of December 31, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Lyon County Water District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from an error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

• Exercise professional judgment and maintain professional skepticism throughout the audit.

• Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

• Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Lyon County Water District's internal control. Accordingly, no such opinion is expressed.

• Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

• Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Lyon County Water District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, schedule of pension contributions, schedule of other postemployment benefits contributions, schedule of proportionate share of net pension liability, and schedule of proportionate share of other postemployment benefits liability be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated July 25, 2022, on our consideration of the Lyon County Water District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

LYON COUNTY WATER DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS DECEMBER 31, 2021 (UNAUDITED)

The Lyon County Water District ("District") offers Management's Discussion and Analysis to provide an overview and analysis of the District's financial activities for the year ended December 31, 2021. To fully understand the entire scope of the District's financial activities, this information should be read in conjunction with the financial statement provided in this document.

FINANCIAL HIGHLIGHTS

- The District's total assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources as of December 31, 2021, by \$3,214,923 (Net Position).
- The District's total net position decreased by \$39,222 during the year compared to a \$207,121 decrease in the prior year.
- The District's operating revenues increased by \$48,367 over the prior year from \$1,265,460 to \$1,313,827.

OVERVIEW OF THE FINANCIAL STATEMENTS

Lyon County Water District's basic financial statements include a statement of net position, statement of revenues, expenses and changes in net position, statement of cash flows, and notes to the financial statements.

The District's financial statements are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB).

Statement of net position. The statement of net position presents the financial position of the District. It presents information on the District's assets, deferred outflows, liabilities, and deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. The statement of net position can be found on page 8 of this report.

Statement of revenues, expenses and changes in net position. The statement of revenues, expenses and changes in net position presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Revenues are recognized when they are earned, not when they are received. Expenses are recognized when incurred, not when they are paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods. The statement of revenues, expenses and changes in net position is on page 9 of this report.

Statement of cash flows. The statement of cash flows presents information on the effects changes in assets and liabilities have on cash during the course of the fiscal year and can be found on page 10 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the District's financial statements. The notes to the financial statements can be found on pages 11-30 of this report.

Required Supplementary Information. In addition to basic financial statements and accompanying notes, this report also presents certain required supplementary information which can be found on page 31-39.

OVERVIEW OF THE DISTRICT'S FINANCIAL POSITION AND RESULTS OF OPERATIONS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$3,214,923 as of December 31, 2021.

The District's overall financial position and operations for the past two years are summarized as follows:

Assets	2021	2020
Current and other assets Capital assets Restricted assets Total Assets	\$ 446,258 7,618,453 <u>292,042</u> 8,356,753	\$ 486,677 7,851,576 <u>285,904</u> 8,624,157
Deferred Outflows of Resources	97,806	157,393
Liabilities Other liabilities Current portion of long-term debt Long-term liabilities Total Liabilities	121,636 138,163 <u>4,723,426</u> <u>4,983,225</u>	127,751 178,425 <u>5,076,676</u> <u>5,382,852</u>
Deferred Inflows of Resources	256,411	144,553
Net Position Net investment in capital assets Restricted Unrestricted Total Net Position	3,140,917 310,392 (236,386) \$3,214,923	3,190,788 305,004 (241,647) \$_3,254,145

LYON COUNTY WATER DISTRICT'S NET POSITION

The District's investments in capital assets (e.g., land and construction in progress, buildings, plants and facilities, machinery and equipment, system studies and mapping and infrastructure), less any debt used to acquire those assets that is still outstanding is \$3,140,917. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets are reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position \$310,392 represents resources that are subject to external restriction on how they may be used. These resources are to be used for debt restrictions, capital projects, and customer deposits.

The District's unrestricted net assets as of December 31, 2021 is a deficit of \$236,386.

Analysis of the District's Operations – Overall the District had a decrease in net position of \$39,222.

The following table provides a summary of the District's operations for the year ended December 31, 2021 and 2020.

	2021	2020

During the year ended December 31, 2021, the District acquired assets totaling \$101,295.

Additional information on the District's capital assets can be found in Note 5 of this report.

Long-term and other debt

At the end of the current year, the Lyon County Water District had total debt of \$4,444,782. Long-term debt at December 31, 2021, was as follows:

	2021		 2020
Long-Term Debt			
KY Rural Water	\$	980,000	\$ 1,025,000
USDA Bond Series 2016		1,714,500	1,810,000
Kentucky Infrastructure Authority		1,704,886	1,791,311
Farmers Bank		45,397	 -
Total Long-Term Debt	\$	4,444,783	\$ 4,626,311

The District entered into a new loan agreement with Farmers Bank on December 15, 2021, for the purchase of a 2019 Dodge Ram 2500. The loan amount was for \$45,397 with an interest rate of 2.25% and is payable in full on December 15, 2023.

Interest expense of \$101,226 was incurred during the year ended December 31, 2021.

Additional information on the District's long-term debt can be found in Notes 6 and 7 of this report.

REQUEST FOR INFORMATION

This financial report is designated to provide a general overview of the Lyon County Water District's finances for all those with an interest in the government's finances. Questions or requests for additional information may be addressed to Don Robertson, Chairman, Lyon County Water District, 5464 US 62 W, Kuttawa, Kentucky 42055.

1. <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> <u>Organization</u>

The Lyon County Water District, (the District), is a county water district supported by funds derived from the sale of water and is operated by a District Board. The District is authorized under Kentucky Revised Statutes and constitutes a governmental subdivision of the Commonwealth of Kentucky. The District is located in Kuttawa, Kentucky and primarily serves the Lyon County, Kentucky area.

The accounting and reporting policies of the District relating to the accompanying basic financial statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB), the American Institute of Certified Public Accountants in the publication entitled Audits of State and Local Governmental Units and by the Financial Accounting Standards board (when applicable). The District follows GASB pronouncements as codified under GASB 62. The more significant accounting policies of the District are described below:

Principles Determining Scope of Reporting Entity

The District's financial report includes only the funds of the District. The District has no oversight responsibility for any other governmental entity and is not included in any other governmental "reporting entity" as defined by the Governmental Accounting Standards Board pronouncement. The District's Board members are appointed by the County Judge Executive, a publicly elected official, and they have decision making authority, the authority to set rates, the power to designate management, the ability to significantly influence operations, and primary accountability for fiscal matters.

Basis of Presentation

The accounts of the District are organized in accordance with the uniform system of accounts adopted by the Public Service Commission of Kentucky. Those accounts are organized on the basis of a proprietary fund type, specifically an enterprise fund. The operations of each fund are summarized by providing a separate set of self balancing accounts which include its assets, liabilities, net position, revenues and expenses. The following funds are used by the District:

Proprietary Fund Types

Proprietary funds are accounted for using the economic resources measurement focus and the accrual basis of accounting. The accounting objectives are determinations of net income, financial position, and cash flow. All assets and liabilities are included on the Statement of Net Position.

Measurement Focus/Basis of Accounting

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied. The accounting and financial statements for a proprietary fund are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets and all liabilities (whether current or non-current) are included on the statement of net position, and the operating statements present increases (revenues) and decreases (expenses) in net total assets. Under the accrual basis of accounting, revenues are recognized when earned, including unbilled water services which are accrued. Expenses are recognized at the time the liability is incurred.

Reclassifications

Prior period financial statement amounts have been reclassified to conform to current period presentation. Operating income and net earnings for the prior period were not impacted by the reclassifications.

Sales of Water

Charges to customers for the sale of water are based on rates approved by the Kentucky Public Service Commission (PSC).

Budget

The District is required to follow budgetary guidelines established by the Public Service Commission and the Department of Rural Development. Those guidelines require:

- 1) The District to submit a proposed budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them for the upcoming year.
- 2) The District is required to submit a budget to the Department of Rural Development for each fiscal year as stipulated in the bond agreement.

For the year ended December 31, 2021, the District has complied with budgetary guidelines.

Cash Equivalents/ Investments

Cash and cash equivalents are deposited with Branch Banking and Trust Company and Regions Bank. District ordinances authorize the District to invest in obligations of the U.S. Government and its instrumentalities, mutual funds, repurchase agreements, and demand deposits. All investments must be purchased through brokers/dealers or deposited with local financial institutions.

For the purpose of the statement of cash flows, the District considers all cash in banks and certificates of deposit with stated maturities of three months or less or available for withdrawal by management to be cash and cash equivalents. Cash equivalents consist of funds held in a sweep account in a financial institution.

Accounts Receivable

The direct write-off method was used for recording uncollectible accounts. No allowance for uncollectible accounts was deemed to be needed. The District grants credit to customers, substantially all of whom are residents of Lyon County. Due to the large amount of small account balances, the District does not feel these are at risk for loss due to credit concentrations.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2021 are recorded as prepaid items.

Capital Assets

Capital assets are stated at original cost as defined for regulatory purposes. The costs of additions to capital assets and replacement of retirement units are capitalized. Replacement of minor items of property is charged to expense as incurred. Depreciation is computed using the straight-line method. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in income for the period. The cost of maintenance and repairs is charged to income as incurred; significant betterments are capitalized.

Contributions from customers for the purpose of purchasing service connections to the utility plant are recorded as income when they are received. Depreciation on contributed assets is recorded as an expense in the statement of revenue and expense. Capital assets are depreciated over the following useful lives:

Buildings	20 to 40 years
Equipment	5 to 10 years
Water and Sewer Lines	25 to 40 years

Unearned Revenue

The District recognizes certain revenue transactions as unearned revenue. Revenue cannot be recognized until it has been earned and is available to finance expenditures of the current fiscal period. Revenue that is earned but not available is reported as a current liability or deferred inflow of resources until such time as the revenue becomes available.

Inventory

Inventories are generally used for repair and replacement of infrastructure and connection of new services and are stated at average cost.

Restricted Assets

The restricted assets have been handled in accordance with the provisions of the various enterprise fund revenue bond resolutions, loan resolutions, loan agreements, or by state or federal laws and regulations. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as needed. See Note 4 for information describing restricted assets.

Estimates

The preparation of the District's financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

<u>Risk Management</u>

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disaster. During the year ended December 31, 2021, the District contracted with commercial insurance carriers for coverage of all risks mentioned above. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years. There were no significant reductions in coverage during the past three years.

Pensions and Other Postemployment Benefits

For purposes of measuring the net pension and OPEB liabilities, deferred outflows of resources, and deferred inflows of resources related to pensions, pension expense, and other OPEB information about the fiduciary net position of the County Employees Retirement System in the Kentucky Public Pensions Authority (KPPA) and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the KRS. For this purpose, benefits (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms of the County Employees Retirement System. Investments are reported at fair value.

Net Position

In the financial statements, equity is classified as net position and displayed in three components.

- Net investment in capital assets Capital assets, net of accumulated depreciation and reduced by the outstanding balance of any borrowings that are attributable to the acquisition, construction, or improvement of those assets net of unspent financing proceeds.
- **Restricted net position** Net position with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, laws, or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- Unrestricted net position All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents the consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two items that qualify for reporting in the category, deferred charges - pension, and deferred charges - other post-employment benefits (OPEB).

A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. A deferred pension contribution results from pension contributions subsequent to the measurement date of the pension plan. This amount is deferred and recognized as a component of the change in pension plan liability in the next measurement period. Pension related deferred components include difference between expected and actual experience; the difference between projected and actuarial earnings on pension plan investments results from actual investment earnings above or below actuarial projected earnings; changes in assumptions; and changes in proportion and differences between employer contributions and proportionate share of contributions. These pension related items are deferred and amortized over 3-5 years as a component of the pension expense.

The deferred related pension and OPEB outflows results from pension and OPEB contributions subsequent to the measurement date of the pension plan and OPEB and various changes resulting from actuarial pension and OPEB measurements. The pension and OPEB contribution amounts are deferred and recognized as a component of the change in pension and OPEB plan liabilities in the next measurement period. The various changes resulting from actuarial pension and OPEB measurements are deferred and amortized in future periods as a component of the pension and OPEB measurements are deferred and amortized in future periods as a component of the pension and OPEB measurements are deferred and amortized in future periods as a component of the pension and OPEB measurements.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time. The District has two types of items reported in this category, inflows related to the District's pension and OPEB plans that qualify for reporting in this category - deferred pension and OPEB related inflows. The various changes resulting from actuarial pension and OPEB measurements are deferred and amortized in future periods as a component of the pension and OPEB expense.

Recent Accounting Pronouncements

As of December 31, 2021, the GASB has issued the following statements not yet required to be adopted by the District.

GASB Statement No. 95

GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*, was issued May 2020. The primary objective of this Statement is to provide temporary relief to governments and other stakeholders in light of the COVID-19 pandemic. That objective is accomplished by postponing the effective dates of certain provisions in Statements and Implementation Guides that first became effective or are scheduled to become effective for periods beginning after June 15, 2018, and later. The following statement information has been updated to reflect the new effective dates.

GASB Statement No. 87

GASB Statement No. 87, *Leases*, was issued in June 2017. The provisions of this Statement are effective for periods beginning after June 15, 2021. This Statement will increase the usefulness of governments' financial statements by required reporting of certain lease liabilities that currently are not required. It will enhance comparability of financial statements among governments by requiring lessees and lessors to report leases under a single method. This Statement also will enhance the decision-usefulness of the information provided to financial statement users by requiring notes to financial statements related to the timing, significance, and purpose of a government's leasing arrangements. The District's management has not yet determined the effect this statement will have on the financial statements.

GASB Statement No. 91

GASB Statement No. 91, *Conduit Debt Obligations*, was issued May 2019. The requirements of this Statement are effective for periods beginning after December 15, 2021. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards of accounting and financial reporting of additional commitments and voluntary commitments extended by issuers. The District's management has not yet determined the effect this Statement will have on the financial statements.

GASB Statement No. 92

GASB Statement No. 92, *Omnibus 2020*, was issued in January 2020. The requirements of this Statement are effective for periods beginning after June 15, 2021. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. The District's management has not yet determined the effect this statement will have on the financial statements.

GASB Statement No. 93

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, was issued March 2020. The requirements of this Statement are effective for periods beginning after June 15, 2021. The objective of this Statement is to address accounting and financial reporting implications that result from the replacement of an IBOR (interbank offered rate). The District's management has not yet determined the effect this statement will have on the financial statements.

Subsequent Events

The District has evaluated subsequent events through July 25, 2022, the date which the financial statements were available to be issued.

2. <u>LEGAL COMPLIANCE</u>

Deficit Net Position

There was not a deficit net position for the year ended December 31, 2021.

3. <u>DEPOSITS AND INVESTMENTS</u>

A. <u>Net Position</u>

The captions on the statement of net position for cash, investments, and restricted assets enumerated as to deposits and investments and the amounts in total are as follows:

	Deposits		Investments		Total	
Cash equivalents	\$	194,956	\$	-	\$	194,956
Restricted assets						
Cash equivalents		292,042		-		292,042
Total	\$	486,998	\$	-	\$	486,998

B. **Deposits**

At year-end, the carrying amount of the District's deposits in financial institutions were \$486,998, and the bank balances were \$491,389. Of the bank balances, \$491,389 was covered by federal depository insurance.

C. Investments

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The custodial credit risk for investments is the risk that a government will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party if the counterparty to the transaction fails.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District does not place any limit on the amount that may be invested with one issuer.

4. <u>RESTRICTED NET POSITION</u> <u>Net Assets Restricted for Debt Retirement</u>

	Depreciation Fund	Sinking Funds	KIA Loan Repayment	Total
Cash equivalents	\$ <u>163,910</u>	\$ <u>123,335</u>	\$ <u>4,797</u>	\$

Revenue Fund: All income and revenues derived from the operation of the system shall be deposited promptly and as received to the Lyon County Water Revenue Fund. The monies deposited into the Revenue Fund shall be expended only in the manner and order as follows:

- 1. Regions Sinking Fund
- 2. Depreciation Reserve Fund
- 3. Operation and Maintenance Fund

Regions Sinking Fund: The District holds cash deposits in the amount of \$72,140 in the Regions Trust Cash Sweep III (RTCS). RTCS is a bank deposit account offered through Regions Institutional Services. The RTCS does not directly invest in securities. It is a deposit account that is collateralized by government securities. Collateral may include:

- Interest bearing obligations of the U.S. Government
- Senior debt obligations of any U.S. Government Agency,
- And/or municipal securities with an underlying rating of A or better.

RTCS is FDIC Insured up to \$250,000. Deposit account amounts in excess of \$250,000 are secured by perfected liens on Regions Bank's securities in an amount not less than 105% of the total excess deposits. In the event of a default, the collateral reverts to the Collateral Agent to be distributed to the account owners. RTCS deposits are identified as "cash" on client statements; there are no market value fluctuations. The sinking fund was established for the purpose of paying the principal and interest on the Kentucky Rural Water Finance Corporation Public Projects Revenue Bonds Series 2013 C. The ordinance requires that the amount deposited each month equals one-sixth of the next succeeding interest requirement of the next succeeding interest due date and one-twelfth of the principal requirements becoming due on the note on the next succeeding January 1. A separate sinking fund is to be established for the purpose of paying the principal and interest on the Waterworks Revenue Bonds Series 2016. The District is required to deposit \$845 per month until the account reaches \$101,400. The deposits are to be resumed any time the account falls below \$101,400.

Depreciation Reserve: The ordinances requires Lyon County Water District to make monthly contributions to this fund after observing the priority of deposits into the KIA Loan Fund and the Sinking Fund. The funds in the Depreciation Fund can be expended for the purpose of paying the cost of unusual or extraordinary maintenance, repairs, renewals, or replacements, and the cost of constructing additions, and improvements to the system. The District is to make \$510 monthly deposits until a required minimum balance of \$61,200 is met. The District is to make \$295 monthly deposits over the life of the loan. At December 31, 2020, the balance of the Depreciation Reserve Fund was \$163,910.

Operations and Maintenance Fund: Transfers shall be made monthly from the Revenue Fund to the Operations and Maintenance Fund so that the various operation and maintenance expenses of such system are met and a two (2) month operating reserve established and maintained. Any funds remaining in Operation and Maintenance Fund after meeting the expenses of operating such system shall be transferred to the Revenue Fund and disbursed in accordance with the above provisions until such time as the Sinking Fund and Depreciation Fund are current and the required balances established; and then excess funds may be invested in direct obligations of or obligations which are fully guaranteed by the United States Government with such maturities so that moneys shall be available in the respective Funds for the purposes for which same are established.

The new Waterworks Revenue Bonds 2016 require the District to fund an account for short-lived assets by depositing a sum of \$750 monthly into the account. The funds in the short-lived asset account may be used by the District as needed to replace or add short-lived assets in the District's water system. This short-lived assets reserve amount replaces any previous short-lived assets requirements previously set with any prior RUS loan.

5. <u>CAPITAL ASSETS</u>

A summary of proprietary fund property, plant, and equipment at December 31, 2021 for business-type activities follows:

Business-type activities	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets, not being depreciated				
Land	\$ 121,772 \$	5 -	\$ -	\$ 121,772
Construction in progress	43,477	-	-	43,477
Total capital assets, not being depreciated	165,249			165,249
Capital assets, being depreciated				
Distribution lines	11,328,132	34,817	-	11,362,949
Sewer lines	867,725	-	-	867,725
Water tanks	422,707	-	-	422,707

Building	73,976	-	-	73,976
Transportation	87,129	55,000	-	142,129
Improvement	34,000		-	34,000
Total capital assets, being depreciated	13,109,439	101,295		13,210,734
Less accumulated depreciation for				
Distribution lines	(4,463,725)	(262,007)	-	(4,725,732)
Sewer lines	(228,203)	(21,693)	-	(249,896)
Water tanks	(389,822)	(10,288)	-	(400,110)
Machinery and equipment	(190,041)	(34,262)	-	(224,303)
Building	(46,625)	(1,851)	-	(48,476)
Transportation	(87,129)	(917)	-	(88,046)
Improvement	(17,567)	(3,400)	_	(20,967)
Total accumulated depreciation	(5,423,112)	(334,418)		(5,757,530)
Total capital assets, being depreciated, net	7,686,327	(233,123)		7,453,204
Business-type activities capital assets, net	\$ <u>7,851,576</u>	§ (233,123)	\$ <u> </u>	\$ <u>7,618,453</u>

Depreciation charged to income was \$334,418.

6. <u>DEBT OBLIGATIONS</u>

Revenue Bonds Payable

Description	Interest Rate	Maturity Date	Balance 12/31/2021	Due in One Year
Waterworks Revenue Bonds				
Regions - Series 2013 C	3.5%	2040	\$ 980,000	\$ 50,000
Kentucky Infrastructure Authority	1.875%	2046	1,704,886	88,163
USDA - Series 2016	2.0%	2046	1,714,500	
Total			\$ <u>4,399,386</u>	\$ 138,163

Principal and interest requirements of the revenue bonds payable as of December 31, 2021 are:

Year Ending December 31,	Principal	Premium Amortization	Total	Interest & Fees
2022	\$ 138,163	\$ 1,724	\$ 73,419	\$ 73,419
2023	189,936	1,724	100,829	100,829
2024	193,243	1,724	95,443	95,443
2025	201,587	1,724	90,007	90,007
2026	204,968	1,724	84,861	84,861
2027-2031	1,119,908	8,619	344,837	344,837
2032-2036	1,219,942	8,619	195,821	195,821
2037-2041	669,639	1,724	73,988	73,988
2042-2046	462,000		21,675	21,676
Total	\$ <u>4,399,386</u>	\$ 27,582	\$ <u>1,080,880</u>	\$ <u>1,080,881</u>

<u>Series 2013 C</u>

In an ordinance of the Board of Commissioners, adopted on October 3, 1995, the District authorized and thereafter issued its \$996,000 "Water Revenue Bonds, Series 1995" for the purpose of providing funds for the installation of major extensions and additions to the system. All bonds of this issue maturing on or after January 1, 1999, shall be subject to redemption or prepayment at the option of the District prior to maturity in whole, or from time to time, in part, in the inverse order at par plus accrued interest provided that Rural Economic Development is holder of the bonds.

In an ordinance of the Board of Commissioners, adopted on September 13, 2002, the District authorized and thereafter issued its \$594,000 "Water Revenue Bonds, Series 2002" for the purpose of providing funds for the installation of major extensions and additions to the system. All bonds of this issue maturing on or after January 1, 1999, shall be subject to redemption or prepayment at the option of the District prior to maturity in whole, or from time to time, in part, in the inverse order at par plus accrued interest provided that Rural Economic Development is holder of the bonds.

Both bonds were refinanced for \$1,305,000 under Kentucky Rural Water Finance Corporation Public Projects Refunding and Improvement Revenue Bonds Series 2013 C as of March 27, 2013.

The Series 2013 C bond, referred to above, mature as to principal in installments on January 1, in each of the years and shall bear interest from their issue dates until payment of principal. Interest is payable semiannually on June 1 and January 1, of each year as established by the ordinance.

All the Revenue Bonds are payable solely from, and secured by, a first pledge of the water revenues. So long as any of the bonds are outstanding and unpaid, the District shall continuously be maintained and operated in good condition. Rates and charges for services rendered will be imposed and collected so that gross revenues will be sufficient at all times, to provide for the payment of the operation and maintenance of the water plant, and to maintain the Depreciation and Sinking Funds described in Note 4.

If there is any default in the payment of the principal or interest on any of the outstanding bonds and suit is filed by a holder of said bond the court-having jurisdiction may appoint a receiver to administer the District with the power to charge and collect rates. These collected rates shall be sufficient to provide for the payment of the outstanding bonds and the operating and maintenance expenses. The income and revenues shall be in conformity with the bond resolution and the provisions of the applicable laws of Kentucky.

The bond covenants require that the rates for all utility services rendered by the District must be reasonable. The District must maintain adequate public liability insurance including fire, windstorm, fidelity bonds, and the hazards covered by a standard extended coverage policy. The bond covenant also requires an audit of the books of record and account pertinent to the system of the District within 60 days of year-end.

Series 2016

On December 31, 2016, the District issued \$1,900,000 Waterworks Revenue Bonds, Series 2016, for the purpose of extensions, additions, and improvements to the existing waterworks system. The bonds have an interest rate of 1.875% and will mature on January 1, 2046. The bond issue calls for semiannual interest payments and annual principal payments. The bonds require the District to establish an additional sinking fund to pay the principal and interest on the bonds.

Kentucky Infrastructure Authority

The District entered into an agreement with Kentucky Infrastructure Authority to finance a system upgrade totaling \$2,000,000. The bonds have an interest rate of 2.0% and will mature on June 1, 2038. The bond issue calls for semiannual interest payments and annual principal payments. The bonds require the District to establish a replacement reserve account. The annual replacement cost is \$5,000 and should be added to the replacement account each December 1 until the balance reaches \$50,000 and maintained for the life of the loan.

Note Payable

The District entered into a new loan agreement with Farmers Bank on December 15, 2021, to purchase a Dodge truck. The amount financed was \$45,397 with an interest rate of 2.25%. The loan payments will be interest only with one principal payment due on December 15, 2023.

Changes in Business-Type Activities Debt

A summary of changes in the business-type activities debt for the year ended December 31, 2021 follows:

	Balance	Debt	Principal	Balance	Due Within
	12/31/2020	Proceeds	Payments	12/31/2021	One Year
Business-Type Activities					
Note Payable - Farmers Bank	\$ -	\$ 45,397	\$ -	\$ 45,397	\$
Revenue Bonds Payable	<u>4,626,311</u>	<u>-</u>	<u>226,925</u>	<u>4,399,386</u>	
Total Business-Type Activities	\$ <u>4,626,311</u>	\$ 45,397	\$ <u>226,925</u>	\$ <u>4,444,783</u>	

Interest expense for the year was \$101,226.

7. <u>EMPLOYEES' RETIREMENT PLAN</u>

County Employees' Retirement System

Plan description. The District is a participant in the Commonwealth of Kentucky's County Employees' Retirement System (CERS), a cost-sharing multiple-employer defined benefit pension plan administered by the Kentucky Public Pensions Authority (KPPA). The CERS pension plan has two categories: Hazardous for sworn police and fire employees and Nonhazardous for general employees. The KPPA is the successor to Kentucky Retirement Systems and was created by state statute under Kentucky Revised Statute ("KRS") Sections 61.645, as amended by House Bill 484 and House Bill 9 of the 2020 and 2021 regular sessions, respectively, of the Kentucky General Assembly. These amendments transferred governance of the CERS to a separate nine member board of trustees. The CERS Board of Trustees is responsible for the proper operation and administration of the CERS. The KPPA issues a publicly available annual comprehensive financial containing CERS information that can be obtained from https://kyret.ky.gov.

Benefits provided. CERS provides retirement, health insurance, and death and disability benefits to plan employees and beneficiaries. Employees are vested in the plan after five years service. For retirement purposes, nonhazardous employees are grouped into three tiers, based on hire date.

Nonhazardous members

Tier 1	Participation date Unreduced retirement	Prior to September 1, 2008 27 years of service or 65 years old Minimum 5 years of service and 55 years old
	Reduced retirement	Minimum 25 years of service and any age
Tier 2	Participation date Unreduced retirement	September 1, 2008 and December 31, 2013 Minimum 5 years of service and 65 years old Age of 57 or older and sum of service years plus age equal 87
	Reduced retirement	Minimum 10 years of service and 60 years old
Tier 3	Participation date Unreduced retirement	After December 31, 2013 Minimum 5 years of service and 65 years old Age of 57 or older and sum of service years plus age equal 87
	Reduced retirement	Not available

Plan Funding. State statute requires active members to contribute a percentage of creditable compensation based on the tier:

	Required Contributions
Tier 1	5%
Tier 2	5% plus 1% for insurance
Tier 3	5% plus 1% for insurance

Employers are required by state statute (KRS 78.545(33)) to contribute the remaining amounts necessary to pay benefits when due. These contribution rates are determined by the Board of Trustees annually based upon actuarial valuations. For the year ended December 31, 2021, the employer contribution rate was 19.30% for the period January 1, 2021 to June 30, 2021; and 21.17% for the period July 1, 2021 to December 31, 2021, respectively of members' nonhazardous salaries. The employer contribution when combined with employee contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The contribution requirements and the amounts

contributed to CERS for the year ending December 31, 2021, were \$31,491. Of this amount, \$25,024 is considered contributed to the pension requirement and \$6,467 is considered contributed to the health insurance requirement.

Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions. At December 31, 2021, the District reported a liability of \$317,323 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021. House Bill 8 passed during the 2021 legislative session changed how employer contributions are allocated and collected form the participating employers in the KERS Nonhazardous plan. Therefore, the calculation of the proportionate share of the Collective Pension Amounts for employers that participate in the KERS Nonhazardous pension plan has been updated since June 30, 2020. The proportionate share of the Collective Pension Amounts for employers that participate in KERS Nonhazardous plan is based upon their allocation of the amortization cost, as specified under the revised statutes. It is further based upon their allocation of the normal cost portion of the required contribution, as allocated by actual salary for fiscal year ending June 30, 2021. The final proportionate share calculation, which represents an employer's share of the long-term contribution effort assumes the amortization cost is approximately 90% of the aggregate required contribution for the fund. Employer contributions are accrued when earned and the employer has made a formal commitment to provide the contributions. At June 30, 2021, the District's proportion was .004977%.

Pension expense. As a result of its requirement to contribute to CERS, the District recognized a negative pension expense of (\$9,318) for the year ended December 31, 2021. At December 31, 2021, the District reported deferred outflows of resources and deferred inflows of resources from the following sources as a result of its requirements to contribute to CERS:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Net differences between expected and actual experience	\$	3,644	\$	3,080
Net differences between projected and actual investment				
earnings		12,310		54,604
Change of assumption		4,259		-
Changes in proportion and differences between				
employer contributions and share of contributions		5,402		83,151
Contributions subsequent to the measurement date		13,354		-
Totals	\$	38,969	\$	140,835

Deferred Outflows of Resources. The \$13,354 reported as deferred outflows of resources related to pensions resulting from the District's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending	Amortization/ (Accretion)	
December 31, 2022	\$	(49,670)
December 31, 2023		(40,865)
December 31, 2024		(11,440)
December 31, 2025		(13,245)
Total	\$	(115,220)

Actuarial assumptions. The total pension liability, net pension liability, and sensitivity information as of June 30, 2021 were based on an actuarial valuation date of June 30, 2020. The total pension liability was rolled forward from the valuation date (June 30, 2020) to the plan's fiscal year ending June 30, 2021, using generally accepted actuarial principles.

The actuarial assumptions used in the June 30, 2021 valuation was based on the results of an actuarial experience study for the period July 1, 2013 - June 30, 2018.

There have been no actuarial assumption or method changes since June 30, 2020. Senate Bill 169 passed during the 2021 legislative session increased the disability benefits for certain qualifying members who become "totally and permanently disabled" in the line of duty or as a result of a duty-related disability. The total pension liability as of June 30, 2021, is determined using these updated benefit provisions.

House Bill 8 passed during the 2021 legislative session changed how employer contributions are allocated and collected from the participating employer in the KERS Nonhazardous plan. This change does not impact the calculation of the total pension liability but does impact the allocation of required contributions amongst the participating employers. As a result of this legislation, there are several employers that will experience a relatively large change in proportionate share of the Collective Pension Amounts in the KERS Nonhazardous pension plan from 2020 to 2021.

House Bill 1 passed during the 2019 legislative session and allowed certain agencies in the KERS Nonhazardous plan to elect to cease participating in the fund as of June 30, 2020, under different provisions than were previously established. Senate Bill 249 passed during the 2020 legislative session delayed the effective date of cessation for these provisions to June 30, 2021. Only one employer elected to cease participation under these provisions and freeze benefit accruals for their employees. As such, there is no material impact on the total pension liability due to this legislation. There were no other material plan provision changes.

Senate Bill 249 passed during the 2020 Legislative Session changed the funding period for the amortization of the unfunded liability to 30 years as of June 30, 2019. Gains and losses incurring in future years will be amortized over separate 20 year amortization bases. This change does not impact the calculation of total pension liability and only impacts the calculation of the contribution rates that would be payable starting July 1, 2020.

The actuarial assumptions are:

Inflation	2.30%
Payroll growth rate	2.00% for CERS Nonhazardous
Salary increases	3.30% to 10.30%, varies by service
Investment rate of return	6.25%

The mortality table used for active members was Pub-2010 General Mortality Table, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010. The mortality table used for non-disabled retired members was a system-specific mortality table based on mortality experience from 2013-2018, projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2019. The mortality table used for the disabled members was Pub-2010 Disabled Mortality table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2019.

The long-term expected rate of return on plan assets is reviewed as part of the regular experience studies prepared every five years. The long-term(10-year) expected rates of return were determined by using a building block method in which best estimated ranges of expected future real rates of returns are developed for each asset class. The ranges were combined by weighting the expected future real rate of return by the target asset allocation percentage. The target allocation and best estimates of arithmetic real rate of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Nominal Rate of Return
Growth	<u>68.50%</u>	
US Equity	21.75%	5.70%
Non US Equity	21.75%	6.35%
Private Equity	10.00%	9.70%
Specialty Credit/High Yield	15.00%	2.80%
Liquidity	11.50%	
Core Bonds	10.00%	0.00%
Cash	1.50%	(0.60)%
Diversifying Strategies	20.00%	
Real Estate	10.00%	5.40%
Opportunistic	0.00%	N/A
Real Return	10.00%	4.55%
Total	100.00%	-
Expected real return		5.00%
Long-term inflation assumption		2.30%

Discount Rate. The single discount rate used to measure the total pension liability for the fiscal plan year ending June 30, 2021, was 6.25% for nonhazardous and hazardous employees. The projection of cash flows used to determine the single discount rate for each plan must include an assumption regarding actual employer contributions made each future year. Except where noted

below, future contributions are projected assuming that each participating employer in each pension plan contributes the actuarially determined employer contribution each future year calculated in accordance with the current funding policy, as most recently revised by House Bill 8, passed during the 2021 legislative session. The assumed future employee contributions reflect the provisions of House Bill 362 (passed during the 2018 legislative session) which limit the increases to the employer contribution rates to 12% over the prior fiscal year through June 30, 2028. The discount rate determination does not use a municipal bond rate.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.25%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.25%) or 1-percentage-point higher (7.25%) than the current rate:

	1%	Current	1%
	Decrease	Discount	Increase
	5.25%	Rate 6.25%	7.25%
The District's proportionate share of			
the net pension liability	\$ 406,982	\$ 317,323	\$ 243,132

Payables to the pension plan. At December 31, 2021, the financial statements include \$3,116 in contractually required employee pension contributions primarily for the month ended December 31, 2021. The obligation was paid within prescribed time limits.

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the separately issued annual comprehensive financial report issued by the Kentucky Public Pensions Authority and can be found at https://kyret.ky.gov.

Other Postemployment Benefit Plan (OPEB)

CERS Medical Insurance Plan

Plan description. The District is a participant in the Commonwealth of Kentucky's County Employees' Retirement System (CERS), a cost-sharing multiple-employer defined benefit postemployment benefit plan (OPEB) administered by the Kentucky Public Pensions Authority (KPPA). The KPPA is the successor to Kentucky Retirement Systems and was created by state statute under Kentucky Revised Statute ("KRS") Sections 61.645, as amended by House Bill 484 and House Bill 9 of the 2020 and 2021 regular sessions, respectively, of the Kentucky General Assembly. These amendments transferred governance of the CERS to a separate nine member board of trustees. The CERS Board of Trustees is responsible for the proper operation and administration of the CERS. The KPPA issues a publicly available annual comprehensive financial containing CERS information that can be obtained from https://kyret.ky.gov.

Benefits provided. The CERS Nonhazardous Insurance Fund is a cost-sharing multiple-employer defined benefit OPEB plan that covers substantially all regular full-time members employed in positions of each participating county, city, and school board, and any additional eligible local agencies electing to participate in the System. The plan provides for health insurance benefits to plan members. OPEB may be extended to beneficiaries of plan members under certain circumstances.

Contributions. Per Kentucky Revised Statutes 78.545 (33), contribution requirements are established and may be amended by the KPPA Board. The District's required contribution rate for non-hazardous employees was 4.76% for the period January 1, 2021 to June 30, 2021; and 5.78% for the period July 1, 2021 to December 31, 2021.

Employees hired after September 1, 2008, are required to contribute an additional 1% of their covered payroll to the insurance fund. Contributions are deposited to an account created for the payment of health insurance benefits under 26 USC Section 401(h). These members are classified in the Tier 2/Tier 3 structure of benefits and the 1% contribution to 401(h) account is non-refundable.

OPEB Liabilities, Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources. At December 31, 2021, the District reported a net OPEB liability of \$95,244 for its proportionate share of the CERS net OPEB liability. The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2020, rolled forward to June 30, 2021. At June 30, 2021, the District's proportion was .004975% for nonhazardous classified employees.

For the year ended December 31, 2021, the District recognized OPEB expense of \$4,489. At December 31, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Net difference between projected & actual earnings on pension plan investments	\$	14,977	\$	28,437
Changes of assumptions		25,251		89
Net difference between projected and actual earnings on plan investments		4,799		19,698
Changes in proportion and differences between employer contributions and proportionate share of contributions		7,217		34,599
Contributions subsequent to the measurement date, including implicit subsidy		6,593		-
Totals	\$	58,837	\$	82,823

The \$6,593 of deferred outflows of resources resulting from the District's contributions subsequent to the measurement date and the December 31, 2021 implicit subsidy will be recognized as a reduction of the net OPEB liability in the year ending December 31, 2022.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30,	Amortization/ (Accretion)		
2022	\$	(5,839)	
2023		(8,090)	
2024		(7,182)	
2025		(9,468)	
	\$	(30,579)	

Actuarial Assumptions The total OPEB liability, net OPEB liability, and sensitivity information as of June 30, 2021, were based on an actuarial valuation date of June 30, 2020. The total OPEB liability was rolled-forward from the valuation date (June 30, 2020) to the plan's fiscal year ending June 30, 2021, using the generally accepted actuarial principles.

The following actuarial assumptions were used in performing the actuarial valuation as of June 30, 2021:

Inflation	2.30%		
Payroll Growth Rate	2.0% CERS Non-hazardous		
Salary Increase	3.30% - 10.30%, varies by service		
Investment Rate of Return	6.25%		
Healthcare Trend Rates			
Pre-65	Initial trend starting at 6.30% as January 1, 2023, and gradually decreasing to an ultimate trend rate of 4.05% over a period of 13 years.		
Post-65	Initial trend starting at 6.30% in 2023, then gradually decreasing to an ultimate trend rate of 4.05% over a period of 13 years.		
Mortality			
Pre-retirement	Pub-2010 General Mortality table, for the Nonhazardous Plans, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010.		
Post-retirement (non-disabled)	System-specific mortality table based on mortality experience form 2013-2018, projected with the ultimate rates from MP- 2014 mortality improvement sale using a base year of 2019.		
Post-retirement (disabled)	Pub-2010 Disabled Mortality table, with a 4-year set-forward for both male and female rates, projected with the ultimate rates from the MP-2014 mortality improvement scale using a base year of 2010.		

The single discount rates used to calculate the total OPEB liability within each plan changed since the prior year. The assumed increase in future health care costs, or trend assumption, was reviewed during the June 30, 2020, valuation process and was updated to better reflect the plan's anticipated long-term healthcare costs. There were no other material assumption changes.

House Bill 1 passed during the 2019 Special Legislative Session allows certain employers in the KERS Nonhazardous plan to elect to cease participating in the KERS Nonhazardous Plan as of June 30, 2020, under different provisions than were previously established. Senate Bill 249 passed during the 2020 legislative session delayed the effective date of cessation for these provisions to June 30, 2021. Only one employer elected to cease participation under these provisions and freeze benefit accruals for their current employees. As such, there is no material impact on the total OPEB liability due to this legislation.

Senate Bill 249 passed during the 2020 legislative session changed the funding period for the amortization of the unfunded liability to 30 years as of June 30, 2019. Gains and losses incurring in future years will be amortized over separate 20-year amortization bases. This change does not

impact the calculation of the Total OPEB Liability and only impacts the calculation of the contribution rates that were payable starting July 1, 2020.

Senate Bill 169 passed during the 2021 legislative session and increased the disability benefits for certain qualifying members who become "totally and permanently disabled" in the line of duty or as a result of a duty-related disability. The total OPEB liability as of June 30, 2021, is determined using these updated benefit provisions.

Additionally, House Bill 8 passed during the 2021 legislative session changed how employer contributions are allocated and collected from the participating employers in the KERS Nonhazardous Plan. This change does not impact the calculation of the total OPEB liability but does impact the allocation of required contributions amongst the participating employers. As a result of this legislation, there are several employers that will experience a relatively large change in proportionate share of the Collective OPEB Amounts in the KERS Nonhazardous insurance plan from 2020 to 2021. Additional information is provided in Section 1 of the GASB 75 KERS report. There were no other material plan provision changes.

The target allocation and best estimates of arithmetic real rate of return for each major asset class is summarized in the table below.

	Target	Long-Term Nominal
Asset Class	Allocation	Rate of Return
Growth	68.50%	
US Equity	21.75%	5.70%
Non US Equity	21.75%	6.35%
Private Equity	10.00%	9.70%
Specialty Credit/High Yield	15.00%	2.80%
Liquidity	11.50%	
Core Bonds	10.00%	0.00%
Cash	1.50%	(0.60)%
Diversifying Strategies	20.00%	
Real Estate	10.00%	5.40%
Opportunistic	0.00%	N/A
Real Return	10.00%	4.55%
Total	100.00%	_
Expected real return		5.00%
Long-term inflation assumption		2.30%

Discount Rate. The single discount rate of 5.20% for CERS nonhazardous plans were used to calculate the total OPEB liability as of June 30, 2021. The single discount rate is based on the expected rate of return on OPEB plan investments of 6.25%, and a municipal bond rate of 1.92%, as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of June 30, 2021. Based on the stated assumptions and the projection of cash flows as of each fiscal year ending, each plan's fiduciary net position and future contributions were projected to be sufficient to finance the future benefit payments of the current plan members. Therefore, the long-term expected rate of return on insurance plan investments was applied to all periods of the projected benefit payments paid from the plan. However, the cost associated with the implicit employer subsidy was not included in the calculation of the plans actuarial determined contributions, and any cost associated with the implicit subsidy will not be paid out of the plan's trust. Therefore, the municipal bond rate was applied to future expected benefit payments associated with the implicit subsidy.

Implicit Subsidy. The fully-insured premiums paid for Kentucky Employee's Health Plan are

blended rates based on the combined experience of the active and retired members. Because the average cost of providing health care benefits to retirees under age 65 is higher than the average cost of providing health care benefits to active employees, there is an implicit employer subsidy for non-Medicare eligible retirees. GASB Statement No. 75 requires that the liability associated with this implicit subsidy be included in the calculation of the Total OPEB Liability. The District's implicit subsidy for the year ended December, 31, 2021, was \$3,134.

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate. The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of present, as well as what the plan's net position liability would be if it were calculated using a discount rate that is one percentage point lower (4.20%) or one percentage point higher (6.20%) than the current rate (5.20%):

		Current	
	1%	Discount	1%
	Decrease	e Rate	Increase
	4.20%	5.20%	6.20%
The District's proportionate share of			
the net OPEB liability	\$ 130,76	9 \$ 95,244	\$ 66,090

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rate. The following presents the District's proportionate share of the net OPEB liability calculated using the current healthcare cost trend rates (see details in Actuarial Assumptions above), as well as, what the District's proportionate share of the net OPEB liability would be if it were calculated using healthcare cost trend rates that are one percentage point lower or one percentage point higher than the current rates.

		Current	
		Healthcare	
	1%	Cost Trend	1%
	Decrease	Rate	Increase
The District's proportionate share of			
the net OPEB liability	\$ 68,564	\$ 95,244	\$ 127,447

Payables to the OPEB plan. At December 31, 2021, the financial statements include \$828 in contractually required employee OPEB contributions primarily for the month ended December 31, 2021. The obligation was paid within prescribed time limits.

8. <u>COMMITMENTS</u>

Contracts for Water Supply

The District entered into contracts with the City of Eddyville, the City of Kuttawa, the City of Princeton, and the Crittenden-Livingston Water District which states that the Cities and Water District will provide water to the District.

9. <u>CONTINGENCIES</u>

The District participates in federal and state assisted grant programs for construction of water lines. These programs are subject to review by grantors or their representatives. As of December 31, 2021, there have been no material questioned or disallowed costs as a result of grant audits. As construction is completed, amounts due from grant funds are recognized and are recorded as revenue.

10. PUBLIC SERVICE COMMISSION REGULATIONS

The District is required to file with the Public Service Commission (PSC) a report of its gross earnings or receipts derived from intra-state business for the preceding calendar year. The District has satisfied this requirement. The District has also filed the 2021 annual PSC Report as required. Further, the PSC requires that all customer deposit refunds be paid with interest. This requirement has been fulfilled.

11. ECONOMIC DEPENDENCIES

The majority of the District's revenue consists of charges for water-related services to customers in Lyon County, Kentucky. For the year ended December 31, 2021, the revenues from these sources totaled \$1,313,827. The District also receives monies from the United States Department of Agriculture and the Kentucky Infrastructure Authority whenever funds are available.

12. <u>COMPENSATED ABSENCES</u>

The District grants employees vacation time based on years of service. Full-time employee are entitled to vacation pay according to the following schedule:

1 to 5 years	12 days
6+ years	15 days

Employees are allowed to carryforward 80 hours of vacation time. Upon termination of employment, an employee will be paid for all unused vacation leave. The liability for unused vacation time at December 31, 2021 was \$3,239.

The District's policy on sick pay states that employees will be granted 1/2 sick day per month. Employees are allowed to carryforward 240 hours of sick time. Sick leave is forfeited upon termination of employment. The liability for unused sick time at December 31, 2021 was \$1,000.

13. LITIGATION

The District is not aware of any pending or threatened litigation in which it is involved which would have a material effect on these financial statements.

REQUIRED SUPPLEMENTARY INFORMATION

<u>Lyon County Water District</u> <u>Schedule of Revenues, Expenses, and</u> <u>Changes in Net Position - Budget and Actual</u> <u>For the Year Ended December 31, 2021</u>

Revenues	Budgeted Original	l Amounts Final	Actual	Variance with Final Budget Positive (Negative)

2014	\$22,229	\$22,229	\$ -	\$150,398	13.74% / 12.75%

Note to Schedule:

(1) Schedule is intended to show information for 10 years. Additional years of supplemental information will be provided as this information becomes available.

Contractually required employer contributions exclude the portion of contributions paid to CERS but allocated to the insurance fund of CERS. The above contributions only include those allocated directly to the CERS pension fund.

<u>Lyon County Water District</u> <u>Schedule of Changes in Benefits and Assumptions Pension</u> <u>For the Year Ended December 31, 2021</u>

Note A - Changes of Assumptions:

The following changes were made by the Kentucky Legislature and reflected in the valuation performed as of June 30, listed below:

2015:

The assumed investment rate of return was decreased from 7.75% to 7.50%. The assumed rate of inflation was reduced from 3.50% to 3.25%. The assumed rate of wage inflation was reduced from 1.00% to 0.75%. Payroll growth assumption was reduced from 4.50% to 4.00%. The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females).

For healthy retired members and beneficiaries, the mortality table used is the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement. There is some margin in the current mortality tables for possible future improvement in mortality rates and that margin will be reviewed again when the next experience investigation is conducted.

The assumed rates of Retirement, Withdrawal, and Disability were updated to more accurately reflect experience.

2017:

The actuarial valuation as of June 30, 2017, was performed by Gabriel Roeder Smith. Subsequent to the actuarial valuation date (June 30, 2016), but prior to the measurement date the KRS Board of Trustees reviewed investment trends, inflation, and payroll growth historical trends. Based on this review the Board adopted the following updated actuarial assumptions which were used in performing the actuarial valuation as of June 30, 2017, which were also used to determine the Total Pension Liability and Net Pension Liability as of June 30, 2017.

Inflation	2.30%
Salary increases	3.05%, average
Investment rate of return	6.25%, net of pension plan investment expense including inflation

2018:

There have been no changes in actuarial assumption since June 30, 2017.

2019:

Payroll growth rate was reduced to 2.00% from 4.00%.

The assumed salary increases were increased to 3.30% to 11.55%, from 3.05% to 18.55%.

2020:

There have been no changes in actuarial assumptions since June 30, 2019.

2021:

The assumed salary increases were decreased to 3.30% to 10.30%, from 3.30% to 11.55%.

<u>Lyon County Water District</u> <u>Schedule of Changes in Benefits and Assumptions Pension</u> <u>For the Year Ended December 31, 2021</u>

Note B - Method and assumptions used in calculations of actuarially determined contribution

The total pension liability, net pension liability, and sensitivity information as of June 30, 2021, were based on an actuarial valuation date of June 30, 2020. The total pension liability was rolled forward from the valuation date of June 30, 2020, to the plan's fiscal year ending June 30, 2021, using the generally accepted actuarial principles. The following actuarial methods and assumptions used to calculate the required contributions are below.

Valuation date Experience study	June 30, 2019 July 1, 2013 - June 30, 2018
Actual cost method	Entry age normal
Amortization method	Level percent of pay
Amortization period	30-year closed period at June 30, 2019. Gains/losses incurring after
	2019 will be amortized over separate closed 20-year amortization
	bases.
Payroll growth rate	2.00%
Asset valuation method	20% of the difference between the market value of assets and the expected actuarial value of assets is recognized
Inflation	2.30%
Salary increases	3.30% to 10.30%, varies by service for CERS
Investment Rate of Return	6.25%
Mortality	System-specific mortality table based on mortality experience from
	2013-2018, projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2019.
Phase-In provision	Board certified rate is phased into the actuarially determined rate in accordance with HB362 enacted in 2018.

Note C - Changes in benefits:

2009: A new benefit tier for members who first participate on or after September 1, 2008, was introduced which included the following changes:

- 1. Tiered structure for benefit accrual rates.
- 2. New retirement eligibility requirements.
- 3. Different rules for the computation of final average compensation.

2014: A cash balance plan was introduced for members whose participation date is on or after January 1, 2014.

2018: House Bill 185 was enacted, which updated benefit provisions for active members who die in the line of duty.

2019: House Bill 1 passed during the 2019 legislative session and allowed certain agencies in the KERS Nonhazardous plan to elect to cease participating in the fund as of June 30, 2020, under different provisions than were previously established.

2020: Senate Bill 249 passed during the 2020 legislative session delayed the effective date of cessation for these provisions to June 30, 2021.

2021: Senate Bill 169 passed during 2021 legislative session increased the disability benefits for certain qualifying members who become "total and permanently disabled" in the line of duty or as a result of a duty-related disability.

House Bill 8 passed during the 2021 legislative session changed how employer contributions are allocated and collected from the participating employer in the KERS Nonhazardous plan.

<u>Lyon County Water District</u> <u>Schedule of the Proportionate Share of the Net OPEB Liability</u> <u>For the Years Ended December 31</u> <u>Last Ten Measurement Dates (1)</u>

Year Ended	District's proportion of the net OPEB liability	District's proportionate share of the net OPEB liability (asset)	District's covered employee payroll	District's share of the net OPEB liability (asset) as a percentage of its covered employee payroll	Plan fiduciary net position as a percentage of the total OPEB liability (2)
<u>CERS Nonha</u>	<u>zardous</u>				
2021	0.004975%	\$ 95,244	\$123,352	77.21%	62.91%
2020	0.006200%	\$149,711	\$143,895	104.04%	51.67%
2019	0.007364%	\$123,859	\$175,603	70.53%	60.44%
2018	0.006546%	\$116,223	\$181,770	63.94%	57.62%
2017	0.006997%	\$140,664	\$158,492	88.75%	52.40%

Note to Schedule:

(1) The amounts presented were determined as of the measurement date June 30. District payroll is reported for its' covered employees on calendar years ending December 31.

(2) This will be the same for all participant employers in the CERS plan.

Schedule is intended to show information for 10 years. Additional years of supplemental information will be provided as this information becomes available.

Lyon County Water District Schedule of OPEB Contributions For the Years Ended December 31 Last Ten Years (1)

Year Ended	Contractually required contribution	Contributions relative to contractually required contribution	Contribution deficiency (excess)	District's covered employee payroll	Contributions as a percentage of covered employee payroll
<u>CERS Nonha</u>	izardous				
2021	\$6,467	\$6,467	\$ -	\$123,352	4.76% / 5.78%
2020	\$6,924	\$6,924	\$ -	\$143,895	4.76% / 4.76%
2019	\$8,748	\$8,748	\$ -	\$ 175,603	5.26% / 4.76%
2018	\$9,046	\$9,046	\$ -	\$181,770	4.70% / 5.26%
2017	\$9,311	\$9,311	\$ -	\$158,492	4.73% / 4.70%

Note to Schedule:

Contributions in relation to statutorily required OPEB contributions are the contributions an employer actually made to the OPEB Plan, as distinct from the statutorily required contributions.

Contractually required employer contributions exclude the portion of contributions paid to CERS but allocated to the pension fund of CERS. The above contributions only include those allocated directly to the CERS insurance fund.

(1) Schedule is intended to show information for 10 years. Additional years of supplemental information will be provided as this information becomes available.

<u>Lyon County Water District</u> <u>Schedule of Changes in Benefits and Assumptions OPEB</u> <u>For the Year Ended December 31, 2021</u>

Note A - Changes of Assumptions:

2017:

The actuarial valuation was performed as of June 30, 2016. Gabriel Roeder Smith Retirement Consulting rolled forward from the valuation date to the plan's fiscal year end of June 30, 2017 using generally accepted actuarial principles. Subsequent to the actuarial valuation date (June 30, 2016), but prior to the measurement date the KRS Board of Trustees reviewed investment trends, inflation, and payroll growth historical trends. Based on this review the Board adopted the following updated actuarial assumptions which were used in performing the actuarial valuation as of June 30, 2017, which were also used to determine the Total Pension Liability and Net Pension Liability as of June 30, 2017. Specifically, a 2.30% price inflation assumption and an assumed rate of return of 6.25%.

2018:

There have been no changes in actuarial assumptions since June 30, 2017.

2019:

The payroll growth rate was reduced to 2.0% from 4.0%.

The inflation rate was reduced to 2.30% from 3.25%.

The investment rate of return was reduced to 6.25% from 7.50%.

2020:

There have been no changes in actuarial assumptions since June 30, 2019.

2021:

Salary increases were reduced to 3.30% to 10.30% from 3.30% to 11.55%.

Note B - Method and assumptions used in calculations of actuarially determined contributions.

The total OPEB liability, net OPEB liability, and sensitivity information as of June 30, 2021, were based on an actuarial valuation date of June 30, 2020. The total OPEB liability was rolled forward from the valuation date of June 30, 2020 to the plan's fiscal year ending June 30, 2021 using generally accepted actuarial principles. The actuarial methods and assumptions used to calculate the required contributions are below.

Valuation date Experience study Actual cost method Amortization method Amortization period	June 30, 2019 July 1, 2013 - June 30, 2018 Entry age normal Level percent of pay 30-year closed period at June 30, 2019. Gains/losses incurring after 2019 will be amortized over separate closed 20-year amortization bases.
Asset valuation method	20% of the difference between the market value of assets and the expected actuarial value of assets is recognized
Inflation	2.30%
Salary increases	3.30% to 10.30%, varies by service for CERS
Payroll growth rate	2.00%
Investment Return	6.25%
Healthcare Trend Rates	
Pre-65	Initial trend starting at 5.50% at January 1, 2021, then gradually decreasing to an ultimate trend rate of 4.05% over a period of 14 years.
Post-65	Initial trend starting at 5.50% at January 1, 2021, then gradually decreasing to an ultimate trend rate of 4.05% over a period of 14 years.
Mortality	System-specific mortality table based on mortality experience from 2013-2018, projected with the ultimate rates from MP-2014 mortality improvement scale using a base year of 2019.

<u>Lyon County Water District</u> <u>Schedule of Changes in Benefits and Assumptions OPEB</u> <u>For the Year Ended December 31, 2021</u>

Phase-In provision Board certified rate is phased into the actuarially determined rate in accordance with HB362 enacted in 2018.

Notes C - Changes of Benefits:

2019: House Bill 1 passed during the 2019 legislative session and allowed certain agencies in the KERS Nonhazardous plan to elect to cease participating in the fund as of June 30, 2020, under different provisions than were previously established.

2020: Senate Bill 249 passed during the 2020 legislative session delayed the effective date of cessation for these provisions to June 30, 2021.

2021: Senate Bill 249 passed during the 2020 legislative session changed the funding period for the amortization of the unfunded liability to 30 years as of June 30, 2019. Gains and losses incurring in future years will be amortized over separate 20-year amortization bases.

Senate Bill 169 passed during 2021 legislative session increased the disability benefits for certain qualifying members who become "total and permanently disabled" in the line of duty or as a result of a duty-related disability.

House Bill 8 passed during the 2021 legislative session changed how employer contributions are allocated and collected from the participating employer in the KERS Nonhazardous plan.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Commissioners Lyon County Water District Kuttawa, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issues by the Comptroller General of the United States, the financial statements of the Lyon County Water District, as of and for the year ended December 31, 2021 and the related notes to the financial statements, which collectively comprise the Lyon County Water District's basic financial statements, and have issued our report thereon dated July 25, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Lyon County Water District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during out audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies. (2021-1).

140 COMMERCE ST. PO BOX 909 EDDYVILLE, KY 42038

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Lyon County Water District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Lyon County Water District's Response to Findings

Lyon County Water District's response to findings identified in our audit described in the accompanying schedule of findings and responses. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements, and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

<u>Lyon County Water District</u> <u>Schedule of Findings and Responses</u> For The Year Ended December 31, 2021

2021-1 Segregation of Duties

Condition

There is an absence of appropriate segregation of duties consistent with appropriate control objectives.

<u>Criteria</u>

A prudent control environment requires various functions of internal control be allocated among various employees.

Effect

Although no instances were noted, lack of segregation of duties can create situations where assets are not properly safeguarded and errors and irregularities may go undetected.

<u>Cause</u> Lack of personnel.

Recommendation

We recommend that management review its financial operation for opportunities to separate incompatible functions. Where segregation of duties cannot be achieved due to the size of the staff, management should maintain its awareness of the weakness and compensate with other controls.

Response

We agree with the finding and have put in place certain compensating controls to help alleviate exposure. A third party accounting firm has been contracted to provide office staff, bookkeeping, payroll, and preparing monthly reports for Board review.

<u>Lyon County Water District</u> <u>Schedule of Prior Year Findings and Responses</u> <u>For The Year Ended December 31, 2020</u>

2020-1 Segregation of Duties

Condition

There is an absence of appropriate segregation of duties consistent with appropriate control objectives.

<u>Criteria</u>

A prudent control environment requires various functions of internal control be allocated among various employees.

Effect

Although no instances were noted, lack of segregation of duties can create situations where assets are not properly safeguarded and errors and irregularities may go undetected.

<u>Cause</u> Lack of personnel.

Recommendation

We recommend that management review its financial operation for opportunities to separate incompatible functions. Where segregation of duties cannot be achieved due to the size of the staff, management should maintain its awareness of the weakness and compensate with other controls.

Response

We agree with the finding and have put in place certain compensating controls to help alleviate exposure. A third party accounting firm has been contracted to provide office staff, bookkeeping, payroll, and preparing monthly reports for Board review.
