Order Entered:

1. North Shelby Water Company's proposed revisions, as modified by order paragraphs 2 and 3, are approved as of the date of this Order.

2. North Shelby Water Company shall modify proposed Sheet No. 10.1 to read:

The public fire hydrants and flush hydrants installed on the distribution lines of this Company are for the purpose of flushing the lines or other uses by the Company necessary for proper maintenance of the system and, if the hydrant meets the requirements of 807 KAR 5:066, Section 10(2)(b), for use in firefighting activities. The Company does not guarantee any particular flow rate or pressure to these hydrants or to any customer's private fire suppression system. The flow rate and pressure may vary depending upon other water demands on the system, various water facility limitations, or other circumstances, including but not limited to a closed fire hydrant or other valve, frozen fire hydrants, line break(s), low or empty water tank(s), drought or other act of God, altitude valve failure(s), telemetry failure(s), and/or power failure(s). If fire hydrants are used by fire suppression units in the performance of their duty, any damage to the Company's water system will be the liability of that unit.
