SUSPENSION DATE:

CASE CODE
Other

UTILITIES:
Big Rivers Electric Corporation

HEARINGS:

10/22/20	Formal Hearing
03/05/20	Informal Conference
02/27/20	Informal Conference

INDEX OF EVENTS:

12/08/21	Order Entered: 1. BREC's motion for confidential treatment is granted. 2. The designated material granted confidential treatment by this Order shall not be placed in the public record or made available for public inspection for five years or until further Order of this Commission. 3. Use of the designated material granted confidential treatment by this Order in any Commission proceeding shall comply with 807 KAR 5:001, Section 13(9). 4. BREC shall inform the Commission if the designated material granted confidential treatment by this Order becomes publicly available or no longer qualifies for confidential treatment. 5. If a nonparty to this proceeding requests to inspect the material granted confidential treatment by this Order and the period during which the material has been granted confidential treatment has not expired, BREC shall have 30 days from receipt of written notice of the request to demonstrate that the material still falls within the exclusions from disclosure requirements established in KRS 61.878. If BREC is unable to make such demonstration, the requested material shall be made available for inspection. Otherwise, the Commission shall deny the request for inspection. 6. The Commission shall not make the requested material available for inspection for 30 days from the date of service of an Order finding that the material no longer qualifies for confidential treatment in order to allow BREC to seek a remedy afforded by law.
08/02/21	Final Order Entered: 1. BREC's request for an order finding that it correctly performed the calculations contained in the "Interim Accounting Summary" attached to the application, or as updated as of December 31, 2019, is denied. 2. The Commission does find that BREC's Interim Accounting Summary, as updated for costs through December 31, 2019, accurately calculated the amounts due to BREC or Henderson pursuant to the Station Two Contracts, except as follows: a. Any operating and maintenance or other costs in FY 2018/2019, subject to allocation based on Henderson's capacity reservation, shall be allocated based on a reservation of 120 MW, as opposed to the 125 MW proposed by BREC, which results in a reduction in the amount owed to BREC of $227,045 as indicated above; b. Henderson is not required to pay $143,400 of the severance costs included in the Interim Accounting Summary due to the difference in the actual and projected costs; and c. Henderson is required, pursuant to the Station Two Contracts, to share in the costs of decommissioning Station Two and joint-use facilities as discussed above, but the Commission currently declines to make a specific finding regarding the amounts owed, including whether the amount in the Interim Accounting Summary is accurate, for the reasons discussed above.
