INDEPENDENT AUDITOR'S REPORT

Chairman and Commissioners North Mercer Water District Salvisa, KY 40372

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of the North Mercer Water District (the District) as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the comptroller general of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the District, as of December 31, 2017, and the changes in financial position and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 6 and the historical pension information on pages 23 and 24 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

We have previously audited the District's 2016 financial statements, and we expressed an unmodified opinion on the respective financial statements of the business-type activities in our report dated May 26, 2017. In our opinion, the summarized comparative information presented herein as of and for the year ended December 31, 2016, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 29, 2018, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of the audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Danville, Kentucky May 29, 2018

The management of North Mercer Water District (the District) presents this narrative to help our readers review the accompanying annual financial statements for the year ended December 31, 2017. We have prepared this overview and analysis of the District's financial activities to add additional information to the financial schedules and the note disclosures. Our analysis will examine the financial highlights for this fiscal year and help explain the format for our readers.

Financial Highlights

- As of December 31, 2017, the District's assets (page 8) exceeded liabilities by \$4,038,467. This amount includes \$3,704,242 of resources that are invested in capital assets, net of related debt. \$334,225 of these resources are unrestricted and are available to fund the District's outstanding obligations and future programs.
- ➤ Unrestricted cash and cash equivalents (page 7) as of December 31, 2017, were \$357,010 and current liabilities payable from unrestricted resources (i.e. excluding principal and interest on long term debt) were \$189,946.
- Net position (equity) decreased by \$151,176 (page 9). However, it should be noted that this decrease includes depreciation expense of \$469,367, a non-cash expense. The water loss percentage for the year was approximately 13.19% which represents an increase of 13.48% compared to the previous year.
- ➤ The District's total debt decreased \$226,827 for the year ended December 31, 2017. The decrease was the result of scheduled principal payments.

Overview of the Financial Statements

This discussion and analysis is intended to introduce the District's financial statements. Basic financial statements include two major sections: 1) government-wide financial statements, and 2) notes to the financial statements.

The North Mercer Water District is a special-purpose governmental entity. It utilizes the accrual basis of accounting applicable to all *proprietary fund types*. Revenues are recognized when earned regardless of when received and expenses are recognized when incurred regardless of when paid.

Notes to the Financial Statements

Notes provide additional information that is essential to a full understanding of the information included in the financial schedules. Notes provide additional details about the balances and transactions in the District's financial statements and are presented on pages 14 through 22.

Government-wide Financial Analysis

Net position (equity) may serve over time as a useful indicator of a government's financial position. 92% of the District's net position reflects its investment in capital assets (e.g. distribution system, equipment, etc), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its customers; consequently these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. 8% of the District's net position is unrestricted.

The first statement in the government-wide statements is the Statement of Net Position. The following table summarizes the Statement of Net Position (pages 7-8).

	2017	2016		
Current and other assets	\$ 1,437,942	\$ 1,325,976		
Capital assets	10,096,070	10,476,802		
Total Assets	11,534,012	11,802,778		
Deferred outflows of resources	4,387	170,739		
Long-term debt outstanding	6,391,828	6,618,655		
Net pension liability	944,021	842,261		
Other liabilities	320,510	303,624		
Total liabilities	7,656,359	7,764,540		
Deferred inflows of resources	126,867	19,334		
Net Position:				
Net investment in capital assets	3,704,242	3,858,147		
Unrestricted	334,225	331,496		
Total net position	\$ 4,038,467	\$ 4,189,643		

The second statement in the government-wide statements is the Statement of Revenues, Expenses, and Changes in Net Position. The following table outlines the major components of this statement.

	2017		2016
Revenues:		_	_
Charges for services	\$	2,297,596	\$ 2,083,222
Grants and contributions		21,450	24,700
Rental income		3,261	2,976
Interest earnings		4,387	7,253
Gain on sale of assets			 6,800
Total revenues		2,326,694	2,124,951
Expenses:			
Operating expenses, excluding depreciation		1,760,061	1,747,025
Depreciation		469,367	462,661
Interest and amortization		248,442	 252,118
Total expenses		2,477,870	2,461,804
Increase (decrease) in net position	\$	(151,176)	\$ (336,853)

Capital Asset and Debt Administration

The District invests substantial resources in capital assets that support the services provided to its customers. All of the District's outstanding debt has been used to acquire or construct capital assets.

Capital Assets

The District's capital assets, net of accumulated depreciation are summarized below:

	2017		2016
Land	\$	48,802	\$ 48,802
Buildings, structures & improvements		181,664	163,507
Equipment, vehicles, furniture, & fixtures		249,251	280,094
Transmission system		7,314,510	7,577,509
Distribution sustem		998,441	1,040,485
Water meters		1,283,376	1,344,497
Hydrants		6,012	6,552
Pump station equipment	_	14,014	 15,356
Total, net of depreciation	\$	10,096,070	\$ 10,476,802

Long Term Debt

The principal outstanding on the District's long-term debt is summarized in the following table.

	2017	 2016
Water revenue refunding bonds	\$ 3,020,000	\$ 3,120,000
Water revenue bonds	3,254,000	3,298,500
Notes due to State of Kentucky	57,500	137,500
Bond premium, Series 2016D	 60,328	 62,655
Total	\$ 6,391,828	\$ 6,618,655

The District's outstanding debt decreased \$226,827 for the year ended December 31, 2017. The decrease was the result of scheduled principal payments.

Economic Factors for Next Year

As stated previously, the District has made tremendous progress during the fiscal years subsequent to 2011 in getting its water losses under control. Going forward, the District will continue to monitor its water losses and take the necessary action to keep them at an acceptable level.

During 2015, the District implemented GASB Statement No. 68, Accounting and Financial Reporting for Pensions, which addressed financial reporting for state and local government employers whose employees are provided with pensions through pension plans that are covered under Statement No. 67, Financial Reporting for Pension Plans. In 2018, the District will be required to implement GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. The guidance contained in Statement No. 68 changed how governments calculate and report the costs and obligations associated with pensions. Under the new standards, GASB requires that cost-sharing governments report a net pension liability, pension expense, and pension related deferred inflows and outflows of resources based on their proportionate share of the collective amounts for all governments in the plan. The guidance contained in Statement No. 75 will change how governments calculate and report costs and obligations associated with post-employment benefits other than pensions (OPEB), such as retiree health insurance. Under the new standard, GASB will require the cost

sharing governments to report a net OPEB liability, expense, and related deferred inflows and outflows of resources based on their proportionate share of the collective amounts for all governments in the plan. Contributions to the County Employees Retirement System (CERS) are actuarially determined. The funded status of the CERS plan will have a significant impact on the required contributions and the District's proportionate share of the net pension liability and OPEB liabilities.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide customers and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's office, P.O. Box 79, Salvisa, KY 40372, telephone number (859) 865-2292.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The North Mercer Water District (the District) was established in 1959 under KRS 74.010 to provide water service for public health, convenience, fire protection, and comfort to the residents of northern Mercer County, Kentucky. Several expansions of the system have taken place in Mercer, Anderson, Boyle, and Washington Counties since the creation of the District. The Board of Commissioners consists of three members, all residents of Mercer County, appointed by the county judge.

North Mercer Water District has been appointed by the Mercer County Fiscal Court as an independent unit. The District selects management, staff, sets user charges, establishes budgets and controls all aspects of its daily activities.

The commissioners appoint the Chair(person) from existing members. The Chair responsibilities are to preside at all meetings; be the chief officer of the District; perform all duties commonly incident to the position of presiding officer of a board, commission or business organization and exercise supervision over the business of the District, its officers and employees.

The accompanying statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The financial statements include all organizations, activities, and functions that comprise the District. Component units are legally separate entities for which the District (the primary entity) is financially accountable. Financial accountability is defined as the ability to appoint a voting majority of the organization's governing body and either (1) the District's ability to impose its will over the organization or (2) the potential that the organization will provide a financial benefit to, or impose a financial burden on, the District. Using these criteria, the District has no component units.

Basis of Presentation

The District's fund is an enterprise fund. Enterprise funds are proprietary funds used to account for business-like activities provided to the general public. These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector.

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe *which* transactions are recorded within the various financial statements. Basis of accounting refers to *when* transactions are recorded regardless of the measurement focus applied.

The proprietary funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

All proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund are charges to customers for sales and service. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Assets, Liabilities, and Net Position

Cash and Investments

For purposes of the statement of cash flows, the District considers all highly liquid investments, including restricted assets, with a maturity of three months or less when purchased, to be cash equivalents.

Restricted Assets

Restricted assets represent cash and cash equivalents whose use is limited by legal requirements.

Inventory

Inventory consists of materials and supplies on hand at the end of the year and is stated at the lower of cost (average cost method) or market.

Utility Plant

Utility plant is recorded at cost for items purchased or constructed and at estimated fair market value on the date donated for contributed items. The capitalization threshold for utility plant is \$500. Depreciation is computed by the straight-line method based on the estimated useful lives of related asset classifications. It is the District's policy to depreciate assets one-half year in the year of acquisition and one-half year in the year of disposal or retirement.

Construction in Progress

Construction work in progress represents costs accumulated for the replacement of sections of the District's transmission and distribution systems, plant expansions and rehabilitations, and other projects that were not completed at year end.

Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation benefits. Employees may, depending on level and length of service, be paid for various amounts of their total accrued leave upon termination or retirement. The District accrues a liability for leave hours that meet the criteria for payment at the eligible employees' current rates of pay plus retirement benefits and employment taxes. The accrual for compensated absences at December 31, 2017 was \$24,173.

Long-Term Obligations

Long-term debt and other long-term obligations are reported as liabilities on the District's statement of net position.

Bond Issuance Costs

The Government Accounting Standards Board (GASB) issued GASB Statement #65, effective for fiscal years beginning after December 15, 2012. GASB Statement #65 changed the method of accounting for debt issuance costs. Prior to the issuance of GASB Statement #65, debt issuance costs were recognized in a systematic manner over the life of the related debt. However, GASB Statement #65 states that debt issuance costs (with the exception of prepaid insurance costs) should be recognized in the year they are incurred. Furthermore, regulated utilities are allowed to apply certain criteria outlined in GASB Statement #62 to determine if they can continue to amortize debt issuance costs. If the criteria are met, then debt issuance costs would continue to be amortized over the life of the related debt. The District has reviewed the criteria contained in GASB Statement #62 and has determined that it remains appropriate to amortize its bond issuance costs consistent with how it has treated them in prior years.

Net Position

Net position represents the differences between assets and liabilities in the statement of net position.

- 1. Net investment in capital assets represents net position invested in capital assets reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets.
- 2. Net position is reported as restricted when there are legal limitations imposed on their use by District legislation or external restrictions by creditors, grantors, laws or regulations of other governmental entities.

Budget

In accordance with the District's enabling legislation, the Commission holds public hearings and subsequently adopts an annual budget for operating expenses and capital outlays. The budget is adopted on a basis consistent with generally accepted accounting principles. It is monitored at various levels of classification detail within the enterprise fund.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results may differ from those estimates.

NOTE 2. DEPOSITS AND INVESTMENTS

The following information classifies deposits and investments by categories of risk as defined in GASB Statement 3, "Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements".

Deposits

At year-end, the carrying amount of the District's deposits was \$844,117 and the bank balance was \$938,927. The bank balance covered by federal depository insurance was \$686,737. The remaining deposits were classified as Category 2, collateralized, as defined by GASB (securities are pledged with the financial institution's trust department or agent in the District's name).

Investments

- Category 1 Insured or registered, with securities held by the District or its agent in the District's name.
- Category 2 Uninsured and unregistered, with securities held by the counterparty's trust department or agent in
- Category 3 Uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the District's name.

The District has investments of \$95,040 in bank certificates of deposit. The certificates of deposit are covered by federal depository insurance.

NOTE 3. RESTRICTED ASSETS

Under the District's bond agreements, the District is required to transfer to the Debt Service Account on or before the last day of each month the following amounts:

- Interest-deposit the sum together with the balance in this account an amount equal to the interest on all outstanding bonds accrued and unpaid and to accrue to the end of the then current calendar month.
- Principal-deposit the sum together with the balance in this account an amount equal to (a) the principal amount of all outstanding bonds other than term bonds due and unpaid, (b) that portion of the principal amount of the bonds next due which would have accrued on such bonds other than term bonds next due during the current calendar month if such principal amount thereof were deemed to accrue monthly in equal installments from a date one year preceding the due date of such bonds next due and (c) the portion of the principal amount of the bonds next due which shall have accrued on such basis in prior months.
- Depreciation-deposit a monthly sum until the depreciation account reaches the balance required by bond agreements.

NOTE 4. LONG-TERM DEBT

Kentucky Infrastructure Loan of 1993 (KIA)

The Kentucky Infrastructure has first pledge of gross income and revenues derived from the operation of the system to pay for the District's portion of the debt service requirements of the Kentucky Infrastructure Authority Revenue Bonds, Series 1993E dated April 7, 1993, which redeemed and retired KIA Bonds series 1988A and 1988B.

Waterworks Revenue Bonds. Series 2011A

The District authorized the issuance of \$1,547,000 in "Waterworks Revenue Bonds" by resolution to finance the construction of additions and improvements to the system. On January 19, 2012, the U.S. Department of Agriculture Rural Development purchased the entire issue at 3.75% interest rate. The bonds are payable and secured by a second pledge of revenues derived from the operation of the system, subject to the priority of a prior obligation to the Kentucky Infrastructure Authority of first pledge revenues.

Waterworks Revenue Bonds. Series 2011

The District authorized the issuance of \$1,874,000 in "Waterworks Revenue Bonds" by resolution to finance the construction of additions and improvements to the system. On January 19, 2012, the U.S. Department of Agriculture Rural Development purchased the entire issue at 3.75% interest rate. The bonds are payable and secured by a second pledge of revenues derived from the operation of the system, subject to the priority of a prior obligation to the Kentucky Infrastructure Authority of first pledge revenues.

Waterworks Refunding Revenue Loan, Series 2010C

On June 10, 2010, the District issued Waterworks Refunding Revenue Loan, Series 2010C in the amount of \$1,790,000 with an interest rate of 2.2%-4.325% for the purpose of refunding and retiring the outstanding Waterworks Revenue Bonds of 1992 and the Waterworks Refunding Revenue Bonds Series 1996, with interest rates of 5.375%-5.5%. The Waterworks Refunding Revenue Loan, Series 2010C were issued at a par amount of \$1,790,000 and, after paying issuance cost and discount of \$63,590, the net proceeds were \$1,726,410. The refunding met the requirements of an in-substance debt defeasance and the Revenue Bonds were removed from the District's long-term debt.

As a result of the refunding, the District reduced its total debt service requirements by \$488,774, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$327,270.

Kentucky Rural Water Finance Corporation Public Projects Refunding and Improvement Bonds, Series 2016D

On November 30, 2016, the District issued Kentucky Rural Water Finance Corporation (KRWFC) Public Projects Refunding and Improvement Bonds, Series 2016D (2016D Bonds) in the amount of \$1,845,000 with fixed interest rates ranging from 3.6%-5.1% for the purpose of refunding and retiring the outstanding Waterworks Revenue Bonds of 1994, Waterworks Revenue Bonds of 1996, and Waterworks Revenue Bonds of 2003, with interest rates of 4.375%-5.5%. The 2016D Bonds were issued at a premium of \$62,849 and after paying issuance cost, the net proceeds were \$1,907,849. The refunding met the requirements of an in-substance debt defeasance and the Revenue Bonds were removed from the District's long-term debt.

As a result of the refunding, the District reduced its total debt service requirements by \$203,874, which resulted in an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$145,208.

Long-term liability activity for the year ended December 31, 2017 was as follows:

	Beginning			Ending	Due Within		
	Balance	Increases	Reductions	Balance	One Year		
Waterworks refunding loan series 2010C	\$ 1,275,000	\$ -	\$ (100,000)	\$ 1,175,000	\$ 105,000		
Water revenue bonds series 2011	1,812,500	-	(22,500)	1,790,000	23,500		
Water revenue bonds series 2011A	1,486,000	-	(22,000)	1,464,000	22,500		
KRWFC Refunding Bonds, Series 2016D	1,845,000			1,845,000	40,000		
Bonds payable total	6,418,500	-	(144,500)	6,274,000	191,000		
Note due to state of Kentucky	137,500	-	(80,000)	57,500	57,500		
Bond Premium, Series 2016D	62,655		(2,327)	60,328			
Long-term debt total	\$ 6,618,655	\$ -	\$ (226,827)	\$ 6,391,828	\$ 248,500		

The future maturity amounts and related interest costs for all long-term debt are as follows:

Year Ending		Bor		<u> </u>	KIA Loan To			tal																						
December 31,	P	rincipal		Interest	Principal		Principal		Principal		Interest		Interest		Interest		Interest		Interest		Interest		Interest		ipal Int		P	rincipal	I	nterest

Total	\$	6,274,000	\$	2,588,139	\$	57,500	\$	2,444	\$	6,331,500	\$	2,590,583																		

NOTE 5. WATER RATES

The overall water rate through June 30, 2017 was \$16.59 per thousand gallons for the first 1,000 gallons of water consumed and various amounts per thousand gallons for water in excess of 1,000 gallons. The minimum water bill, which includes 1,000 gallons of water consumption, was \$16.59 per month. Beginning July 1, 2017, the overall water rate is \$18.22 per thousand gallons for the first 1,000 gallons of water consumed and various amounts per thousand gallons in excess of 1,000 gallons. The minimum water bill, which includes 1,000 gallons of water consumption, is \$18.22 per month.

The number of customer accounts billed during December 2017 was 4,947.

NOTE 6. OTHER OPERATING REVENUES

Other miscellaneous operating revenues consisted of the following for the year ended December 31, 2017:

Penalty Charges	\$ 31,722
Service Charges	23,993
Miscellaneous	 33,088
Total	\$ 88,803

NOTE 7. RISK RETENTION

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District carries commercial insurance for risks of loss. There were not significant reductions in insurance coverage in 2017 from coverage in the prior year. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three years. There were no presented claim liabilities at December 31, 2017.

NOTE 8. RETIREMENT

The District is a participating employer of the County Employees' Retirement System (CERS). Under the provisions of Kentucky Revised Statue 61.645, the Board of Trustees of Kentucky Retirement Systems administers the CERS. The plan issues publicly available financial statements which may be downloaded from the Kentucky Retirement Systems website.

Plan Description – CERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all regular full-time members employed in positions of each participating county, city, and school board, and any additional eligible local agencies electing to participate in the System. The plan provides for retirement, disability, and death benefits to plan members. Retirement benefits may be extended to beneficiaries of plan members under certain circumstances. Cost-of-living (COLA) adjustments are provided at the discretion of state legislature.

Contributions – For the year ended December 31, 2017, plan members were required to contribute 5.00% of wages for non-hazardous job classifications. Employees hired after September 1, 2008 are required to contribute an additional 1% to cover the cost of medical insurance that is provided through CERS. Participating employers were required to contribute at an actuarially determined rate. Per Kentucky Revised Statute Section 78.545(33), normal contribution and past service contribution rates shall be determined by the Board on the basis of an annual valuation last proceeding the July 1 of a new biennium. The Board may amend contribution rates as of the first day of July of the second year of a biennium, if it is determined on the basis of a subsequent actuarial valuation that amended contributions rates are necessary to satisfy requirements determined in accordance with actuarial basis adopted by the Board. For the year ended December 31, 2017, participating employers contributed 18.68% of each employee's wages from January 1, 2017 to June 30, 2017, and 19.18% of each employee's wages from July 1, 2017 to December 31, 2017, which is equal to the actuarially determined rate set by the Board. Administrative costs of Kentucky Retirement System are financed through employer contributions and investment earnings.

Plan members who began participating on, or after, January 1, 2015, were required to contribute to the Cash Balance Plan. The Cash Balance Plan is known as a hybrid plan because it has characteristics of both a defined benefit plan and a defined contribution plan. Members in the plan contribute a set percentage of their salary each month to their own account. Plan members contribute 5.00% of wages to their own account and 1% to the health insurance fund. The employer contribution rate is set annually by the Board based on an actuarial valuation. The employer contributes a set percentage of each member's salary. Each month, when employer contributions are received, an employer pay credit is deposited to the member's account. For non-hazardous members, their account is credited with a 4% employer pay credit. The employer pay credit represents a portion of the employer contribution.

The District contributed \$82,957 for the year ended December 31, 2017, or 100% of the required contribution. The contribution was allocated \$62,629 to the CERS pension fund and \$20,328 to the CERS insurance fund.

Pension Liabilities, Expense, Deferred Outflows of Resources and Deferred Inflows of Resources – At December 31, 2017, the District reported a liability of \$944,021 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2017, (the latest information available) and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2017, the District's proportion was .016128 percent, which was equal to its proportion measured as of June 30, 2016.

For the year ended December 31, 2017, the District recognized pension expense of \$173,558. At December 31, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Out	eferred flows of sources	Deferred Inflows of Resources		
Differences between expected and actual results	\$	1,171	\$	23,963	
Changes of assumptions		174,198		-	
Net difference between projected and actual earnings on Plan					
investments		74,765		63,089	
Changes in proportion and differences between District					
contributions and proportionate share of contributions		4,531		39,815	
District contributions subsequent to the measurement date		33,016		<u>-</u>	
Total	<u>\$</u>	287,681	\$	126,867	

The \$33,016 of deferred outflows of resources resulting from the District's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability during the year ending December, 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Year ending December 31,	
2017	\$ (57,263)
2018	(56,689)
2019	(25,967)
2020	12,121

Actuarial Assumptions – The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.30%

Salary increases 3.05%, average, including inflation

Investment rate of return 6.25%, net of Plan investment expense, including inflation

Mortality rates were based on the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females) for active members and the RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set-back 1 year for females) for healthy retired members. For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males).

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2008 - June 30, 2013.

The long-term expected return on plan assets is reviewed as part of the regular experience studies prepared every five years. Several factors are considered in evaluating the long-term rate of return assumptions including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant are intended for use over a 10-year horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer time frame. The assumption is intended to be a long-term

assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The target allocation and best estimates of nominal real rates of return for each major asset class are summarized in the following table:

		Long-term Nominal Real
	Target	Rate of
Asset Class	Allocation	Return
US Equity	17.5%	5.97%
International Equity	17.5%	7.85%
Global Bonds	4%	2.63%
Global Credit	2%	3.63%
High Yield	7%	5.75%
Emerging Market Debt	5%	5.50%
Private Credit	10%	8.75%
Real Estate	5%	7.63%
Absolute Return	10%	5.63%
Real Return	10%	6.13%
Private Equity	10%	8.25%
Cash	2%	1.88%
Total	100%	6.56%

Discount Rate – The discount rate used to measure the total pension liability was 6.25 percent. The projection of cash flows used to determine the discount rate assumed that local employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 26-year amortization period of the unfunded actuarial accrued liability. The actuarial determined contribution rate is adjusted to reflect the phase in of anticipated gains on actuarial value of assets over the first four years of the projection period. The discount rate does not use a municipal bond rate.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.25 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (5.25 percent) or 1 percentage-point higher (7.25 percent) than the current rate:

		District's proportionate share of net pension					
	Discount rate	li	iability				
1% decrease	5.25%	\$	1,190,615				
Current discount rate	6.25%	\$	944,021				
1% increase	7.25%	\$	737,748				

NOTE 9. DEFERRED COMPENSATION PLAN

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. In prior years, the Internal Revenue Code specified that the plan's assets were the property of the District until paid or made available to participants, subject only on an equal basis to the claims of the Authority's creditors. A 1996 federal law now requires all assets and income of Internal Revenue Code

Section 457 deferred compensation plans to be held in trust, custodial accounts, or annuity contracts for the exclusive benefit of the participants and their beneficiaries.

Assets of the District's plan are administered by Kentucky Deferred Compensation under contract with the District. The administrator amended the plan as of January 1, 1998, to comply with the new federal law. Consequently, the plan's assets and liabilities are not reflected in the District's financial statements.

NOTE 10. CONTINGENCIES

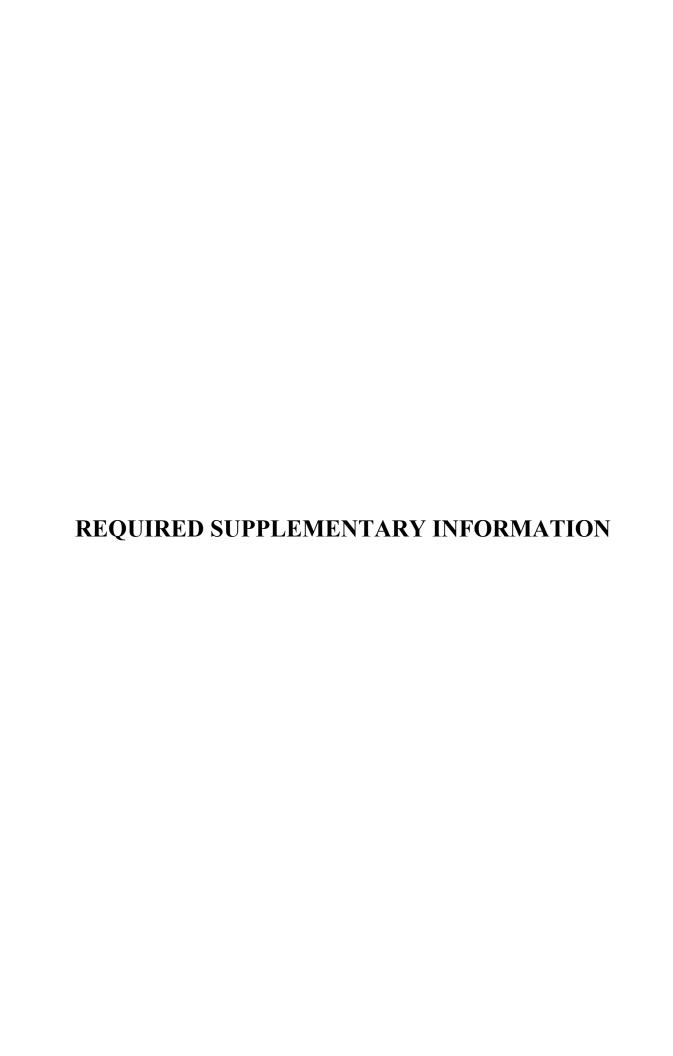

As of December 31, 2017, the District did not have any pending litigation or potential non-disclosed liabilities.

The North Mercer Water District participates in federal loan programs, which are governed by various rules of the grantor agency. Costs charged to the program are subject to audit and adjustment by the grantor agency; therefore, to the extent that the District has not complied with the rules and regulations governing these programs, refunds of any money received may be required. In the opinion of the District, there are no significant contingent liabilities relating to the compliance with the rules and regulations governing the respective programs.

NOTE 11. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2017 was as follows:

	Beginning			Ending
	Balance	Increases	Decreases	Balance
Capital assets, not being depreciated:				
Land and land rights	\$ 48,802	\$ -	\$ -	\$ 48,802
Total capital assets not being depreciated	48,802			48,802
Capital assets, being depreciated:				
Structures and improvements	306,041	24,130	-	330,171
Other plant	884,618	7,826	-	892,444
Equipment	43,242	3,996	-	47,238
Water system	16,815,212	52,683	-	16,867,895

Notes:

There were no changes in benefit terms or the size or composition of the population covered by the benefit terms.

The following changes of assumptions were adopted by the Kentucky Retirement System Board of Trustees for the period ending June 30, 2017.

- 1. The assumed investment rate of return was decreased from 7.50% to 6.25%.
- 2. The assumed rate of inflation was reduced from 3.25% to 2.30%.
- 3. Payroll growth assumption was reduced from 4.00% to 3.05%.

The following changes of assumptions were adopted by the Kentucky Retirement System Board of Trustees for the period ending June 30, 2016.

- 1. The assumed investment rate of return was decreased from 7.75% to 7.50%.
- 2. The assumed rate of inflation was reduced from 3.50% to 3.25%.
- 3. The assumed rate of wage inflation was reduced from 1.00% to .75%.
- 4. Payroll growth assumption was reduced from 4.50% to 4.00%.
- 5. The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females).
- 6. For healthy retired members and beneficiaries, the mortality table used is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement. There is some margin in the current mortality tables for possible future improvement in mortality rates and that margin will be reviewed again when the next experience investigation is conducted.
- 7. The assumed rates of Retirement, Withdrawal, and Disability were updated to more accurately reflect experience.

^{*}The amounts presented for each fiscal year were determined (measured) as of the previous fiscal year.

NORTH MERCER WATER DISTRICT REQUIRED SUPPLEMENTAL SCHEDULE OF CONTRIBUTIONS Last Five Fiscal Years

	2017	2016	2015	2014	2013
Contractually required employer contribution Contributions relative to contractually required employer contribution	\$ 62,629 62,629	\$ 51,598 51,598	\$ 53,034 53,034	\$ 53,472 53,472	\$ 46,871 46,871
Contribution deficiency (excess)	\$ -	<u>\$</u>	<u>\$</u>	<u>\$</u>	<u>\$</u>
City's covered employee payroll	\$ 437,991	\$ 415,444	\$ 415,954	\$ 389,169	\$ 371,402
Employer contributions as a percentage of covered-employee payroll	14.30%	12.42%	12.75%	13.74%	12.62%

Notes:

There were no changes in benefit terms or the size or composition of the population covered by the benefit terms.

The following changes of assumptions were adopted by the Kentucky Retirement System Board of Trustees for the period ending June 30, 2017.

- 1. The assumed investment rate of return was decreased from 7.50% to 6.25%.
- 2. The assumed rate of inflation was reduced from 3.25% to 2.30%.
- 3. Payroll growth assumption was reduced from 4.00% to 3.05%.

The following changes of assumptions were adopted by the Kentucky Retirement System Board of Trustees for the period ending June 30, 2016.

- 1. The assumed investment rate of return was decreased from 7.75% to 7.50%.
- 2. The assumed rate of inflation was reduced from 3.50% to 3.25%.
- 3. The assumed rate of wage inflation was reduced from 1.00% to .75%.
- 4. Payroll growth assumption was reduced from 4.50% to 4.00%.
- 5. The mortality table used for active members is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (multiplied by 50% for males and 30% for females).
- 6. For healthy retired members and beneficiaries, the mortality table used is RP-2000 Combined Mortality Table projected with Scale BB to 2013 (set back 1 year for females). For disabled members, the RP-2000 Combined Disabled Mortality Table projected with Scale BB to 2013 (set back 4 years for males) is used for the period after disability retirement. There is some margin in the current mortality tables for possible future improvement in mortality rates and that margin will be reviewed again when the next experience investigation is conducted.
- 7. The assumed rates of Retirement, Withdrawal, and Disability were updated to more accurately reflect experience.

Contractually required employer contributions exclude the portion of contributions paid to CERS but allocated to the insurance fund of the CERS. The above contributions only include those contributions allocated directly to the CERS pension fund.

^{*}The amounts presented for each fiscal year were determined (measured) as of the previous fiscal year.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Chairman and Commissioners North Mercer Water District Salvisa, KY 40372

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities of the North Mercer Water District (the District) as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated May 29, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
