Independent Auditors' Report

To the Commissioners
Jackson County Water Association, Incorporated
Tyner, Kentucky

Report on the Financial Statements

We have audited the accompanying financial statements of Jackson County Water Association, Incorporated (a nonprofit organization), which comprise the statements of net position as of December 31, 2020 and 2019, and the related statements of revenues, expenses, and changes in net position and cash flows for the years then ended, and the related notes to the financial statements, which collectively comprise Jackson County Water Association, Incorporated's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Jackson County Water Association, Incorporated, as of December 31, 2020 and 2019, and the respective changes in financial position, and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 18, 2021 on our consideration of Jackson County Water Association's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Jackson County Water Association's internal control over financial reporting and compliance.

Jackson County Water Association, Incorporated
Notes to Financial Statements
December 31, 2020 and 2019

Note 1 – Summary of Significant Accounting Policies

Reporting Entity

Jackson County Water Association, Incorporated, of Jackson County, Kentucky (“Association”) was created in 1970 under Chapter 273 of the Kentucky Revised Statutes and is exempt from income taxes under Section 501(c)(4) of the Internal Revenue Code. The Association is governed by seven directors that are elected by members of the Association.

The Association, a nonprofit corporation, is a rural water utility system whose purpose is to establish, develop and operate a water supply and distribution system for its members and customers in Jackson and Rockcastle Counties, Kentucky. The Association’s primary source of revenue is from water sales to its members and customers, including public bodies and local businesses in its service area.

Basis of Accounting, Financial Presentation, and Measurement Focus

Not-for-profit organizations ordinarily present their financial statements in accordance with Accounting Standards Codification (ASC) 958-205. ASC 958-205 requires reporting amounts for a not-for-profit organization’s total assets, liabilities, and net assets in a statement of financial position; reporting the change in an organization’s net assets in a statement of activities; and reporting the change in its cash and cash equivalents in a statement of cash flows. ASC 958-205 also requires net assets be displayed in two classes – with donor restrictions and without donor restrictions.

The Association’s financial position, results of operations and cash flows are presented, along with relevant disclosures, in a format ordinarily used by entities similar to the Association in their organization and purpose. While this format differs in some respects from the guidance of ASC 958-205, management believes the presentation used enhances the relevance, understandability, and comparability of financial statements to those issued by similar organizations. The Association’s financial statements provide the basic information required by ASC 958-205, focus on the entity as a whole, and meet the common needs of external users of the Association’s financial statements.

The basic financial statements of the Association have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) as applied to governmental units. The Governmental Accounting Standards Board (“GASB”) is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units.

The Statement of Net Position and Statement of Revenues, Expenses and Changes in Net Position display information about the Association as a whole. These statements include all funds of the Association. The statements distinguish between governmental and business-type activities. The Association does not have any governmental activities.

The financial statements are prepared using the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Jackson County Water Association, Incorporated
Notes to Financial Statements (Continued)
December 31, 2020 and 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

Basis of Accounting, Financial Presentation, and Measurement Focus (Continued)

Operating income reported by the Association includes revenues and expenses related to the continuing operation of water service for its customers. Principal operating revenues are charges to customers for services. Principal operating expenses are the costs of providing the services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

Cash and Cash Equivalents

The Association considers demand deposits and certificates of deposits with maturities of 90 days or less to be cash equivalents.

Investments

Investments consist of certificates of deposit with maturity dates of three months or more. Certificates of deposit are carried at fair value on the accompanying financial statements.

Accounts Receivable

Receivables include amounts due from customers for water services. These receivables are due at the time the services are billed. Billing is completed monthly and accounts are considered past due on the twenty first day after the end of each billing period. Accounts receivable are presented net of uncollectible accounts. The allowance amount is estimated using a percentage of accounts past due more than 30 days. At December 31, 2020 and 2019, the allowance for doubtful accounts was \$46,500 and \$30,727, respectively.

Unbilled Accounts Receivable

Estimated unbilled revenues from water sales are recognized at the end of each fiscal year on a pro rata basis. The estimated amount is based on billing during the month following the close of the fiscal year.

Inventory and Prepaid Expenses

Inventory, consisting primarily of water treatment chemicals, pipe and replacement parts for the water distribution system, is stated at cost on the first-in, first-out basis. Prepaid expenses represent payments to vendors that benefit future reporting periods and are reported on the consumption basis.

Capital Assets

Property and equipment are recorded at cost. Depreciation is provided by the straight-line method over the estimated useful life of the depreciable property. The range of useful lives of assets is as follows:

| <u>Asset Classification</u> | <u>Range of Lives</u> |
|------------------------------------|-----------------------|
| Water purification | 20 - 40 years |
| Transmission mains and accessories | 40 years |
| Buildings | 40 years |
| Equipment and vehicles | 5 - 10 years |

Jackson County Water Association, Incorporated
Notes to Financial Statements (Continued)
December 31, 2020 and 2019

Note 1 – Summary of Significant Accounting Policies (Continued)

Income Taxes

The Association has received notification from the Internal Revenue Service that it qualifies as a 501(c)(4) tax exempt organization and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Internal Revenue Code and similar provisions of state law.

The Association has adopted Accounting Standards Codification (ASC) 740-10 as it relates to uncertain tax positions and has evaluated its tax positions taken for all open years. Currently, the 2020, 2019, 2018 and 2017 tax years are open and subject to examination by the Internal Revenue Service. However, the Association is not currently under audit nor has the Organization been contacted by any of these jurisdictions.

Any interest and penalties recognized associated with a tax position are classified as current expenses in the Association's financial statements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Net Position

The Association has adopted accounting guidance, GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. Net position is comprised of the various net earnings from operating income, non-operating revenues and expenses, and capital contributions. Net position is classified in the following three components:

Net investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

Restricted – This component of net position consists of restricted assets less liabilities and deferred inflows of resources related to those assets. Restricted assets are those with limits on their use that are externally imposed constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – This component of net position consists of net amounts of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of the net investment in capital assets or the restricted component of net position.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the Association would typically use restricted assets first, but reserves the right to selectively spend unrestricted assets first.

Jackson County Water Association, Incorporated
Notes to Financial Statements (Continued)
December 31, 2020 and 2019

Note 2 – Restricted Assets

The Association considers all sinking fund deposits, funds required for other debt service, and funds related to specific projects or customer accounts to be restricted. At December 31, 2020 and 2019 restricted cash amounted to \$400,188 and \$426,671, respectively. This includes restrictions for customer deposits of \$23,988 and \$19,717, respectively, and restrictions for debt service of \$376,200 and \$346,250, respectively. This also includes \$0 and \$60,964 restricted for capital projects at December 31, 2020 and 2019, respectively. In addition, revenues from the operations of the Association are pledged as collateral on long-term debt.

Note 3 – Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Association's deposits may not be returned to it. The Association does not have a deposit policy for custodial credit risk. As of December 31, 2020 and 2019, \$4,492,422 and \$4,557,895, respectively, of the Association's bank balances of \$4,742,422 and \$4,807,895 were exposed to custodial credit risk as follows:

| | <u>2020</u> | <u>2019</u> |
|---|---------------------|---------------------|
| Uninsured and uncollateralized | \$ - | \$ - |
| Uninsured and repurchase agreements held by bank, and sweep account balances secured by collateral held by bank | 4,492,422 | 4,557,895 |

Jackson County Water Association, Incorporated
Notes to Financial Statements (Continued)
December 31, 2020 and 2019

Note 5 – Long-Term Debt (Continued)

During 2017, the Association began a construction project to expand their current water system. The construction project was completed during 2019. The total estimated cost of the project was \$5,300,000, of which \$488,000 was contributed by the Association, \$905,000 was provided by a grant from the United States Department of Agriculture (USDA), and the remaining \$3,907,000 was financed through USDA. The construction loan will be amortized over 40 years at an interest rate of 2%. At December 31, 2019 and 2018, draws against the loan totaled \$3,907,000 and \$3,061,093, respectively. The provisions of the loan require annual interest payments in 2018 and 2019, with principal and interest payments commencing in 2020. Interest expense of \$58,192 and \$22,185 was capitalized during the years ended December 31, 2019 and 2018, respectively, during the construction phase of the project.

Real estate mortgages on the property of the Association are pledged as collateral on the long-term debt. In addition, revenues from the operations of the Association are pledged as collateral on the long-term debt, as described in Note 2.

The following is a summary of long-term debt transactions for the year ended December 31, 2019:

| | Balance <u>Dec. 31, 2018</u> | <u>Additions</u> | <u>Payments</u> | Balance <u>Dec. 31, 2019</u> | <u>Due Within One Year</u> |

Jackson County Water Association, Incorporated
Notes to Financial Statements (Continued)
December 31, 2020 and 2019

Note 6 – Retirement Plan

The Association has a retirement plan which covers employees age eighteen or older who have completed twelve months of service. The plan allows participants to make contributions by salary reduction, pursuant to Section 401(k) of the Internal Revenue Code. The Association makes contributions to the plan on the basis of up to 4% of the participant's compensation. Plan expenses incurred by the Association during 2020, 2019, and 2018 were \$24,453, \$21,801 and \$23,067, respectively.

Note 7 – Risk Management

The Association is exposed to various risks of loss related to limited torts; theft of, damage to, and destruction of assets; errors and omissions and natural disasters for which the Association carries commercial insurance. There have been no significant reductions in coverage for the year and settlements have not exceeded coverage in the past three years.

Note 8 – Subsequent Events

Date of Management Evaluation

The world-wide outbreak of COVID-19 is having a major impact on the normal business activities in the United States and the state of Kentucky. Measures taken by various government entities to contain the virus have affected economic activity. Management has taken several measures to monitor and mitigate the effects of COVID-19, such as safety and health measures for our employees and customers and securing the supply of materials that are essential to our operations. The Organization will continue to follow the various government policies and advice and will do its utmost to continue operations in the best and safest way possible without jeopardizing the health of its employees and customers. It is uncertain what, if any, effect future developments in the pandemic will have on the Organization. As a result, management has not yet determined the impact it may have on its financial position, results of operations and cash flows.

Management of the Association has evaluated subsequent events through March 18, 2021, the date on which the financial statements were available to be issued.

Independent Auditors' Report On Internal Control Over Financial Reporting
And On Compliance And Other Matters Based On An
Audit Of Financial Statements Performed In Accordance
With *Government Auditing Standards*

To the Commissioners
Jackson County Water Association, Incorporated
Tyner, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Jackson County Water Association, Incorporated (a nonprofit organization), which comprise the statement of net position as of December 31, 2020, and the related statements of revenues, expenses and changes in net position and cash flows for the year then ended, and the related notes to the financial statements, which collectively comprise Jackson County Water Association, Incorporated's basic financial statements, and have issued our report thereon dated March 18, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Jackson County Water Association, Incorporated's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Jackson County Water Association, Incorporated's internal control. Accordingly, we do not express an opinion on the effectiveness of the Association's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control that we consider to be material weaknesses (See items 2020-1 and 2020-2).

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Jackson County Water Association, Incorporated's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance and other matters that are required to be reported under *Government Auditing Standards*.

Jackson County Water Association Incorporated's Response to Findings

Jackson County Water Association, Incorporated's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. Jackson County Water Association, Incorporated's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Schedule of Findings and Responses
December 31, 2020

A. Findings – Financial Statement Audit

2020-1

Criteria:

As discussed in *Standards for Internal Control in the Federal Government* published by the General Accounting Office of the United States, internal control is an integral component of an organization's management that provides reasonable assurance that an objective of reliable financial reporting is being achieved. Organizations should implement procedures to ensure this objective is achieved.

Condition:

During the audit procedures performed, instances of this objective not being completely achieved were noted.

Cause:

The Association's limited internal resources prevent the preparation of financial statements and related note disclosures in accordance with generally accepted accounting principles.

Effect:

The Association was unable to prepare their financial statements and related note disclosures in accordance with generally accepted accounting principles.

Views of responsible officials and planned corrective actions:

The Association understands the responsibility related to financial reporting rests with management. The Association also understands the cost benefit concept with regard to this particular finding. The Association believes it is not cost effective to attempt to overcome this finding. Management has reviewed a draft of the financial statements and accepts responsibility for its contents.

2020-2

Criteria:

As discussed in *Standards for Internal Control in the Federal Government* published by the General Accounting Office of the United States, internal control is an integral component of an organization's management that provides reasonable assurance that an objective of reliable financial reporting is being achieved. Organizations should implement procedures to ensure this objective is achieved.

Condition:

During the audit procedures performed, instances of this objective not being completely achieved were noted.

Cause:

The size of the Association's office staff does not allow for proper segregation of duties in the areas of accounts receivable, cash receipts, and payroll.

Effect:

This condition creates a weakness in internal controls that could provide opportunity for misappropriation of funds that may not be detected.

Views of responsible officials and planned corrective actions:

The Association does not believe it is cost effective to hire additional staff to overcome this finding. The Association will consider implementing mitigating controls to reduce risk related to lack of segregation of duties
