Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Kentucky Mountain Housing Development Corporation, Inc. as of June 30, 2013, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 7, 2014, on our consideration of Kentucky Mountain Housing Development Corporation, Inc.'s internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

KENTUCKY MOUNTAIN HOUSING DEVELOPMENT CORPORATION, INC.
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

Kentucky Mountain Housing Development Corporation, Inc. is a faith-based non-profit corporation whose mission is to provide safe, decent and affordable housing for low and very low income families in Southeastern Kentucky. The organization provides both construction and financing to eligible families.

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles.

Basis of Presentation

Financial statement presentation follows the recommendations of the Financial Accounting Standards Board in its Accounting Standards Codification, ASC 958-10 *Not-for-Profit Entities*. Under FASB ASC 958-210, the Organization is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. Accordingly, net assets of the Organization and changes therein are classified and reported as follows:

- Unrestricted net assets – Net assets that are not subject to donor-imposed stipulations.
- Temporarily restricted net assets – Net assets subject to donor-imposed stipulations that may or will be met, either by actions of the Organization and/or the passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the Statement of Activities as net assets released from restriction.
- Permanently restricted net assets – Net assets subject to donor-imposed stipulations that they be maintained permanently by the Organization. Generally, the donors of these assets permit the Organization to use all or part of the income earned on any related investments for general or specific purposes.

Expense Allocation

Expenses are charged to programs and supporting services based on the use of expenditures. Management and general expenses include those expenses that are not directly identifiable with any other specific function but provide for the overall support and direction of the Organization.

Income Tax Status

The Organization is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. In addition, the Organization qualifies for the charitable contribution deduction under Section 180(b)(1)(A) and has been classified as an organization that is not a private foundation under Section 509(a)(1).

The Financial Accounting Standards Board (FASB) has issued ASC 740, Accounting for Uncertainty in Income Taxes, which requires entities to disclose known or anticipated positions of income tax uncertainty. The Organization is not aware of any uncertain income tax positions as of February 7, 2014. The Organization has never been audited by the Internal Revenue Service (IRS), however, the tax years of 2009 forward could be subject to examination by the IRS or other applicable tax jurisdictions.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Revenue Recognition

Kentucky Mountain Housing Development Corporation, Inc. receives funding from federal, state and other non-profit organizations. The funding can be for a variety of housing programs including forgivable loans, low interest loans, counseling grants, or development programs. Revenue recognition depends on the contracts and grants. Construction management fees and interest income are recognized when earned.

Any of the funding sources may, at its discretion, request reimbursement for expenses or return of funds, or both, as a result of non-compliance by Kentucky Mountain Housing Development Corporation, Inc. with the terms of the grants/contracts.

The Organization recognizes revenues on the completed-contract method. That method is used because the typical contract is completed in two months or less, and financial position and results of operations do not vary significantly from those that would result using the percentage-of-completion method. A contract is considered complete when a customer accepts the work.

Donations and Promises to Give

Donations received may be recorded either as unrestricted, temporarily restricted, or permanently restricted support depending on the existence of any donor restrictions.

Donations are recognized when the donor makes a promise to give to the Organization that is, in substance, unconditional. Donations that are restricted by the donor are reported as increases in unrestricted net assets if the restrictions expire in the year in which the contributions are recognized.

The Organization uses the allowance method to determine uncollectible, unconditional promises receivable. The allowance is based on prior years' experience and management's analysis of specific promises made.

Cash and Cash Equivalents

Cash equivalents consist of all demand deposits and highly liquid investments not permanently restricted with an initial maturity date of one year or less. Accordingly, carrying amounts approximate fair value due to their short-term nature.

Investments

The Organization carries investments in equity securities with readily determinable fair market values and all investments in debt securities at their fair values in the Statement of Financial Position. Unrealized gain and losses are included in the change in net assets in the accompanying Statement of Activities.

KENTUCKY MOUNTAIN HOUSING DEVELOPMENT CORPORATION, INC.
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Inventory

Inventory generally consists of houses reacquired by the Organization and is carried at cost plus the cost of any improvements or repairs and is limited to the net realizable value.

Allowance for Uncollectible Loans

The Organization has not had sufficient experience with bad debts to establish a policy. The Organization considers loans receivable to be fully collectible. Additionally, the Organization treats all forgivable deferred loans as bad debts due to the terms of the loans.

Fixed Assets

Kentucky Mountain Housing Development Corporation, Inc. follows the practice of capitalizing all expenditures for property, furniture, fixtures and office equipment in excess of \$500. Depreciation has been calculated on each class of depreciable property using the straight-line method over the estimated useful lives of the assets as follows:

| | |
|------------------------|----------|
| Office Equipment | 5 years |
| Leasehold Improvements | 15 years |
| Buildings | 40 years |

Fixed assets are stated at cost. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is reflected in income for that period. The cost of maintenance and repairs is charged to expense as incurred; significant renewals and betterments are capitalized.

Contributed Services

Services contributed to the Organization are recorded at fair market value by the donor. The contributed services are recorded as income and expensed in the same period. In addition, many individuals volunteer their time and perform a variety of tasks that assist the Organization, but these services do not meet the criteria for recognition as contributed services.

Subsequent Events

Management of the Organization has considered subsequent events through February 7, 2014, the date this report becomes available for issue.

NOTE 2 – CASH AND CASH EQUIVALENTS

As of June 30, 2013 the carrying amount of the Organization's cash and cash equivalents was \$3,179,505. The Organization maintains its cash balance with several financial institutions in Southeastern Kentucky. From time to time, the Organization's cash balances may exceed federally insured limits. The Organization considered the risk associated with excess cash balances to be minimal.

NOTES TO FINANCIAL STATEMENTS

NOTE 3 – NOTES RECEIVABLE

A portion of the notes receivable represents balances which are forgiven that are set for a period of years that are stated in the loan agreement. These loans are considered to be forgiven when the agree-upon number of years has expired. Forgivable loans at June 30, 2013 were \$ 550,175.

The composition of recorded investment in loans by segment is as follows:

Homeownership-Amortized:

These loans are used to assist customers in obtaining affordable housing. These loans have a 30 to 33 year maximum term. The interest rate varies upon affordability for each customer depending on the circumstances. The interest rate may vary from 1 to 3% depending on verified income of customers. At June 30, 2013, our maximum interest rate is 3%, but the minimum interest rate is 1%.

Homeownership-Forgivable:

There are circumstances where the housing cannot be affordable to the customer without some type of grant to the customer or some type of forgivable loan involved. Kentucky Mountain Housing Corporation, Inc. will always add subsidy to each house according to the affordability gap. Typically, up to 35% may be granted to each unit. Some organizations, such as Kentucky Housing Corporation or Rural Development provide funds and will allow those funds to be either granted or forgiven over a period of time (generally 5 to 10 years) in order to assist a customer with affordability.

Home Repair Loans-Amortized:

These loans are used to assist customers in making home repair improvements to their homes. These types of repair/improvements could take the form of heating, air conditioning, new roof, vinyl siding, room addition (in the case of overcrowding in the unit), plumbing, and wiring.

By making the improvements, the customers save money on their utility bills which in turn make their existing housing more affordable. The terms of these loans vary and are usually carry a 1 to 2 % interest rate.

Home Repair Loans-Forgivable:

Some organizations provide funds that may be in the form of a grant or may take the form of a forgivable loan. The loan may be forgiven over a period of time (generally 5-10 years) in order to allow the customer to make necessary improvements to their homes. Again, these types of repair/improvements could take the form of heating, air conditioning, vinyl siding, room additions, plumbing and wiring. As with the Home Repair Loans which are amortized, the improvements made with the Home Repair Loan-Forgivable program allow the customers to save money on utility bills which in turn make the existing home more affordable.

KENTUCKY MOUNTAIN HOUSING DEVELOPMENT CORPORATION, INC.
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013

NOTE 3 – NOTES RECEIVABLE (CONTINUED)

The treatment of these loan segments is consistent with the By-laws and Policies and Procedures adopted by Kentucky Mountain Housing Corporation, Inc.

Notes receivable consisted of the following at June 30, 2013:

| | |
|------------------------------------|---------------------|
| Homeownership Amortized | \$ 7,594,726 |
| Homeownership Forgivable | 481,006 |
| Home Repairs Amortized | 524,916 |
| Home Repairs Forgivable | <u>69,169</u> |
| Total | \$ 8,669,817 |
| Less allowance for loan losses | <u>668,250</u> |
| Notes receivable, net of allowance | <u>\$ 8,001,567</u> |

ALLOWANCE FOR LOAN LOSSES

Kentucky Mountain Housing Corporation, Inc. has established a methodology to determine the adequacy of the allowance for loan losses that assesses the risks and losses inherent in their loan portfolio. For purposes of determining the allowance for loan losses, Kentucky Mountain Housing Corporation, Inc. segments the forgivable loans separate from all other loans in its loan portfolio. The loans are segmented into the following categories: forgivable and all other loans.

The allowance for forgivable loans is equal to 100% of all outstanding forgivable loans.

The allowance for all other loans is based upon a percentage of all other loans overdue at the ending of any given period. The percentages have been determined based upon historical data (an average for the last four years) for Kentucky Mountain Housing Development Corporation, Inc.'s loan collections and delinquencies.

- Loans 60-89 days delinquent are reserved at 5.61%
- Loans 90-119 days delinquent are reserved at 7.56%
- Loans 120-180 days delinquent are reserved at 12.20%

Kentucky Mountain Housing Development Corporation, Inc. has also taken into account any properties conveyed back to the organization via foreclosure or deed in lieu as an additional component of the allowance for loan losses. The Organization's Loan Committee and Board of Directors reviews property listings, appraised values of properties, and the total value of investment that Kentucky Mountain Housing Development has, and makes additional reserves when necessary in order to account for losses on those properties.

NONPERFORMING LOANS

Kentucky Mountain Housing Development Corporation, Inc. considers any loan as nonperforming when days delinquent exceed 180 days or the loan has been modified in a Troubled Debt Restructuring.

AGE ANALYSIS OF PAST DUE FINANCING RECEIVABLE BY CLASS

The following table shows an aging analysis of the recorded investment of past due loans receivables as of June 30, 2013.

IMPAIRED LOANS

Kentucky Mountain Housing Development Corporation, Inc. considers a loan impaired when, based on current information and events, management determines that the organization will not be able to collect all amounts due according to the loan contract, including scheduled interest payments. Determination is the same across all classes of loans. When a loan is identified as impaired the measure of impairment is determined by calculating the present value of future cash flows, discounted at the loan's effective interest rate, except when the sole remaining source of the repayment for the loan is the operation of the collateral. In these cases, Kentucky Mountain Housing uses the fair value of the collateral, less selling costs when foreclosure is probable, instead of discounted cash flows. If it is determined that the value of the impaired loan is less than the recorded investment in the loan, impairment is recognized through an increase to the allowance. Kentucky Mountain Housing Development Corporation, Inc. determines impairment based on a 180 day default period and all loans that are subject to Troubled Debt Restructuring. The organization had 8 impaired loans as of June 30, 2013. These loans were over 180 days delinquent with a principal balance of \$89,473.

 NOTES TO FINANCIAL STATEMENTS

NOTE 4 – NET ASSETS

Organizations may have certain contractual or other limitations placed on the use of net assets other than those resulting from donor-imposed restrictions. If the limitations or restrictions on net assets do not relate to donor stipulations, the net assets are unrestricted. Certain government grants that are exchange transactions may have restrictions limiting the organization's use of the funds. If there are restrictions related to these exchange transactions, the associated net assets are unrestricted because the restrictions are imposed by the other party to the exchange, not by a donor.

Exchange transactions are reciprocal transfers in which each party receives and gives up something of value. Exchange transactions that give rise to revenues typically involve an organization's efforts to provide goods or services to its members, clients or customers. Revenues for these transactions are recorded in the financial statements when the amounts are realized (convertible into cash) and when earned (activities prerequisite to obtaining benefits have been completed). The organization considers all grant revenue received to be exchange transactions.

KENTUCKY MOUNTAIN HOUSING DEVELOPMENT CORPORATION, INC.
 NOTES TO FINANCIAL STATEMENTS
 JUNE 30, 2013

NOTE 8 – INVESTMENTS AND FAIR VALUE MEASUREMENTS

Investments held by the Organization consisted of the following as of June 30, 2013:

| | |
|---|-----------------------|
| The Brethren Foundation – Balanced Fund | \$ 282,612 |
| The Brethren Foundation – Domestic Stock Fund | 477,172 |
| The Brethren Foundation – International Stock Core Fund | <u>56,686</u> |
| Total | <u>\$ 816,470</u> |

The Organization has categorized its financial instruments, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The hierarchy gives the highest priority to unadjusted quoted prices in an active market for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument. Financial assets and liabilities recorded on the statement of financial position are categorized based on the inputs to the valuation techniques as follows:

Level 1 - Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the Organization has the ability to access.

Level 2 – Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable whether directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in non-active markets;
- Pricing models whose inputs are observable for substantially the full term of the asset or liability; and
- Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the asset or liability.

Level 3 – Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

The Organization's fair value of securities available for sale measured on a recurring basis at June 30, 2013 was as follows:

| | Fair Value | Fair Value Measurements at Reporting Date Using | | |
|---|-------------------|--|---|--|
| | | Quoted Prices In Active Markets For Identical Assets/Liabilities (Level 1) | Significant Other Observable Inputs (Level 2) | Significant Unobservable Inputs (Level 3) |

NOTE 8 – INVESTMENTS AND FAIR VALUE MEASUREMENTS (CONTINUED)

Available-for-Sale securities measured at fair value on a recurring basis using significant unobservable inputs (Level 3):

| | |
|--|-------------------|
| July 1, 2012 | \$ 683,619 |
| Total gains and losses – unrealized | |
| Included in earnings | 132,851 |
| Included in other comprehensive income | |
| June 30, 2013 | <u>\$ 816,470</u> |

Fair value for investments is determined by reference to quoted market prices and other relevant information generated by market transactions. There have been no changes in valuation techniques and related inputs.

NOTE 9 – INVENTORY (FORECLOSED ASSETS)

Inventory consists of houses reacquired by the Organization and is carried at cost plus the cost of any improvements or repairs and is limited to the net realizable value.

Schedule of changes in inventory for the fiscal year ended June 30, 2013 was as follows:

| | | | |
|----------------------|------------------|--------------------|----------------------|
| Balance | | Sales or | Balance |
| <u>June 30, 2012</u> | <u>Additions</u> | <u>Write-downs</u> | <u>June 30, 2013</u> |

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Kentucky Mountain Housing Development Corporation, Inc.'s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
